APPROPRIATION AND TAX ORDER FOR SCHOOL DEPARTMENT FOR FISCAL YEAR COMMENCING JULY 1, 1993, AND ENDING JUNE 30, 1994 (DOCKET NO. 0682)

The following was received:

City of Boston
Office of the Mayor

April 14, 1993

To the City Council.

Dear Councillors:

I transmit herewith an appropriation order in the amount of \$374,000,000 for the Boston School Department for FY94, submitted pursuant to the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 190 of the Acts of 1982, as further amended by Chapter 701 of the Acts of 1986, Chapter 613 of the Acts of 1987 and Chapter 108 of the Acts of 1991.

This requested appropriation when combined with the \$4.5 million in state Equal Educational Opportunity Grant and federal Impact Aid, will make available to the School Department \$378.5 million for FY94 in direct operating funds. The School Department projects an additional \$68.2 million in categorical grant funds, for a total operating budget of \$445.7 million. In addition, the City's FY94 Capital Plan outlines \$191.5 million in school investment, a \$13.3 million increase over last year's plan.

With the City facing the fourth consecutive year of decreasing or level local aid, I have made the difficult, but necessary decision to level fund the School Department in FY94. The School Committee and Superintendent have worked diligently to allocate available revenues to direct instructional services, despite a \$4 million increase in fixed costs.

Over the last four years it has been my goal to hold harmless essential basic services such as education, public safety and public health and make reduction in administrative departments. Between FY89 and FY 94, the School Department's appropriation increased by 5.35 percent, the Department of Health and Hospital's by 7.11 percent, the Community Centers' by 5.36 percent, the Fire Department's by 3.53 percent, and the Police Department's by 8.10 percent, while administrative departments budgets decreased 27.4 percent over the same period.

For the second consecutive year, the School Committee submitted a budget within appropriation. At the same time the Committee is looking forward to ending FY93 with a balanced budget for the third consecutive year. In FY94 an automated school-based budget development process has been implemented, resulting in better coordination of general funds and external funds. A significant step has been made in the fiscal accountability of the Boston School Committee.

Even as I transmit this appropriation for your review, a Joint Legislature Conference Committee is discussing education reform legislation. While your review of the School Department's budget is taking place, agreement on education reform may lead to change and additional funding for Boston. It is my great hope that these discussions not only result in some additional funding for Boston but make a true reform in education long needed across the Commonwealth.

I respectfully request your support of the FY94 appropriation for the Boston School Department.

Sincerely,

Raymond L. Flynn,
Mayor.

Ordered, That pursuant to Chapter 224 of the Acts of 1936, as amended by Chapter 190 of the Acts of 1982, and as further amended by Chapter 701 of the Acts of 1986, Chapter 613 of the Acts of 1987, and Chapter 108 of the Acts of 1991, to meet the current operating expenses of the School Department in the fiscal period commencing July 1, 1993, and ending June 30, 1994, the sum of THREE HUNDRED SEVENTY-FOUR MILLION DOLLARS (\$374,000,000) be, and the same hereby is, appropriated, said sum to be raised by taxation pursuant to Section 23 of Chapter 59 of the General Laws:

MWRA BOARD APPROVES NEW FINANCIAL ADVISOR, UNDERWRITER

The Massachusetts Water Resources Authority Board of Directors has unanimously approved the selection of a new financial advisor and a team of bond underwriters who, for the first time in Massachusetts, were required by MWRA to disclose the identity of political contributors, lobbyists and the existence of any interlocking business agreements between firms.

"It is in the ratepayers' best interest and public's best interest that we know as much as possible about those seeking to do business with MWRA," said MWRA Executive Director Douglas B. MacDonald. "Through our new disclosure requirements, we are able to provide both an assurance that politics plays no role in the selection of our financial team and that ratepayers get the best deal from firms providing financial services to MWRA."

MacDonald said two selection committees composed of MWRA employees, Board members, a representative of the Executive Office of Environmental Affairs and the Executive Director of the MWRA Advisory Board, reviewed 48 submittals by financial firms. Technical advisors to the selection committees reviewed proposals for potential business conflicts. Selection committee members were not allowed to review the list of political contributions to isolate members from potential persuasion. Financial firms also had to certify that no conflicts existed.

MacDonald said that he was not surprised that political contributions were made to various politicians and candidates by financiers. "It is MWRA's role to assure the public that a selection process is not politicized in any way. We can also tell

financiers we are in no way influenced by whom they may wish to support politically. It's important that the public perception that political contributions play a role in contract awards be diminished."

MacDonald noted that MWRA's requirements for financial disclosures are designed to prevent back room deals from being cut between firms at the expense of MWRA ratepayers.

MWRA selected the joint venture of Lamont Financial Servicers Corp. of Wayne, N.J., and P. G. Corbin & Co., Inc., of Philadelphia, PA, as financial advisor.

Bear, Stearns and Co. Inc., Goldman, Sachs & Co. and Prudential Securities Incorporated were selected as senior managers of the new bond underwriting team. Fifteen other firms complete the underwriting syndicate.

OUR BOSTON

Each week the *City Record* will publish the background of Boston's forty-six mayors. The information presented was collected and researched by the former editor of the *City Record* Mr. Joseph Fahey with the assistance of Robert Hannon, Chief of Research, Boston City Council, and the late Francis Moloney, former Assistant Director of the Boston Public Library.

40th Mayor FREDERICK W. MANSFIELD 1934-1937

Boston was led through the belt-tightening midthirties by a distinguished, outwardly-austere lawyer, Frederick W. Mansfield. The period of strife was punctuated by exchanges in his feud with predecessor mayor James Michael Curley.

Mansfield's administration had to face a mounting city welfare burden and declining real estate tax payments because of unemployment. He was forced to continue the previous mayor's cut in municipal pay scales and for a time instituted voluntary "payless furloughs" for workers making over \$950 a year.

Nevertheless the Democratic mayor left significant additions to the municipal plant. Through Works Progress Administration federal aid projects he saw various capital additions, including the Huntington Avenue subway extension; the Huntington Avenue underpass; and parks upgrading.

In addition, the Mansfield term at City Hall saw construction of the nine-story City Hospital surgical building; Faneuil Hall reconstruction; seven new schools; opening of the George Wright public golf course in Franklin Park; reduction of the city's net debt; and modernization of city accounting and auditing systems. Mansfield reorganized and decentralized the

Welfare Department but was unsuccessful in seven attempts to consolidate and cut in half the then forty-three separate city departments.

Mayor Mansfield frequently took his appeals for municipal reform and

economies to the hard-pressed taxpayers, broadcasting from the radio room in the mayor's office suite at Old City Hall. Some of the broadcasts bitterly criticised Curley and charged a rash of abatements and hurried land damage settlements in the last weeks of the previous administration.

More than two decades later relations healed between the two antagonists. Mansfield sent a warm note acknowledging Curley's sympathy on the loss of his wife. The following year Mansfield died at age eighty-one. His death on November 6, 1958, came just six days before Curley's.

Mayor Mansfield was born March 26, 1877, in East Boston, son of immigrant Irish parents. He worked at a Maverick Square drug store, became a pharmacist, and enlisted in the Spanish American War. On return he took a law degree from Boston University Law School, and later became State AFL labor union counsel, championing labor legislation.

He became the first Democrat elected state treasurer in 1914, but twice was unsuccessful in his quest for the governorship in 1916 and 1917. He served twelve years on the State Judicial Council under five governors. He also served for twenty-nine years as counsel to the Boston Catholic Archdiocese and received various honors from his church.

Demanding high standards for himself and others in public life, Mansfield showed he could be

"kindly and considerate," in the words of a later mayor, John B. Hynes.

Mansfield's first try for mayor in 1929 pitted him unsuccessfully as the Good Government Association endorsee against Curley.

In the 1933 election he defeated former Mayor Malcolm Nichols.

Mansfield, a Back Bay resident, proposed some ideas in government before his time. He advocated a sales tax on nonnecessities and called for clearance of substandard residential areas and a housing program to create new low-income units. He urged, in addition, election of nine at-large councillors to serve the whole city instead of only a few of the twenty-two wards.

Mayor Mansfield also was among the first to call for elimination of county government, calling it a "useless encumbrance."

In addition to these videos from the NFPA there will be a video produced by the Boston Fire Department "Use It! Don't Abuse It!" about the dangers and hazards of false alarms. Members are encouraged to tell family and friends to watch these informative shows. A complete schedule of programs will be distributed when it is finalized.

A press release has been sent to all the local Boston papers and if you do not see an article on Fire Prevention Week in your local paper call them and ask why. If they want more information, they can contact Fire Fighter David Walsh in the Public Relations Office, extension 3415. Packages containing activity sheets, that teach fire prevention lessons, have been distributed to every school and Licensed Day Care Center in the city. To assist members in dealing with the public, each firehouse is being sent hand-outs, that can be used with adults or children, to give to the public. In addition each firehouse will be sent information dealing with this year's Fire Prevention Week Theme "GET OUT, STAY OUT: IT'S YOUR FIRE SAFE RESPONSE". Members should familiarize themselves with the information so that they can pass it on to the public, when they visit the firehouse.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of the contracts without advertising, based on the following communications:

LAW DEPARTMENT

C. 1898-94
August 17, 1993

Interns

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a sole source procurement contract to Suffolk University School of Law, Office of Financial Aid, located at 41 Temple Street, Boston, MA 02114. Because this contract is for reimbursement of a work-study grant from Suffolk University School of Law, it is not possible to obtain three quotations.

The purpose of this contract is to enable this department to pay the City's share of the salary paid to Suffolk University School of Law students who are employed as interns under work-study grants. This arrangement enables the City to hire third and fourth year law students to assist departmental attorneys in research and case preparation while incurring an expense amounting to Thirty Percent (30%) of their wage.

Disbursement under this contract shall not exceed Seven Thousand Five Hundred Dollars (\$7,500.00), which I have determined to be reasonable for the work to be performed.

The term of this contract shall be July 1, 1993, to June 30, 1994. This contract is being submitted late due to administrative processing difficulties in acquiring all papers necessary for contract processing.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Sincerely,
Albert W. Wallis,
Corporation Counsel.

MAYOR MENINO ANNOUNCES \$4.7 MILLION LEAD PAINT PROGRAM

MAYOR MENINO ANNOUNCES NEW LEAD PAINT PROGRAM: Acting Mayor Menino talks with Esther Greaves, Co-Chair of the Massachusetts Affordable Housing Alliance (MAHA) Lead Paint Action Committee, about a new \$4.7 million, city-sponsored lead paint abatement program he launched October 8th. The new program will assist Boston homeowners in de-leading over 400 units of high hazard housing affecting an estimated 1,000 children.

On October 8, Acting Mayor Thomas M. Menino announced the establishment of a new Lead Paint Abatement Program that will enable the city to de-lead over 400 units of high hazard housing affecting an estimated 1,000 children under 6 years old.

"A recent study by the Boston Women's Commission determined that one of the major obstacles faced by women with small children who are trying to find decent, affordable housing, is the issue of lead paint," said Mayor Menino. "This program is the first of what I hope will be many commitments by my administration to address the lead paint issue which affects many Boston families, children and landlords."

Mayor Menino announced the new program at the home of Vera Greene, a Roxbury homeowner and grandmother whose 2-year-old grandson was diagnosed with high lead levels in his blood due to the lead paint in her three-family home. Ms. Greene has since received help from the City of Boston to minimize further health risks.

The new program was made possible due to the receipt of a \$3.5-million competitive grant from the U.S. Department of Housing and Urban Development (HUD). The City is providing matching funds totalling \$1.24 million for the program. Boston was one of ten grantees from around the country chosen to develop a lead program which will incorporate the following components: Community Outreach/Education, Lead Paint Testing and Abatement, Temporary Relocation and Follow-up Testing and Data Collection.

The City's Public Facilities Department (PFD), acting as lead agency for the administration of the grant and in conjunction with the Department of Health and Hospitals (DHH), will educate homeowners and tenants on the hazards of lead paint and its dangerous effects on small children.

The program will be available citywide by the end of 1993, with primary target areas consisting of Dorchester, Roxbury and Mattapan. It will offer low- and moderate-income property owners grants and low-interest loans to cover the cost of lead-paint abatement in single and multi-family homes.

Mary Nee, Director of PFD, said, "In order to bolster the city's efforts to reach those families whose chil-

dren are most at risk, the new program will operate from a field office located in one of the target neighborhoods, allowing PFD staff the opportunity to work directly with homeowners in those areas that contain a high number of housing units with lead paint."

In addition, the city hopes to make over 2,000 home visits to families with children in high-risk housing and 200 group presentations through a network of neighborhood health centers, churches, civic associations and schools.

"Our group had worked long and hard to make this money available to people in our community," said Esther Greaves, Co-Chair of the Massachusetts Affordable Housing Alliance's (MAHA) Lead Paint Action Committee. "We're excited that the program is getting under way so we can protect our children and help financially strapped homeowners."

MAHA started organizing its Lead Paint Action Committee in 1991 as a response to the problems that lead causes for both homeowners and tenants in low- and moderate-income communities. Alliance members worked closely with the City in winning the federal funding and in designing the guidelines for the new program.

ACTING MAYOR THOMAS M. MENINO ANNOUNCES MAYOR'S CUP COMPETITION IN CROSS COUNTRY

Acting Mayor Thomas M. Menino announced the fourth annual Mayor's Cup competition in Cross Country, Sunday, October 24, 1993, at Franklin Park. The Mayor's Cup, New England's largest open cross country meet, was hosted by the Boston Parks and Recreation Department, and directed by the New England Association of USA Track and Field.

Events began at 10:00 a.m., with 2.2-kilometers (1.3-miles) youth races in three age categories — 10 and under, 11-12, and ages 13-14, based on year of birth. At 11:00 a.m., all high school runners and all open women ran a 5-kilometer (3.1-mile) course, with the open men's 8-kilometer (5-mile) race the finale at 11:30 a.m. Routes used from the 1991 USA Championship and 1992 World Championship Cross Country meets were followed.

The winner in each race received a silver "Mayor's Cup" bowl, while youth runners also won USATF Junior Olympics awards. Entry fee was \$2 for youth 14 and under, and \$5 for high school and adults. This event was the final event of a four-part series hosted by the Boston Parks and USATF over the month of October.

The Mayor's Cup began in 1990 with two races and thirty runners, while over three hundred runners were expected to compete in 1993. Three open division winners have gone on to represent the USA in World Cross Country Championship races, and current course records are by Lynn Jennings (15:25) and Brad Schlapak (23:50), both set in 1992.

The adult races also serve two additional functions. This year's Boston Mayor's Cup is the fourth stop on the USA Reebok Cross Country Grand Prix series, a seven-race circuit culminating at the USA Championships in Missoula, Montana, on November 27th. The top 5 runners in each race and at the end of the series receives cash awards from Reebok as part of the USATF national cross country development program. The current series leader is eight-time U.S. Champion Pat Porter of Colorado, who has won the first three series races. Should he win all seven events, a \$25,000 bonus will be his.

The meet was also selected as the USATF Eastern Regional for the 11 USATF associations spanning from Maine to Virginia.

For more information please call Bill Linehan at the Boston Parks and Recreation, 635-4505.

AND PANEL EXPLORES A
"NEW PUBLIC REALM"
AT BPL**

A related panel discussion chaired by Boston architect David Lee, chair of the competition jury, will take place on Tuesday evening, Nov. 2, at 6:30 p.m. in the Mazzanine Conference Room. The traveling exhibit contains 30 to the 232 entries in the *Progressive Architecture* competition and includes an area equipped with sketch pads and notebooks for visitors' reactions and suggestions.

The panel discussion and exhibit are free and open to the public. For additional information, please contact Lucy Pedler of the Architects for Social Responsibility at 617/547-8120 or the Boston Public Library at 536/5400, Ext. 336.

SHAKESPEARE AUTHORSHIP SUBJECT OF "LITERARY WHODUNIT" AT BPL

The Shakespeare authorship question — Did the man from Stratford-on-Avon write the works of William Shakespeare? — described by some as "the world's greatest literary whodunit," will be discussed by the current Lord Burford of England in the Mezzanine Conference Room of the Boston Public Library in Copley Square at 6 p.m. on Monday evening, November 1.

A growing number of Shakespeare enthusiasts have concluded that the man from Stratford-on-Avon, whose life is devoid of anything literary, did not write the poems and plays of Shakespeare. The weight of evidence is for Edward de Vere, the 17th Earl of Oxford, a highly educated nobleman who used William Shakespeare as his pen name.

Among the literary figures who have expressed disbelief that the man from Stratford wrote the plays were Ralph Waldo Emerson, Walt Whitman, Mark Twain, and Henry James. More recently, a number of other notables have concluded that the Earl of Oxford was the author. These include John Galsworthy, Sigmund Freud, Orson Welles, and J. Enoch Powell, MP.

Lord Burford is the title held today by Charles Vere, 28, a collateral descendent of Edward de Vere, the founder of the De Vere Society, and a trustee of the Shakespearean Authorship Trust. A graduate of Oxford University, he is a dynamic, authoritative advocate of the case for Oxford, which has taken on new life in recent years with the appearance of many books, magazine articles, and TV programs, including a PBS "Front Line" documentary.

The Earl is currently touring North America discussing the latest discoveries in the Shakespeare authorship question and enjoys the challenge of debates that he has encountered with audiences that have included the Folger Shakespeare Li-

brary, Harvard, Boston University, Yale, and Duke.

The lecture is free and open to the public. For additional information, please contact the Boston Public Library at 536-5400, Ext. 336.

ELLEN GOODMAN IN HARVARD AUTHOR SERIES READING AT BPL

Boston *Globe* columnist Ellen Goodman will read from her latest book, *Value Judgements*, a collection of more than 120 of her best nationally syndicated columns, as the Fall Harvard Book Store Café Author Series continues in the Rabb Lecture Hall of the Boston Public Library in Copley Square on Tuesday evening, November 2.

Her enduring subject, she writes in the book's introduction, is "the world as we experience it, a place where life spills over the retaining walls." Whether discussing Anita Hill and Clarence Thomas or the tensions and consolations of marriage and family life, she writes with candor, sense, and insight. "Her greatest asset as a writer," says Juana E. Duty of the *Los Angeles Times*, "is her ability to hit the nail on the head in those columns that deal with real people and the way they live."

Ms. Goodman, who is syndicated in 400 newspapers across the country, won a Pulitzer Prize for commentary in 1980. She lives with her husband in Brookline.

The series will continue on Nov. 17 with Elizabeth Debold, Marie Wilson, and Idelisse Malave (*Mother Daughter Revolution*). All readings are in the Rabb Lecture Hall at 6 p.m. and are free and open to the public, although seating is limited. An autographing session will follow each presentation at the Harvard Book Store Café on Newbury Street. For more information, please call the Boston Public Library at 536-5400, Ext. 336.

"CARIBBEAN FACES AND PLACES" IN PHOTOS AT BPL

"Caribbean Faces and Places," unique cultural, historical and photographic exhibition by recently returned Peace Corps Volunteer Ric Weinberg of Boston, will be on display, from Nov. 2 through Nov. 25 in the Boston Room of the Boston Public Library in Copley Square.

Weinberg served as a Peace Corps Volunteer for three years on Montserrat in the British West Indies from 1990 to 1992. He is one of more than 3,000 returned volunteers in the Boston area and the first to mount an exhibit of the Peace Corps experience for public display.

The colorful exhibit traces the history of the Caribbean culture from the arrival of Christopher Columbus to the present day and includes both color and black and white photographs from throughout the entire Caribbean region, including the Leeward and Windward Islands, the Greater Antilles islands of Puerto Rico, Hispaniola, and Jamaica. Some of the photographs are accompanied by descriptive poetry from the Caribbean.

The exhibit is cosponsored by the Boston Area Returned Peace Corps Volunteers, a nonprofit organization established for the purpose of carrying out one of the Peace Corps goals of promoting a better understanding of other people and countries among the American population. Its membership serves as a resource for global understanding by sharing the special skills and unique experience of living and working overseas in international development.

The exhibit is open to the public Monday through Thursday, from 10 a.m. to 9 p.m., and on Friday and Saturday, from 9 a.m. to 5 p.m. For additional information, please contact the Boston Public Library at 536-5400, Ext. 336.

KEEP BOSTON MOVING... SAFELY

HOLLYWOOD GOES TO WAR: THE PACIFIC

A Film Series

**Rabb Lecture Hall
Boston Public Library
Copley Square
Mondays, October 25 through
December 6, 1993
Introduction**

With the surprise attack on Pearl Harbor on December 7, 1941, the United States was plunged into the Second World War. The effect on Hollywood was immediate. Hollywood directors joined the War Department to make documentaries. Actors and actresses joined up and were soon entertaining the enlisted troops behind the front lines. Hollywood itself helped in the war effort by turning out movies about this war against fascism.

Hollywood Goes to War: The Pacific focuses on feature films produced during the war about our conflict with Japan. In some instances, the films were based on real events. In other instances, they were highly probable fiction. In any event, these movies were designed to fan the flames of patriotism among their audiences. In the fifty years since their making, the films still reflect the spirit of America that dominated the war years. The Boston Public Library is pleased to present this series of films in observance of the fiftieth anniversary of World War II.

**October 25 at 3:00 p.m.
They Were Expendable**

At the beginning of World War II, the Japanese Imperial Navy blockaded the Philippine Islands; thus trapping thousands of American troops. The United States Navy responded to the siege by using P-T Boats in hit and run attacks on the Japanese. Robert Montgomery and John Wayne star in this film based on the true story by William L. White. Also features Donna Reed and Ward Bond. John Ford directed this classic war drama.

Wake Island**
87 minutes. b/w. 1942.

In early 1942, the Japanese military juggernaut was rolling across the Pacific with the goal of capturing Hawaii. In their path stood Wake Island and a gallant unit of U.S. Marines determined to stop them. The film was nominated for several Academy Awards and stars Brian Donlevy, Macdonald Carey, Robert Preston, and William Bendix. Directed by John Farrow.

**November 15 at 6:00 p.m.
Guadalcanal Diary**
93 minutes. b/w. 1943.

A scant few months after the attack on Pearl Harbor, the United States began the offensive against the Japanese. Based on the best-selling book by Richard Tregaskis, the film follows the Marines as they struggle to gain a foothold on the island. The cast includes Preston Foster, Lloyd Nolan, William Bendix, and Anthony Quinn. Directed by Lewis Seiler.

**November 22 at 6:00 p.m.
Thirty Seconds Over Tokyo**
138 minutes. b/w. 1944.

Spencer Tracy portrays General James Doolittle, the man who planned the first bombing raid on Japan. The film chronicles the events that led up to the attack that the enemy thought America was incapable of achieving. Based on the book by Ted Lawson. Also stars Van Johnson, Robert Walker, and Phyllis Thaxter. Directed by Merwyn LeRoy with a screenplay by Dalton Trumbo.

**November 29 at 6:00 p.m.
Destination Tokyo**
135 minutes. b/w. 1943.

Cary Grant is the skipper of a submarine sent into Tokyo harbor to destroy a munitions dump. During the perilous voyage, he must not only avoid detection by the enemy but he has to deal with a rebellious seaman, played by John Garfield. The supporting cast includes Alan Hale, Dane Clark, and John Forsythe in his film debut. Directed by Delmer Daves. Note: This will be a video screening as 16mm film prints no longer exist.

**December 6 at 6:00 p.m.
Objective Burma**
142 minutes. b/w. 1945.

An American platoon parachutes into Japanese-occupied Burma to destroy an enemy radar station. When released, the film created a diplomatic incident with its failure to mention the British contribution to the war effort. Stars Errol Flynn, James Brown, and Henry Hull. Directed by Raoul Walsh.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

HOUSE OF CORRECTION

C 2975-94
July 20, 1993

Emergency Repairs

Dear Mr. Mayor:

Your Honor's permission is requested to dispense with public advertising and award a contract pursuant to M.G.L. c.30B, s8, for emergency repairs to the elevator systems at the Suffolk County House of Correction at South Bay to Beckwith Elevator Company, 274 Southampton Street, Boston, MA 02118, for the period of August 1, 1993, thru October 31, 1993.

In early July it was discovered that the elevator systems at the facility were in need of repairs to remain operational. The elevators had been failing on an almost daily basis and were impeding the ability of the institution's staff to move prisoners from building to building. Of particular concern was the fact that the only elevators providing service to the medical unit were both failing at the same time, thereby impeding access by inmates and staff to emergency and routine medical treatment.

Specifications were subsequently drawn up and written quotes were solicited from three elevator vendors for the work to be performed. Beckwith Elevator Company submitted a quote of twenty thousand nine hundred eighty-five dollars (\$20,985.00) which was the lowest responsive and responsible quote. Beckwith has had prior experience with the Suffolk County Sheriff's Department and is qualified to perform this work.

The total cost of this contract shall not exceed twenty thousand nine hundred eighty-five dollars (\$20,985.00) for the period August 1, 1993, thru October 31, 1993, which cost is reasonable for the services being provided.

Very truly yours,

Robert C. Rufo,
Sheriff.

The Department of Health and Hospitals has had a contract with Fenway Community Health Center for the past twenty-one years, during which time the Center has demonstrated its ability to have a significant impact on the health of the people in Boston's neighborhoods.

REPORT ON ORDINANCE RE WORKPLACE
SMOKING POLLUTION CONTROL (DOCKET
NO. 0414)

Coun. HENNIGAN, on behalf of the Committee on Government Operations, submitted the following:

Report on Docket No. 0414, ordinance re Workplace Smoking Pollution Control (referred February 10) recommending passage of the ordinance in the following new draft:

City of Boston

In the Year Nineteen Hundred and Ninety-three
An Ordinance

Workplace Smoking Pollution
Control Ordinance.

Be it ordained by the City Council of Boston, in accordance with the provisions of Massachusetts General Laws Chapter 43B, Section 13, and any other applicable law, as follows:

Legislative Intent — The use of tobacco for smoking purposes is found to be increasingly dangerous and life-threatening, not only to the person smoking, but also to the non-smoking person who is required to breathe air contaminated by environmental tobacco smoke. The most pervasive intrusion of the non-smokers' right to a healthy, unpolluted air space is the uncontrolled smoking in the workplace. The Boston City Council's intent, by the passage of this Ordinance, is to protect the health and welfare of the non-smoker by regulating smoking and the discomforting effect it creates in the confined environment of the workplace.

Title — This Ordinance shall be known as the BOSTON WORKPLACE SMOKING POLLUTION CONTROL ORDINANCE.

Purpose — Because the smoking of tobacco or any other weed or plant is extremely dangerous to health and is a cause of material annoyance and discomfort to those employees who are exposed to it and have, of economic necessity, to work in the confines of a workplace, the City Council hereby declares that the purposes of this act are (1) to protect the public health and welfare by regulating smoking in the workplace, and (2) to minimize the toxic effects of smoking in the workplace by requiring an employer to adopt a policy that will accommodate, insofar as possible, the preferences of non-smokers and smokers, and if a satisfactory accommodation cannot be reached for all employees, to prohibit smoking in the workplace.

This Ordinance does not prevent an employer from totally prohibiting smoking in the workplace. If an employer allows employees to smoke in the workplace, this Ordinance requires (1) that the employer make reasonable accommodation for the preferences of both non-smoking and smoking employees, and; (2) that the employer *must give particular preference* to employees who, as a result of either a cardiovascular illness, pulmonary illness, or any other physical condition affecting the eyes, nose and throat, are sensitive to the discomforts of tobacco smoke, and; (3) that the employer use without

incurring additional expense to the extent possible existing architectural design and ventilation systems to separate designated smoking areas from designated non-smoking areas, and; (4) that if an accommodation satisfactory to all affected non-smoking employees cannot be reached, the employer must prohibit all smoking in the workplace, and; (5) that all non-smoking areas be designated and conspicuously marked with signs, and; (6) that employers be prohibited from terminating, without due cause, or discriminating against any employee solely because the employee exercised his or her right under this act.

Definitions — As used in this Ordinance:

- (1) "City Council" means the law-making body of the community of Boston in the Commonwealth of Massachusetts;
- (2) "Board of Health" means the municipal department, division, unit, or body of the municipality charged with regulating and/or enforcing the health laws or regulations in the Massachusetts community of Boston;
- (3) "Person" means any individual person, firm, partnership, association, corporation, company, organization, or legal entity of any kind;
- (4) "Employer" means any person who employs the service of an individual person;
- (5) "Employee" means any person who is employed by any employer in consideration for direct or indirect monetary wage or profit;
- (6) "Workplace" means any enclosed area of a structure or portion thereof intended for occupancy by any private or public business entities which will provide primarily, but not exclusively, clerical, professional or business services of the business entity, or which will provide primarily, but not exclusively, clerical, professional, or business services to other business entities or to the public, at that location. The workplace includes, but is not limited to, office spaces or work spaces in office buildings, office spaces or work spaces in all municipal office buildings, office spaces or work spaces in all public buildings, office spaces or work spaces in all federal office buildings where other than federal employees are employed and the federal regulations restricting smoking in federal buildings are not applied, medical office waiting rooms or areas and other medical treatment facilities, all manufacturing plant office spaces or work spaces not under the control of the federal government regulations restricting smoking in federal buildings or the General Service Administration (GSA) regulations restricting smoking in federal buildings;
- (7) "Office Space" or "Office Spaces" or "Work Space" or "Work Spaces" means any area occupied by an employee during the course of his or her employment, including, but not limited to, hallways, waiting areas, rest rooms, lounges, eating areas, as well as enclosed motor vehicles, ships, boats, and airplanes;
- (8) "Smoking" or "to smoke" or "smoke" means the inhaling, exhaling, burning or carrying of any lighted cigarette, cigar, pipe, or other article, or paraphernalia for tobacco or any other weed or plant, and;
- (9) "Enclosed" means an area, other than a public lobby, which is closed in by a roof and four walls or sides or partitions, either complete or partial, with appropriate openings for ingress or egress.

Regulation of Smoking in the Workplace —

- (1) Each employer who operates a workplace in Boston must implement, maintain, and conspicuously post, for all employees to see, a written

smoking policy which will contain, at a minimum, the following provisions and requirements:

- (a) Any employee may object to his or her employer about the smoke hazard or discomfort in his or her workplace. Using existing means of ventilation or separation or partition of the work space, the employer must attempt expeditiously, within thirty (30) days of the initial date of objection, to reach a reasonable accommodation, insofar as possible, between the preferences of all the non-smoking and smoking employees. However, an employer is not required by this Ordinance to make any expenditures or structural changes to accommodate the preferences of non-smoking or smoking employees.
- (b) If an accommodation which is satisfactory to all affected non-smoking employees cannot be reached in any given workplace, the preference and right of the non-smoking employees to work in a healthy atmosphere free from the hazards or discomforts of tobacco smoke shall prevail and the employer must prohibit all smoking in the workplace. Where the employer prohibits smoking in either the entire workplace or in any portion therein, the area(s) in which smoking is prohibited must be clearly and conspicuously marked with signs such as: "This is a smoke-free building." Designated smoking areas will be provided as long as it is not cost prohibitive to establish.
- (2) The employer's smoking policy must be announced to all employees and posted conspicuously in all workplaces under the employer's jurisdiction in Boston.
- (3) Anyone who becomes an employer in Boston after the passage of this Ordinance must, within three (3) months of becoming an employer, adopt, implement, maintain, and conspicuously post for all employees to see, a written smoking policy with all the provisions mentioned herein.

Where Smoking Not Regulated — This Ordinance is not intended to regulate smoking in the following places and under the following conditions within Boston:

- (1) A private home which may serve as a workplace;
- (2) Any office space leased or rented by a sole independent contractor for his or her own use; or,
- (3) A business used exclusively for the sale of tobacco products.

Penalties and Enforcement —

- (1) The Boston Board of Health, having received a written and signed letter of complaint from an employee citing a violation of this Ordinance, must enforce, within thirty (30) days, the entire Ordinance against violations by either of the following actions:
 - (a) Serving written notice to comply to an employer, with a copy of the notice to the complainant, requiring the employer to correct, within thirty (30) days, any violation of any section of this Ordinance. The employer must also be sent a copy of this Ordinance at the time notice is served. Upon receiving a second signed complaint at the Boston Board of Health for the same or continued violation by the same employer, and failing all other attempts by the Boston Board of Health to expeditiously, and within thirty (30) days, mediate the complaint, the complaint must be resolved by:
 - (b) Calling upon the attorney for Boston to maintain promptly an action for injunction to enforce the provisions of this act, to cause the

correction of such violation or section, and for assessment and recovery of a civil penalty for such violation;

- (2) An employer who violates this act shall be liable for a civil penalty, not to be less than fifty (\$50.00) dollars or exceed three hundred (300.00) dollars, which penalty shall be assessed and recovered in a civil action brought by the attorney for Boston in any court of competent jurisdiction.
- (3) In undertaking the enforcement of this Ordinance, the City of Boston is assuming an undertaking only to promote the health and general welfare of the working public. It is not assuming, nor is it imposing on its officers and employees, an obligation for breach of which it is liable in money damages to any person who claims that such breach proximately caused injury.
- (4) Any revenues accumulated from violations of this ordinance should be used only to increase the public awareness of this ordinance or for public health programs related to this issue and not reverted to the city's general fund.
- (5) If any provision of this Ordinance is declared invalid or unenforceable by a court of competent jurisdiction, the other provisions of the act shall not be affected thereby, but shall continue in full force and effect.

This ordinance shall take effect 90 days after passage.

Coun. NUCCI moved that the ordinance in the new draft be amended after subparagraph (3) of the paragraph entitled "Where Smoking Not Regulated" by adding the following new subparagraph:

- (4) Provided further that no employer or agent of any employer shall require as a condition of employment that any employee or prospective employee refrain from smoking or using tobacco products outside the course of his or her employment or otherwise discriminate against any individual with respect to his or her compensation terms, conditions, or privileges of employment for smoking or using tobacco products outside the course of his or her employment. Provided, however, that any non-profit organization or corporation whose primary purpose is to discourage the use of tobacco products by the general public shall be exempt from the provisions of this statute; and provided that employers within the Commonwealth which are regulated under M.G.L. Chapter 22, Section 9A; Chapter 26, Section 2; Chapter 31, Section 64; or Chapter 41, Section 101A shall be exempt from the provisions of this statute.

In any civil action alleging a violation of this provision, the court may:

- (1) award punitive damages to a prevailing employee or prospective employee in addition to any award of actual damages;
- (2) award reasonable attorneys' fees and costs to a prevailing employee or prospective employee; and
- (3) afford injunctive relief against any employer who commits or proposes to commit a violation of this provision.

COMMITTEE ON EDUCATION TO HOLD HEARING TO DETERMINE IF PROVISIONS IN CONTRACT BETWEEN BOSTON SCHOOL DEPARTMENT AND NATIONAL BUS SERVICE ARE BEING MET (DOCKET NO. 0751)

Couns. BOLLING and SCODRAS offered the following:

Whereas, In June of 1992, the Boston School Department entered into a contractual agreement with National Bus Service, 20 West Howell Street, Boston, MA 02125, to provide transportation services for the City's public school students; and

Whereas, There is concern that National Bus Service is not fulfilling all of the provisions of said contractual agreement; and

Whereas, Questions have been raised regarding the School Department's monitoring and enforcement of the language contained in the contractual agreement; and

Whereas, The dollar value of the contractual agreement represents a significant expenditure (\$52,370,053.00) of the School Department's budget; therefore be it

Ordered, That the Boston City Council Committee on Education conduct a hearing to determine if the provisions of the contractual agreement between the City of Boston's School Department and National Bus Service are being met; and be it further

Ordered, That the Boston City Council Committee on Education, if it finds that the provisions of said contractual agreement between the Boston School Department and National Bus Service are not being met, provide to City Council a list of recommendations on how best to proceed.

ORDER THAT BOSTON MEMBERS OF MWRA BOARD OF DIRECTORS INVESTIGATE AND REPORT ON RESULTS OF MWRA BONDS HAVING 40- OR 50-YEAR TERM AND ENCOURAGE USE THEREOF (DOCKET NO. 0781)

Couns. SALERNO, CRAYTON, and SCONDRAS offered the following:

Whereas, The Mayor of Boston appoints three of the eleven members of the MWRA Board of Directors; and

Whereas, In providing water and sewer services, Boston's appointees to the MWRA Board of Directors bear the responsibility to assure environmental quality improvement and rates that Boston's businesses and residents can afford; and

Whereas, One main reason for the rate shock faced by businesses and residents in the MWRA area is that the MWRA is paying for its construction efforts with twenty and thirty year bonds, rather than bonds of a longer term which would spread the cost of the construction more fully over its useful life; and

Whereas, Massachusetts Water Resources Authority rates are the highest in the country, are projected to triple during the coming decade, and may quadruple by 2005; and

Whereas, Rapidly escalating MWRA rates are undercutting Boston's economic recovery by placing Boston businesses at a competitive disadvantage, impairing job creation and hiring, stopping business growth, forcing businesses to consider moving, and reducing tax revenue which would otherwise be generated; and

Whereas, MWRA rates are already devastating homeowners who can't afford them, resulting in liens on homeowners property; and

Whereas, MWRA rates are already higher than property taxes and heating costs for many apartment owners; and

Whereas, As MWRA rates rise, property values will fall; and

Whereas, Falling property values will reduce Boston's property tax revenues, and thereby threaten police, fire, education, and other essential services; and

Whereas, In general, the MWRA's construction efforts have a useful life of between fifty and one hundred years; Now Therefore, be it

Ordered, That the Boston appointees to the MWRA Board of Directors investigate and report upon the reduction in rates and the extent to which rate shock could be eliminated as a result of MWRA bonds having forty or fifty year terms, rather than thirty year terms, and that they encourage the MWRA's use of such forty and fifty year bonds.

Referred to the Committee on Urban Resources and Historic Preservation.

ORDER THAT BOSTON MEMBERS OF MWRA BOARD OF DIRECTORS INVESTIGATE AND REPORT ON WHAT CERTAIN GUARANTEES WOULD RAISE INVESTMENT GRADE OF MWRA BONDS TO AA (DOCKET NO. 0782)

Couns. SALERNO, CRAYTON, and SCONDRAS offered the following:

Whereas, The Mayor of Boston appoints three of the eleven members of the MWRA Board of Directors; and

Whereas, In providing water and sewer services, Boston's appointees to the MWRA Board of Directors bear the responsibility to assure environmental quality improvement and rates that Boston's businesses and residents can afford; and

Whereas, The rating of MWRA bonds has a significant impact on the MWRA's capacity to borrow, the rate of interest on MWRA bonds, and therefore ratepayers' MWRA bills; and

Whereas, Massachusetts Water Resources Authority rates are the highest in the country, are projected to triple during the coming decade, and may quadruple by 2005; and

Whereas, Rapidly escalating MWRA rates are undercutting Boston's economic recovery by placing Boston businesses at a competitive disadvantage, impairing job creation and hiring, stopping business growth, forcing businesses to consider moving, and reducing tax revenue which would otherwise be generated; and

Whereas, MWRA rates are already devastating homeowners who can't afford them, resulting in liens on homeowners property; and

Whereas, MWRA rates are already higher than property taxes and heating costs for many apartment owners; and

Whereas, As MWRA rates rise, property values will fall; and

Whereas, Falling property values will reduce Boston's property tax revenues, and thereby threaten police, fire, education, and other essential services; and

Whereas, In general, the MWRA's construction efforts have a useful life of between fifty and one hundred years; and

Whereas, One main reason for the rate shock faced by businesses and residents in the MWRA area is that the MWRA is paying for its construction efforts with twenty and thirty year bonds, rather than bonds of a longer term which would spread the cost of the construction more fully over its useful life; and

Whereas, A bond rating of AA would help make it possible for the MWRA to sell longer term bonds and reduce interest rates on MWRA bonds in general; Now Therefore, Be It

Ordered, That the Boston appointees to the MWRA Board of Directors investigate and report on what guarantees, such as guaranteeing MWRA bonds with the full faith and credit of the Commonwealth, would raise the investment grade of MWRA bonds to AA.

Referred to the Committee on Urban Resources and Historic Preservation.

RESOLUTION SUPPORTING EFFORTS OF REPRESENTATIVES FRANK AND STUDDS TO AMEND CLEAN WATER ACT (DOCKET NO. 0783)

Couns. SALERNO, CRAYTON, and SCONDRAS offered the following:

Whereas, The Clean Water Act currently limits bonds which are part of the State Revolving Fund to twenty years; and

Whereas, Representatives Barney Frank and Gerry Studds have proposed amendment of the Clean Water Act to make it possible to extend the term of State Revolving Loan Bonds; and

Whereas, One main reason for the rate shock faced by businesses and residents in the MWRA area is that the MWRA is paying for its construction efforts with twenty and thirty year bonds, rather than bonds of a longer term which would spread the cost of the construction more fully over its useful life; and

Whereas, Massachusetts Water Resources Authority rates are the highest in the country, are projected to triple during the coming decade, and may quadruple by 2005; and

Whereas, Rapidly escalating MWRA rates are undercutting Boston's economic recovery by placing Boston businesses at a competitive disadvantage, impairing job creation and hiring, stopping business growth, forcing businesses to consider moving, and reducing tax revenue which would otherwise be generated; and

Whereas, MWRA rates are already devastating homeowners who can't afford them, resulting in liens on homeowners property; and

Whereas, MWRA rates are already higher than property taxes and heating costs for many apartment owners; and

Whereas, As MWRA rates rise, property values will fall; and

Whereas, Falling property values will reduce Boston's property tax revenues, and thereby threaten police, fire, education, and other essential services; and

Whereas, In general, the MWRA's construction efforts have a useful life of between fifty and one hundred years; Now Therefore, be it

Resolved, That the Boston City Council, in meeting assembled, hereby declares its support for the efforts of Representatives Frank and Studds to amend the Clean Water Act making it possible for State Revolving Fund bonds to have terms of thirty years or the useful life of the project such bonds are supporting.

The resolution was adopted under suspension of the rules.

RESOLUTION SUPPORTING S-1547 AND H-3623 DIRECTING COMMONWEALTH TO EXPEND \$200 MILLION OVER 4 YEARS TO REDUCE MWRA RATES (DOCKET NO. 0784)

Couns. SALERNO, CRAYTON, and SCONDRAS offered the following:

Whereas, Representative Robert Haverns' important bill reducing MWRA rates, S-905, was recently reported favorably by the Joint Committee on Natural Resources; and

Whereas, The "Haverns Bill" has been split into two companion pieces, S-1547 and H-3623; and

Whereas, Massachusetts Water Resources Authority rates are the highest in the country, are projected to triple during the coming decade, and may quadruple by 2005; and

Whereas, Rapidly escalating MWRA rates are undercutting Boston's economic recovery by placing Boston businesses at a competitive disadvantage, impairing job creation and hiring, stopping business growth, forcing businesses to consider moving, and reducing tax revenue which would otherwise be generated; and

Whereas, MWRA rates are already devastating homeowners who can't afford them, resulting in liens on homeowners property; and

Whereas, MWRA rates are already higher than property taxes and heating costs for many apartment owners; and

Whereas, As MWRA rates rise, property values will fall; and

Whereas, Falling property values will reduce Boston's property tax revenues, and thereby threaten police, fire, education, and other essential services; and

Whereas, The "Haverns Bill" will significantly reduce rate shock during the next three years; Now Therefore, be it

Resolved, That the Boston City Council, in meeting assembled, hereby expresses its support for S-1547 and H-3623, which direct the Commonwealth to expend \$200 million over four years in order to reduce MWRA rates, and Be It Further

Ordered, That the City Clerk direct copies of this resolution to Senator Birmingham and Representative Finneran.

PLAN TO REVITALIZE NEIGHBORHOOD BUSINESS DISTRICTS

Mayor Thomas M. Menino, on October 20, announced the establishment of a "Boston Main Streets Initiative" aimed at revitalizing Boston's neighborhood business districts. The initiative is based upon the successful neighborhood business district revitalization partnership Mayor Menino built in Roslindale Square with the help of banks, merchants, and the National Trust for Historic Preservation.

"My experience leading the revitalization of Roslindale Square has given me an effective model for improving Boston's neighborhood business districts," Mayor Menino stated. "I believe that every local business district should have the opportunity to build a community partnership, get assistance from the city for their existing businesses, and have help in attracting new ventures to their neighborhood. We need to reach out from Brighton Center and Harvard Avenue to Broadway in South Boston to Mattapan Square to ensure that these small neighborhood businesses, those that hire so many Boston residents, are not just surviving, but thriving," Mayor Menino said.

The Boston Main Streets program will be built upon the principle that residents, merchants, and commercial property owners must come together to determine the future course of their community. The City of Boston will provide organizational assistance to any neighborhood business district that seeks participation in the program. To these business districts that build a strong partnership, a wide array of city services will be made available, namely:

Technical Assistance — The city will provide the expertise and assistance necessary to develop business and marketing plans; enhance the delivery of city services; and coordinate capital development projects aimed at improving the community.

Financial Assistance — Boston Main Streets participants will have a number of private and public sources of capital available to them for individual business improvements. With new banks arriving in the neighborhoods, many in the minority community, the city will ensure their further reinvestment in Boston's neighborhood business districts.

Anchor Projects — Assistance and funding will be provided to secure anchor investments that serve to spur further development and job creation in the business districts. For example, the city is contacting a number of retail chains to encourage them to join new supermarkets, drug stores, and other new services that are coming back to the city.

Business Partnerships — Larger, more established businesses will be encouraged to provide valuable managerial and financial assistance to smaller, emerging businesses.

Promotion Campaigns — Marketing campaigns will be initiated to promote the historic, cultural, and ethnic characteristics of each neighborhood and attract new shoppers.

"Considering the fact that 51 percent of Boston residents are employed in the neighborhoods, Boston Main Streets puts attention and resources from City Hall right where they belong," commented Robert Shortsleeves, president of the Boston Chamber of Neighborhood Commerce, an organization representing over 2,800 Boston businesses.

"Together with my new Business Retention Center and a renewed focus on service delivery, Boston Main Streets is a necessary component of my economic agenda," Mayor Menino said. "In order to build strong neighborhoods, we must build strong Main Streets," he concluded.

BUILDING STRONG NEIGHBORHOOD BUSINESS DISTRICTS

Statement by Mayor Thomas M. Menino, October 20, 1993

A healthy city must have a strong local economy which is reflected not only in its downtown core but, equally important, in all of its neighborhood business districts. Boston's neighborhood business districts are a critical source of jobs for our residents and a continuing source of entrepreneurial opportunities. When we consider that over 70 percent of the jobs in Boston's neighborhood business districts go to city residents, and that many new entrepreneurs realize their first success in their own neighborhood, we begin to understand the pivotal role neighborhood businesses play in Boston's economic future.

During the sixties and seventies, small business districts, the "Main Streets" of America, slipped into decline with the emergence and dominance of shopping malls. Often the first to leave our neighborhood shopping areas were the "anchors" — the larger, more established stores. The loss of a single anchor can create empty storefronts and diminish activity throughout an older shopping area.

Recognizing the reality of this trend in Boston's neighborhoods, I lobbied

(Continued on next page)

NEIGHBORHOOD DISTRICTS . . .

(Continued from previous page)

the National Trust for Historic Preservation to create an urban program for inner-city business districts. (Already, the National Trust had established a National Main Street Center designed to assist small towns.) A decade ago, as a candidate for City Council, I brought the National Trust to Roslindale to meet with residents and businesspeople. Together, we convinced Washington to launch a national demonstration project for urban business districts, and to use Roslindale as one of its eight pilot programs.

Roslindale Square was ripe for renovation: plagued for years by arson and disinvestment, Roslindale merchants and residents were now committed to a rejuvenated business district. With a working Board of Directors and committees actively focused on: Organization, Promotion, Economic Restructuring, and Design, the Roslindale Main Street program made enormous strides over the three-year life of the pilot project. We worked to effect major building renovations, erect better signs, create attractive storefronts, and enhance abutting open space. By the end of the first year, Roslindale Square had attracted more shoppers and more businesses.

The Main Street program had other, indirect dividends. When the city's capital improvements plan was implemented in Roslindale, Roslindale Main Street was an invaluable and influential player. But the biggest benefit has been a sustained interest in maintaining a viable and successful business district.

The National Main Street formula worked in Roslindale because it recognized what its people wanted and needed, and what was good for the community.

BOSTON MAIN STREETS

"Boston Main Streets" is an important revitalization initiative to attract and support businesses in Boston's neighborhoods. Through Boston Main Streets, we will generate more jobs for Boston residents, create opportunities

for entrepreneurs, beautify deteriorating business districts, attract vital services to neighborhoods and foster community pride.

The Boston Main Streets program will be built upon the principle that residents, merchants, and commercial property owners must come together to determine the future course of their community. The City of Boston will provide organizational assistance to any neighborhood business district that seeks participation in the program. To those business districts that build a strong partnership, a wide array of city services will be made available:

There are four basic elements to the Boston Main Streets program:

Design: Physical improvements, including infrastructure improvements, facade enhancements, traffic and parking plans, and pedestrian safety measures, intended to upgrade the appearance and convenience of the district.

Organization: A strong, broad-based participatory organization of community residents, businesses, and civic association is needed to develop and administer a successful program.

Advertising and other copy must, except in emergencies, be in hand at the City Record office by 5:00 p.m., Wednesday of each week to insure its publication in the following Monday's issue.

PLEASE NOTE: That the deadline of 5:00 p.m., Wednesday of each week is ten days in advance of publication.

Promotion: Developing a schedule of events to highlight the cultural, historical, and ethnic character of the neighborhood instills civic pride in the community and attracts visitors to the area.

Economic Restructuring: Local businesses need a strategy, including marketing plans, merchandising systems, and pricing policies, in order to compete effectively.

Boston Main Streets Business Service

The City will play an active role supporting community efforts and provide access to both business skills and resources. The primary services that public agencies can provide include:

Technical Assistance: The City will provide consultants to help businesses devise business plans, conduct marketing studies, and advise on engineering plans. These consultants will also arrange and coordinate capital development projects and other services from the Department of Public Works, Transportation Department, and Park and Recreation Department. Assistance from the Police Department and Fire Department will also be available.

Financial Assistance: There are a number of private and public sources of capital available to businesses. Unfortunately, small neighborhood businesses have difficulty accessing these resources. The City will help applicants locate potential sources of financial aid and guide them through the application process. In areas with significant disinvestment, high vacancy rates, low-income customer bases, and ineligibility for funding from private resources, the City will make available a total of \$2.5 million in loan for working capital and commercial real estate (applicants must first meet federal CDBG requirements).

Anchor Projects: Key commercial sites play an important role in anchoring additional private investments in the area. For example, the Jamaica Plain Plaza in Jackson Square, the Lithgow Building in Codman Square, and America's Food Basket in Uphams Corner have been critical developmen

in the revitalization of those neighborhoods. In these instances, the City will form public/private partnerships to ensure that these projects are funded. In addition, the City will work with the community to recruit vitally important basic services, such as supermarkets and pharmacies.

Developing Business Partnerships: The City will encourage the formation of partnerships with businesses, civic associations, and not-for-profit organizations to improve the districts. For example, the Boston Chamber of Neighborhood Commerce already has a network of boards of trade that the City can work with to mobilize local businesses.

Shop Boston Neighborhoods: The City will initiate a marketing campaign to promote the historical, cultural, and ethnic characteristics of each neighborhood. Tourists, as well as residents, can find interesting opportunities visiting various neighborhoods.

Conclusion

Boston Main Streets is a program designed to revitalize the neighborhood business districts in the City. These areas are a vital part of our economy and culture. Each and every community needs our support and I am committed to providing that assistance. My program is built upon the initiatives that succeeded in turning around Roslindale Village. It looks to the residents and merchants to provide leadership and direction. The City's role is to facilitate the process and provide some of the resources to implement their plan. It is a challenging prospect, but nevertheless one that I think can restore Boston's economic vitality.

MAYOR MENINO ORDERS MAJOR OVERHAUL OF CITY'S ELDERLY TRANSPORTATION SERVICES

Mayor Thomas M. Menino, announced a major overhaul of the City of Boston's elderly transportation system, saying those who depend on the Senior Shuttles deserve expanded and upgraded service. The

transportation action plan Mayor Menino outlined calls for making 35,000 additional rides available annually, the creation of a computerized system for scheduling rides, and an eventual replacement of the City's aging senior shuttle fleet.

"Some of our most elder citizens almost completely depend on transportation services provided by the City of Boston," Mayor Menino said. "They have worked too hard all their lives building this city to settle for substandard service. The transportation plan outlines the ways in which my administration will give them the quality they deserve."

Mayor Menino said the goals of the transportation action plan include:

- An expansion of the number of rides provided by the Senior Shuttle by 20 percent, from approximately 140,000 rides per year to 175,000 rides per year;
- Making rides available every day of the week, days and evenings. Specifically, on weekdays, transportation availability will be extended from 4 p.m. to 8 p.m. And on weekends, transportation will now be available on Sundays from 10 a.m. to 6 p.m.;
- The creation of a computerized system to help those calling for a ride get immediate verification;
- The implementation of an automated phone queuing system which will route callers to a scheduler within a maximum of two minutes waiting time.

"With the city's population of people over 65 expected to reach 14.4 percent by 1995, the need for additional transportation services becomes clear," Mayor Menino said. "I will monitor whether the Senior Shuttle Program achieves its goals, because I am committed to making sure that our senior citizens get the best service possible."

It is the policy of the City of Boston to award at least 15 percent of the City's contract dollars to minority-owned businesses and at least 5 percent to women-owned businesses.

SPANISH-SPEAKING STAFF ADDED TO MAYOR'S CONSTITUENT SERVICE OFFICE

In order to better serve Boston's Spanish-speaking residents, Mayor Thomas Menino announced two additions to the Mayor's Constituent Services staff.

Marta Poupart brings many years of customer service experience to her position. In a variety of roles with the Boston Water and Sewer Commission, the Boston School Committee, and most recently, the Arson Prevention Commission, Ms. Poupart has assisted numerous residents in resolving problems and answering concerns. Ms. Poupart is a Roxbury resident, and is also active in community affairs.

Vivian Ibanez Torres is returning to the Constituent Services staff on a part-time basis. During her four years of prior service, Mrs. Torres specialized in guiding constituents through the housing search process, and will continue to offer assistance in that capacity. A Jamaica Plain resident, Mrs. Torres is a graduate of Lesley College, and also has worked with the Commonwealth of Massachusetts Department of Social Services.

"I am delighted to have Marta and Vivian join the Constituent Services staff. Not only will they help me ensure that Boston's Latino community has full access to City Hall, they also share a sense of dedication and commitment to providing all Boston residents with quality service," said Mayor Menino.

In meeting Mayor Menino's goals of making City Hall work for all Boston's residents, The Mayor's Constituent Services Office also has a full-time Chinese-speaking staff assistant, as well as access to translation services for a wide variety of other languages. Additionally, the office provides access for hearing-impaired persons through its TTY number: 635-3897.

To reach the Constituent Services office, please call 635-4500.

SURGEON GENERAL ELDERS VISITS BOSTON CITY HOSPITAL

Boston Health Commissioner Lawrence A. Dwyer speaks with U.S. Surgeon General Joycelyn Elders outside of Boston City Hospital.

During her visit, Elders emphasized the need for combined efforts among community groups, safety and health officials to address the issues of violence in our cities.

Elders toured the adult and pediatric emergency rooms and discussed the array of victim care and violence prevention programs offered by Boston City Hospital. The Boston Department of Health and Hospitals and Boston City Hospital have one of the nation's leading model programs in violence prevention.

CITY OF BOSTON SEEKS CHRISTMAS TREES

Your donated tree can bring joy to the neighborhoods.

Have a tree that you want removed from your property that would make a great Christmas tree for public display? Call the City of Boston and donate your tree. If it's the right size, the City will remove your tree and put it to good use as a City of Boston Neighborhood Christmas Tree!

City officials are asking residents if they would like to donate their blue spruce or evergreen trees for the annual Neighborhood Tree Lighting Celebrations. Each year, tens of thousands of neighborhood residents gather in their communities to cele-

brate the holidays and light the tree. Now, you can help the city celebrate.

If deemed appropriate for use in the neighborhoods, your tree would be removed by City crews at no expense to the property owners and installed in various neighborhoods for the holiday season.

Boston held 28 celebrations throughout the neighborhoods last year with over 20,000 participants. A number of property owners participated in last year's tree donation effort. Many residents saved a significant expense by having unwanted trees removed from front, side, or rear yards.

And, while the City is asking for donated trees, it is doing its part to

help the environment. The City is poised to begin planting trees at many of the sites used for neighborhood tree lightings.

Until then, if you think you have a tree that fits the bill, the process is as follows:

- 1. If interested, property owners will place a call to the Mayor's Office of Constituent Services, phone number 617-635-4500.
- 2. Owners are then contacted by the staff of the Boston Public Works Department (PWD).
- 3. The tree(s) is then inspected by PWD for appropriate size, fullness and ease of removal.
- 4. If accepted, the tree is removed by City crews and transported to a designated neighborhood location for installation.
- 5. The tree is then decorated with lights and serves as the centerpiece for a neighborhood celebration complete with entertainment, refreshments, and a visit from Santa Claus with toys for the children.
- 6. Owners who donate their tree are invited to attend the event and the City will notify local community newspapers about their involvement.

There are certain criteria in the selection process. The base of the tree should not be less than 15 inches in diameter. The tree should be either blue spruce or an evergreen. And the tree should be approximately 20-30 feet high.

"We are hopeful that many property owners will participate in the effort in order for the City of Boston to continue the long tradition of Neighborhood Tree Lighting Celebrations," said Boston Public Works Commissioner Joseph Casazza. "It's a great way to show your community and holiday spirit."

The annual Christmas Tree lighting celebrations are a collaborative effort of the Mayor's Office of Business and Cultural Development, the Mayor's Office of Neighborhood Services, Boston Parks and Recreation, Boston Water and Sewer Commission, Boston Police, and the Boston Public Works Department.

HUNGER IS NOT JUST FOR A DAY... HUNGER IS EVERYDAY!

WHY ARE PEOPLE HUNGRY?

People are hungry because they do not have sufficient income to cover the minimum necessities of life. Lack of affordable housing, low wages, unemployment, public assistance programs which are below the poverty line, and continuous cuts in federal and state programs are the main causes of poverty and hunger.

THE NEED

Over a half million people in Massachusetts are likely to experience hunger every month. Many of these people hold jobs. We now know that nearly 200,000 Massachusetts children under the age of twelve are hungry or at risk of being hungry: **one in four children.**

OUR GOAL

Since its inception in 1985, the Boston Can Share Food Drive has experienced phenomenal growth from two participating companies to more than three hundred. Thanks to people like you, we have been successful in reaching our goal. Unfortunately, the need for food is greater than ever. With so many people out of work, our goal this year is to raise 250,000 cans of nutritious food.

HOW YOU CAN HELP

Pick up a few extra cans of nutritious food the next time you shop, or take a can or two from your cupboard. (See suggestions below.) Drop off your contribution at your company's collection site. Your food donation will be transported to the Boston Food Bank, where it will be distributed to food pantries throughout the Greater Boston Area.

7TH ANNUAL YOUTH CONGRESS HELD OCTOBER 30

Several hundred teenagers attended Boston Community Centers' 7th Annual Youth Congress which was held on Saturday, October 30, from 9:00 a.m. to 3:00 p.m., at the Mass. College of Art, 121 Huntington Avenue in Boston.

Every neighborhood of Boston was represented by teen delegates who had been either elected or selected to attend the Congress by their peers or local youth agencies. These delegates participated in workshops covering a wide variety of issues important to teens and voted in a mock mayoral election near the end of the Congress.

Starting at approximately 11 a.m., mayoral candidates Tom Menino and Jim Brett were allowed one-half-hour each to address their plans for youth services and to answer questions from the young people such as what positive options each candidate would develop to keep young people off the streets, whether the candidates think that parents should be held responsible for the actions of their children, and how each candidate would increase the effectiveness of our public schools.

The guest speaker, nationally recognized motivation speaker Dr. Crystal Kirkendall, addressed the Congress at 2:00 p.m.

The Congress gives teens a chance to voice their opinions, share and discuss ideas and develop recommendations for the city's policy makers. The Youth Congress is co-sponsored by New England Telephone.

"BACK TO SCHOOL IN COLONIAL BOSTON" ON EXHIBIT AT BPL

"Back to School: Education and Schools, Boston and Beyond," an exhibition of early educational books used in England and Colonial America, as well as original town papers and school committee documents that follow the development of the public school system in America, are currently on display through November 26 in the Rare Books and Manuscripts Department of the Boston Public Library in Copley Square.

Education was always a high priority with the citizens throughout Massachusetts and as early as 1635, Bostonians established a public school for their sons. A collection of early New England primers, some wonderful battle-dores and hornbooks, as well as early copies of beautifully illustrated Aesop's Fables, represent some of the early educational tools used in colonial America to teach children.

Also included in the exhibit are watercolors of a number of schoolhouses in 19th-century Boston as well as some early required textbooks for the Latin School. Part of the Library's collections are two penmanship exercises by educator Horace Mann when he was 14 years old and other examples of penmanship graphically display the skill and beauty of that elementary school subject. Materials related to the education of African Americans and females are also included in the exhibition, which spans the period from 1635 to 1911.

The BPL's collections of early town papers and school committee records are an invaluable research resource — historical, philosophical, social, and architectural — for anyone interested in the public school system in America.

The exhibit is free and open to the public and may be viewed in the Rare Books and Manuscript Department on the third floor of the Research Library, Monday through Friday, from 9 a.m. to 5 p.m.

The Art Commission, which is part of the Mayor's Office of the Arts and Humanities, has the statutory responsibility for all the art in city spaces. Ms. Shannon will describe the many pieces of "public art" that adorn various parts of the city — including statues, plaques, painting inserts, gates, and fences — and then juxtapose these pieces to discover the relevance to the neighborhoods in which they are located.

The program will be held in the Mezzanine Conference Room and is free and open to the public. Bring your lunch. For more information, please call the Boston Public Library at 536-5400, Ext. 339.

OUR BOSTON

Each week the *City Record* will publish the background of Boston's forty-six mayors. The information presented was collected and researched by the former editor of the *City Record* Mr. Joseph Fahey with the assistance of Robert Hannon, Chief of Research, Boston City Council, and the late Francis Moloney, former Assistant Director of the Boston Public Library.

41st Mayor
MAURICE J. TOBIN
1938-1941
1942-1944

Only one mayor of Boston has served in top-level posts in the executive branches of city, state, and national government.

Maurice J. Tobin, mayor and governor during World War II, nurtured a flare for administration in private employ as a telephone company executive and in public service from days as a legislator and School Committee chairman.

His seven years as mayor spanned from the depression era with welfare problems and joblessness, into the wartime boom with controls, fuel shortages, and other handicaps which confronted the city of over 100,000 persons.

A Democrat to the core, and a liberal, Tobin nevertheless followed a conservative fiscal policy at Old City Hall. He aimed at restoring business and citizen confidence in city government. He cut expenditures—even cutting department heads' salaries, but later endorsing wartime cost-of-living hikes.

Mayor Tobin's administration saw Boston's debt drop by \$5 million.

While he helped improve relations between the Legislature and Boston, he was unsuccessful as mayor in getting state relief for Boston's overburdened taxpayers. He was among the first of prestigious public officials to endorse the sales tax principle a quarter of a century before its time had come.

In the earlier years at City Hall, the mayor's tasks were focused on the economic hard times besetting Boston's struggling families. The administration even maintained a municipal employment bureau which made pleas to private in-

dustry for jobs for family breadwinners.

In nonfiscal issues, the attention focused on a projected postwar traffic problem and wartime stringencies, including fuel oil shortages. In capital additions, there was new housing in South Boston, the Buddies' Club on Boston Common for servicemen, and dedication of MacArthur Mall along Charles Street.

The Tobin mayoral years also encompassed two events. One was the disastrous hurricane of 1938 occurring in his first year as mayor while Mayor Tobin was on a speaking trip on the west coast.

The other was Boston's worst holocaust in history, the Coconut Grove nightclub fire of November 28, 1942. The tragedy, which claimed almost 500 lives, led to tightening of inspectional procedures. It did not, however, bring establishment of a single public safety department combining police, fire inspection, building inspection, and kindred activities as suggested for long-range reorganization.

Roxbury-born Maurice Tobin seemed destined for political stardom. As a boy he learned success requires effort. Up at 4 A.M., he trod the streets of Mission Hill as a newsboy. He attended Mission High School and the High School of Commerce, continuing evening classes after graduation. He won election in 1926 as the youngest member of the House of Representatives. There his proposals for abolition of capital punishment, for workmen's compensation, for investigation of the telephone company were liberal proposals mark-

edly in contrast with the conservative tenor of the House.

Mayor Tobin backed Alfred E. Smith for president and then became a supporter of Franklin D. Roosevelt, serving as a School Committee member in the early Roosevelt years. He resigned his telephone company job, confident of victory when he defeated James M. Curley and several others in the bitter 1937 mayoral campaign. Four years later he again prevailed over the former mayor-governor. In the third year of his second term he went on the statewide trail to win election as governor.

He served one term on Beacon Hill, but lost the bid for reelection. A staunch and loyal Democrat, he was back in the campaign wars in the 1948 presidential battle speaking for President Harry S. Truman even when the polls had counted Truman as almost a sure loser.

Maurice Tobin served as Truman's Secretary of Labor and the poor boy from Roxbury's streets became a national figure.

Death claimed Maurice Tobin at age fifty-two on July 19, 1953, on a Scituate golf course. It was only six months after the Truman administration had completed its turn in office.

At funeral rites in the Cathedral of the Holy Cross and Holyhood Cemetery, former President Truman led mourners for the Boston Democrat, former labor secretary, governor, and mayor.

DISAPPROVING ORDINANCE PROVIDING FOR NON-IMPOSITION OF CHARGES OF CERTAIN CLEANUP COSTS IN HAYMARKET-BLACKSTONE MARKET IN ANY YEAR DURING WHICH CITY RECEIVED ALLOCATION FROM STATE FOR CLEANUP COSTS (DOCKET NO. 0713)

The following was received:

City of Boston
Office of the Mayor

May 17, 1993.

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an ordinance passed by your Honorable Body on April 28, 1993, Docket No. 0713, which would provide for non-imposition of charges of certain cleanup costs in the Haymarket-Blackstone Market in any year during which the City of Boston receives an allocation from the Commonwealth of Massachusetts for costs of cleanup.

My reason for disapproval is the ambiguous use of language in the ordinance that would excuse vendors from paying the charge if the Commonwealth made any allocation of funds, including an allocation of less than sufficient funds to cover the costs of cleanup.

The proposed ordinance should be redrafted to indicate clearly that any allocation of funds should be used to offset the charges to be paid by vendors. I have asked the Corporation Counsel to work with the City Council to file such an ordinance in the near future.

Sincerely,

Raymond L. Flynn,
Mayor.

(Annexed hereto is the documentation referred to.)

Assigned for further action.

I urge your Honorable Body to adopt this order.

Sincerely,

Raymond L. Flynn,

URGING BRIGHAM AND WOMEN'S HOSPITAL TO SEEK ALTERNATIVES TO CLOSING OUTPATIENT ALCOHOLISM AND DRUG TREATMENT PROGRAM (DOCKET NO. 0841)

Coun. HENNIGAN offered the following:

Whereas, Brigham and Women's Hospital announced it would close its 59-year-old outpatient alcoholism and drug treatment program, stating the hospital could no longer afford the program; and

Whereas, The outpatient alcoholism and drug treatment program was believed to be the oldest in the Nation; and

Whereas, The program at Brigham and Women's Hospital served largely indigent patients mainly from the inner city; and

Whereas, Of the patients participating in the program, 40 percent were African American or Latino and many were uninsured; and

Whereas, It is possible that the abrupt termination of the program at Brigham and Women's Hospital did not allow enough time to terminate therapy for long term patients or to place patients in other programs; and

Whereas, Many of the former patients, potentially up to 50 percent, will not seek treatment any longer, leaving them at risk and without treatment for their afflictions; and

Whereas, Brigham and Women's Hospital was re-

ported to be one of the most prosperous hospitals of 1992 in a report by Harvard Professor Nancy Kane; and

Whereas, The Chief Executive Officer of Brigham and Women's Hospital is reportedly making in excess of \$870,000 per year; and

Whereas, Many of the senior executives at Brigham and Women's Hospital are making six-figure incomes, and have procured low-interest, personal loans with generous payback schedules; Now Therefore Be It

Ordered, That the Boston City Council, in meeting assembled, urge Brigham and Women's Hospital to seek alternatives to the closing of the outpatient alcoholism and drug treatment program.

Passed under suspension of the rules.

MASS. 'SIDS' CENTER HOLDS AUCTION

*Dinner-Dance and Auction to Benefit
Massachusetts Center for Sudden Infant Death Syndrome
November 30 at Royal Sonesta Hotel.*

Sudden Infant Death Syndrome (SIDS) is the leading single cause of death among children aged one week to one year, claiming 7,000 babies nationwide. In Massachusetts nearly 100 apparently healthy infants die abruptly, leaving grief-stricken families to wonder why. Since 1975, the Massachusetts Center for Sudden Infant Death Syndrome has offered support and information to parents as well as training for health care professionals trying to cope with this devastating killer. State budget cutbacks now threaten these services, so on Tuesday, November 30, 1993, at the Royal Sonesta Hotel in Cambridge, the SIDS Center will get some help from its friends through the 2nd Annual Benefit dinner-dance and auction.

Former New England Patriots' quarterback Steve Grogan and his wife Robbi are the honorary chairs for the event, and Amalia Barreda of WCVB News will act as mistress of ceremonies. Other celebrities lending their support as auctioneers will include Mike Lynch and David Boeri of WCVB; John Dennis of WHDH-TV sports; WBCN's Charles Laquidara, and model Diane Page. The evening begins with cocktails and the auction at 6:30, to be followed by a sit-down dinner and dancing to the Bo Winniker Orchestra.

The Massachusetts Center for Sudden Infant Death Syndrome is a cooperative program between Boston City Hospital and Children's Hospital. The Center Staff provides an integrated, compassionate response available on a 24-hour basis, beginning when the family is contacted at the time of the baby's death, the time of their most intense need. For many of these parents, the unexpected death of their child is the most difficult thing they will ever have to cope with," says Dr. Fred Mandell, Director of the Center.

"The death of the baby devastates parents, grandparents, family and friends." Laurie Opolski, a SIDS parent, agrees. "It would have been much harder to live through the death of my child without the SIDS Center. Knowing there is someone to support you and help you understand what has happened makes the grief

more bearable." The Center staff also provides consultation to physicians, nurses and other health professionals involved in a SIDS death.

Tickets range in price from \$50 per person for a "Friend", \$75 for a "Donor", \$125 for a "Patron" to \$250 for a "Benefactor", and may be purchased by sending a check to the Massachusetts Center for SIDS, Boston City Hospital, 818 Harrison Avenue, Boston, MA 02118, or call Nurse Coordinator Mary McClain, RN, MS, at BCH in the SIDS Center, (617) 534-7437.

**"COLLEGE ADMISSIONS
INFORMATION"
AT WEST ROXBURY
BRANCH LIBRARY**

"Getting Into College: The Admissions Process," a program for college-bound high school students and their parents, was held at the West Roxbury Branch of the Boston Public Library, 1961 Centre Street, on Thursday evening, November 18, from 6:30 to 8 p.m.

The three-part workshop was aimed at getting high school students ready to begin their college applications and began with an overview of the college application process by Maureen O'Rourke, a guidance counselor at Mt. Alvernia High School. Deb Kocar and Kelly Walter, both senior associate directors of Admissions at Boston University, discussed what admissions officers look for in a college applications essay and give advice on how to write one.

**"CONSUMER
PRODUCT SAFETY"
AT NORTH END
BRANCH LIBRARY**

Barbara McEachern, a product affairs specialist with the U.S. Consumer Product Safety Commission, will present a program on "Consumer Product Safety" at the North End Branch of the Boston Public Library, 25 Parmenter Street, on Tuesday morning, November 23, beginning at 10:30 a.m.

Every year consumer products are associated with the deaths of an estimated 29,000 Americans and injuries to an estimated 33 million others. Many of these deaths and injuries involve products found around the home such as bicycles, toys, lawn mowers, household chemicals, furniture, appliances, and power tools. Although the cause of these accidents is more often user behavior rather than product failure, the cost to the American public is staggering — injuries treated in hospital emergency rooms alone is about \$10 billion per year.

Ms. McEachern, who has been with the commission since its inception in 1973, will describe some of the ways in which this independent agency has worked to prevent injuries and death, including research on potential hazards, working with industry to develop voluntary safety standards, issuing and enforcing mandatory standards where appropriate, ordering manufacturer's recall of unsafe products, banning products for which no feasible standard would adequately protect the public, and conducting information and education programs.

The program is part of the regular Tuesday morning lecture series and is free and open to the public. For more information, please contact the North End Branch Library at 227-8135.

OUR BOSTON

Each week the *City Record* will publish the background of Boston's forty-six mayors. The information presented was collected and researched by the former editor of the *City Record* Mr. Joseph Fahey with the assistance of Robert Hannon, Chief of Research, Boston City Council, and the late Francis Moloney, former Assistant Director of the Boston Public Library.

42nd Mayor JOHN E. KERRIGAN 1945

John E. Kerrigan first had some of the awesome responsibilities of mayor thrust upon him seven years before he was to assume the office on his own right.

The big hurricane of September, 1938, struck Boston when he was acting mayor during his first year as City Council president. To Kerrigan fell the task of mobilizing emergency forces to cope with the sudden rampage of nature. The storm hit when the mayor, Maurice Tobin, was on the West Coast on speaking tour.

Again in 1945 the mayoral powers passed from Tobin to Kerrigan when the former left City Hall to become governor.

Kerrigan, who had gone from City Council to the state Senate, to military service, and then back to city elective government, had the confidence of the Legislature and was accorded a rare vote of confidence. The General Court entrusted the acting mayor with full powers of office for the entire year. Although the end of World War II dominated all developments, it was a period of shortages of food and meat, fuels, and many commodities. Problems were similar to those to be faced three decades later by successors — greater ailments of fuel and heating supplies and an appeal for conservation of the public of electric power.

John Kerrigan also had to pilot Boston through the transition to postwar resettlement and its economic impact.

Mayor Kerrigan advocated a \$20-million program to catch up on deferred construction programs as one way to spur the job market.

He was keenly aware of the backlog need for more decent housing quarters for the citizens of Boston. He called for a massive ten-year program that would replace some 42,000 substandard living units in the city, at a whopping \$114-million price tag.

One of Mayor Kerrigan's major accomplishments was his legislation, approved on Beacon Hill, to refinance the Sumner Tunnel bonded debt. By this measure, he was able to save Boston taxpayers about \$12 million over twenty years by the device of retiring earlier obligations bearing higher interest rates.

During his period as mayor, he leased the entire Houghton Dutton Building at Tremont and Beacon streets to the federal government, bringing to the city landlord revenues.

He also supported antirace bias bills in the years long before the civil rights push nationally. He presided at the reopening of the East Boston Relief Station which had been closed for seven years.

Kerrigan lost his bid that fall for a full term as mayor. The race saw several aspirants in the contest and a fragmentation of votes, with former Mayor James M. Curley winning the election.

Six years later, John Kerrigan won election to the first Plan A nine-member at-large City Council elections. As had happened in the case of some other senior statesmen in public service, the newest career was to prove even more outstanding.

He was to serve eleven terms or twenty-two continuous years in the at-large Council, and his name became a household word to most

voters in the city. Although tagged the "silent man" in the Council, rarely speaking in debate, his voice was heard on the many major urban renewal votes that faced the Council in the 1960s.

The honored and respected John Kerrigan retired at the end of 1973 at age sixty-seven, ending a long public career. He lives in a modest three-decker at 213 West Eighth Street, South Boston, the same address he maintained when serving as the city's chief executive.

Whereas, Rapidly increasing water rates have created undo hardships to homeowners, tenants, and landlords, and,

Whereas, The water shutoffs by the Boston Water and Sewer Commission has increased from 415 shutoffs in 1989 to 2751 shutoffs in 1992, and

ORDER THAT NON-BINDING QUESTION BE PLACED ON NOVEMBER BALLOT RE CAPPING WATER AND SEWER RATES AT CALENDAR YEAR 1992 LEVELS (DOCKET NO. 0932)

Coun. O'NEIL offered the following:

Whereas, Water and sewer service charges have become a serious burden to property owner rate payers in Boston and also throughout the metropolitan area;

Whereas, Forecasts all point to a steeply increased trend with charges programmed to climb even higher in the next few years to carry out the cleaning of Boston Harbor;

Whereas, There appears to be rising sentiment that the multi-billion-dollar expenditure for this huge undertaking may be too extravagant if it drives bills on householders and businesses in the Boston area to oppressive levels;

Whereas, Families and individuals who rent will also be impacted as owners pass along the water-sewer service hikes or move to have tenants pay directly as with other utilities;

Whereas, In this year's municipal election Boston voters ought to be able to express their views on capping water-sewer bills at the 1992 level, tailoring back, if necessary, the Boston Harbor clean-up project; therefore, be it:

Ordered, In accordance with Massachusetts General Laws, Chapter 53, Section 18A, the following non-binding question shall be placed on the official ballot of the Regular Municipal Election to be held on November 2, 1993:

Do you favor capping water and sewer service rates for users in Boston at the levels in effect as of January 1, 1992, and, if necessary, tailoring the scope of the Massachusetts Water Resources Authority's treatment project for Boston Harbor?

_____ YES

_____ NO

ORDER FOR PETITION FOR SPECIAL LAW CREATING A NEIGHBORHOOD HEALTH CENTER TRUST (DOCKET NO. 0933)

Coun. YANCEY offered the following:

Ordered, That a petition to the General Court, accompanied by a bill for a special law relating to the City of Boston to be filed with an attested copy of this order be, and hereby is, approved under Clause (1) of Section eight of Article two, as amended, of the Amendments to the Constitution of the Commonwealth of Massachusetts, to the end that legislation be adopted providing precisely as follows, except for clerical or editorial changes of form only:—

Whereas, The City of Boston is currently facing a health care crisis among its various Health Care Centers; and,

Whereas, The City of Boston is currently confronted with answering such acute medical and social crises such as AIDS, infant mortality, lead poisoning, alcoholism, domestic violence, rape, sexually transmitted diseases and drug addiction; and

Whereas, Maintaining the city's neighborhood health centers throughout Boston is critical in the efforts of providing every Boston resident access to superior medical treatment; and

Whereas, Community Health Centers were established with the expressed purpose of relieving the medical service gap left by the disappearing private physician in both urban and isolated areas; and,

Whereas, Community Health Centers are an integral part of the communities they serve and that all independently licensed Community Health Centers have policy-making boards of Directors drawn from the communities they serve; and

Whereas, Community Health Centers often are accessible to and valued by indigent and marginalized groups; and,

Whereas, Community Health Centers provide a wide range of ambulatory care services to the neighborhoods they serve, providing preventative outreach and social services in addition to their medical care component; and,

Whereas, Community Health Centers specifically provide such services as pediatrics, adult medicine, obstetrics/gynecology, mental health, social services, nutrition, dermatology, podiatry, dentistry, oncology, speech and hearing therapy and homecare for the elderly and the disabled; and

Whereas, Family health workers and street outreach workers also deliver services and that other critically needed services are also provided by affiliated teaching, community and municipal hospitals as well as municipal, state, federal and private agencies; and

Whereas, Charges for services at community Health Centers are based primarily but not exclusively on (1) the total cost of operating the center, (2) the various funding sources available to the center via federal, state, municipal and private philanthropic funding and (3) the general income level of each center's total patient population; and

Whereas, Community Health Centers are severely underfunded in their expressed mission of expanding to meet crucially needed healthcare services for residents in communities throughout Boston; and,

Whereas, Community Healthcare Centers are lacking the needed capital funds for needed physical and programmatic and service expansion in order to properly respond to the demanding healthcare needs of residents throughout Boston; and now,

Therefore, pursuant to the authority invested in The City of Boston, including without limitation, Massachusetts General Laws, Chapter 176A Section 19, any other applicable laws, the following petition shall be enacted:

Section One. THE NEIGHBORHOOD HEALTH CENTER TRUST. Pursuant to G.L. c176A Section 19, there is hereby established in the City of Boston THE NEIGHBORHOOD HEALTH CENTER TRUST whose authority and requirements are set forth within. Notwithstanding G.L. c176A Section 19 there shall be established a Neighborhood Health Center Trust which shall have the authority to receive contributions from private teaching hospitals and corporations within the City of Boston. Such authority shall not be vested with the power to receive contributions from non-profit, tax-exempt municipal hospitals within the City of Boston.

Section Two. Statement of Purpose. The purpose of this ordinance is to promote the public health, safety, convenience, and welfare; to maximize the overall health status of residents within the City of Boston; to improve the health conditions of Boston citizens who are poor and disenfranchised; to provide geo-

graphically, culturally and linguistically accessible health care services to residents within the City of Boston; to further promote a stronger working relationship between the larger full-service private, teaching hospitals with Community Health Centers in Boston; to provide an instrument and/or a mechanism whereby private, teaching hospitals and neighborhood health centers within the City of Boston can coexist in an atmosphere optimally benefiting the private, teaching hospitals, neighborhoods health centers and the residents of the City of Boston; and to establish a financial relationship between the commitments of the Boston non-profit, private, teaching hospital with the various Neighborhood Health Centers within the city, which serves a valid public purpose and is in the public interest.

Second Three. DEFINITIONS.

"City" Shall mean the City of Boston.

"Neighborhood Health Center" shall mean any and all of the health care centers currently existing within the City of Boston. These health centers shall be recognized and in good legal standing with the individual and various municipal, state or federal funding sources and be recognized in good standing pursuant to the various municipal, state and federal statutes relevant to the operation and maintenance of Neighborhood Health Centers. Said Neighborhood Health Centers must be in full compliance with all city, state, and federal requirements.

"Neighborhood Health Center Trust" shall mean the Declaration of Trust for the Neighborhood Health Center Trust as attached hereto.

"Health Crisis" shall mean the ability of applicant Health Center demonstrate a documented expression of needs relating to improving the general physical, mental or social health of the population it generally and primarily serves.

"Boston City Hospital" shall mean that facility and its satellites recognized and funded directly by the City of Boston and administered to by the Board of Trustees of the Department of Health and Hospitals.

Section Four. FINDINGS. It is hereby declared that Neighborhood Health Centers existing within the City of Boston are insufficiently funded and that such a condition constitutes a health care crisis within the City of Boston, injurious and inimical to the health and morals and general welfare of residents of the respective neighborhoods throughout the City; that this health care crisis contradicts the goals of the City of Boston in its determination to provide superior medical services to every citizen and deprives poor, disenfranchised, culturally and economically marginalized citizens easy access to full medical opportunities within their neighborhoods; that Boston is viewed nationally as a city possessing superior medical facilities, schools and personnel; that Boston is recognized as example of a City with relatively complaisant fiscal regulations and a generally unmonitored and unchecked medical community; that there is a uniform lack of standards for taxpayer-supported private teaching hospitals in Boston; that there is no formal and uniform relationship, financial or otherwise, existing between the various full-service, private, teaching hospitals and the various neighborhood health centers throughout the City of Boston and that Boston's private teaching hospitals are supported by federal, state and local revenues, and by Medicare, Medicaid and the National Institute of Health funding for their institutions and their doctors; that said hospitals receive financing from tax exempt bonds and tax exempt philanthropy, their buildings and their profits tax free; that hospitals have the ability to accumulate vast amounts of discretionary cash re-

sources and securities without effective requirements for charitable care or community services; that there is a need for public accountability of these tax-exempt private hospitals and that the general public could benefit from a process which evaluates the financial status of private teaching hospitals within the City of Boston; that from 1984 to 1992 the Boston private teaching hospitals spent more than \$2 billion on new property, plant and equipment and that this sum was spent without meaningful community health planning which would prevent the duplication and triplication of services; that these twelve hospitals accumulated over the same time approximately one billion in discretionary cash; that a public exigency ought to exist which utilizes financial resources from the various private, teaching hospitals in Boston for the direct and expressed purpose of supporting the short and long term financial, infrastructural and programmatic interests of said Neighborhood Health Centers and that necessity in the public interest for the provision hereinafter enacted is hereby declared as a matter of legislative determination.

Section Five. Appropriations.

A. Appropriations may be made annually from the general fund to a trust, the provisions of which are attached and incorporated by reference, the trustee of which is the Collector/Treasurer of the City of Boston and the purpose of which is to make contributions of cash and/or property to Neighborhood Health Centers so designated by the Neighborhood Health Center Trust Managing Committee. Appropriations are to be made based on the respective needs of the various Neighborhood Health Centers. In any fiscal year appropriations made hereunder shall not exceed the sum of the amount collected and reserved during that fiscal year or prior fiscal years.

B. The Neighborhood Health Center Trust may receive and accept directly, whether real or financial from any hospital and/or foundation or any person any contribution with the said intention that it be directed toward the Trust. The Trust will have all authority of distribution of grants, gifts or contributions so long as such contributions are directed to the various Neighborhood Health Centers identified by Neighborhood Health Center Trust.

Section Six. Operation of the Trust.

A. The Neighborhood Health Center Trust shall be required to allocate monies or property to qualified Neighborhood Health Centers. Qualified Centers must be located within the City of Boston and serving a population in need of healthcare attention.

The Neighborhood Health Center Trust must insure that Neighborhood Health Centers requesting assistance demonstrate a need in expanding services, physical infrastructure and/or programmatic demands.

B. Neighborhood Health Centers applying for assistance must submit an affidavit of need to the members of the Neighborhood Health Center Trust Managing Committee. The Committee shall then evaluate the application of need and award resources in accordance with relative levels and importance of applicant health centers.

C. In making any allocations the Trust and the composite members of the Trust Managing Committee shall require strict adherence to rules promulgated by the Managing Committee which will ensure: (1) the most acute health care needs are attended to via the allocation of Trust resources and (2) that populations within low to moderate income level, where health care and health education are needed more, are the recipient of disproportionately higher resource focus.

Section Seven. Severability Clause.

A. If any provision of this petition is invalid or unenforceable by court of competent jurisdiction, the other provisions of the act shall not be affected thereby, but shall continue in full force and effect.

THE DECLARATION OF TRUST THE NEIGHBORHOOD HEALTH CENTER TRUST

Know all men and women by these presents that the Collector-Treasurer of the City of Boston, hereinafter referred to as "Trustee," acknowledges that he or she has received on behalf of the Neighborhood Health Center Trust, the sum of \$1 from a donor, whose name, together with the names of all other donors to this Trust and the amounts contributed by each, shall be kept by the Trustee in a permanent record, and agrees and declares for himself, that he or she shall hold this sum and other amounts made to him or her as Trustee, hereunder, for the uses and purposes, and subject to the duties and powers herein set forth.

The five matters were added to the Agenda to be individually considered.

ORDER RE BOSTON HOUSING AUTHORITY'S APPLICATION FOR URBAN REVITALIZATION DEMONSTRATION PROGRAM (DOCKET NO. 0946)

The following was received:

City of Boston
Office of the Mayor

June 14, 1993.

To the City Council.

Dear Councillors:

I transmit herewith a proposed order relative to the Urban Revitalization Demonstration Program application submitted by the Boston Housing Authority to the U.S. Department of Housing and Urban Development.

I urge the City Council to pass this order as soon as possible.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

Whereas, That U.S. Department of Housing and Urban Development is authorized by the 1993 Departments of Veterans Affairs and Housing and Urban Development and Independent Agencies Appropriations Act (Public Law 102-389), as modified by the Housing and Community Development Act of 1992 (Public Law 102-550), to make grants to certain public housing authorities under the Urban Revitalization Demonstration Program for the purpose of providing such public housing authorities with the resources to comprehensively address the physical and supportive service needs of severely distressed public housing developments; and

Whereas, The U.S. Department of Housing and Urban Development has held a competitive funding process to award the \$300 million made available by the U.S. Congress for such purpose and will award Urban Revitalization Demonstration Program grants of up to \$50 million to public housing authorities in no more than 15 cities nationwide; and

Whereas, The Boston Housing Authority has applied to the U.S. Department of Housing and Urban Development for a grant of \$50 million for comprehensive revitalization of the Mission Hill public housing development; and

Whereas, Urban Revitalization Demonstration Program eligibility requirements provide that City Council approval of the Plan For Implementation will enhance the application; now, therefore be it

Ordered, That the City of Boston, in City Council, hereby approves the Plan For Implementation in the Urban Revitalization Demonstration Program application submitted to the U.S. Department of Housing and Urban Development by the Boston Housing Authority.

On motion of Coun. CRAYTON, the rules were suspended; **the order was passed.**

COMMITTEE ON PUBLIC HEALTH TO HOLD HEARING RE SECRET MEETING OF BOARD OF HEALTH AND HOSPITALS OF 6/15/93 (DOCKET NO. 0947)

Couns. SCONDRAS and SALERNO offered the following:

Whereas, On the afternoon of June 15th, prior to the official meeting of the Board of Health and Hospitals, the Board held a secret meeting at which a quorum was present, decisions were made and legal counsel was present but the public and other public officials were denied access, and at which meeting the orchestration of the official Board Meeting was reviewed and final decisions were made on the choice of names to forward to the Mayor for his decision a Commissioner of Health and Hospitals, all in violation of both the Open Meeting Law and the Board

own bylaws, and

Whereas, During the afternoon of June 15th, against the advice of State Representative John McDonough, State Representative Gloria Fox, State Representative Kevin Fitzgerald, City Councillor Charles Yancey, City Councillor David Scondras, James Marcellino, long term recent Chair of the Board of Health and Hospitals, Alex Bok, long term board member, and the combined opinions of many members of the health care community, the Board of Health and Hospitals voted to install Larry Dwyer as the new Commissioner of Health and Hospitals for the City of Boston and forward his name to the Mayor for approval, and

Whereas, The Board in recorded testimony admitted it did not meet with, interview or receive a resume from Larry Dwyer prior to its vote, and

Whereas, The Board refused to interview, meet with or read the resumes of three additional applicants for the job, notwithstanding its own affirmative action policy and the minority status of two of the applicants, which constituted a violation of the spirit, if not the letter of the Board's affirmative action policy, and which was called into question during the board meeting by board member Alex Bok, an attorney, and

Whereas, The Board admitted it was aware Larry Dwyer has no experience managing a hospital and no familiarity with the specific fiscal constraints facing Boston City Hospital, and

Whereas, At least one researcher has indicated his inclination to remove, at the urging of NIH, a million dollars worth of grants from City Hospital as a result of such a blatantly political appointment made without consideration of qualifications or competing candidates, and

Whereas, The city's health care commission under the direction of James Segel of Hale and Dorr has set December 31 to recommend long term directions for city hospital and any decision relative to leadership of city hospital should be informed by this report, and

Whereas, Commissioner Kurland has made clear her willingness to provide stability to City Hospital by remaining on duty until a new mayor appoints a successor, and

Whereas, This blatantly political hiring, without any review of qualifications, decreases stability at city hospital at a time when increasing stability is extremely important to the hospital's capacity to deal with state reimbursement formulae which encourage competition for patients, federal changes which may drastically alter the funding environment and massive change resulting from its construction of a new 170 million dollar facility, and

Whereas, The only consideration decisions about city hospital should be guided by are the best interests of the people who use the hospital, and

Whereas, Among the Board members who voted to move forward on Mr. Dwyer's appointment were the Department Head of the Insurance Division of the City of Boston and the Collector-Treasurer of the City of Boston, clearly acting in accordance with directions from the Mayor, and

Whereas, The Boston City Council cannot in good conscience allow this decision to stand without review, Now Therefore Be It

Ordered, That the Committee on Public Health hold a hearing forthwith and summons or invite the Board of Health and Hospitals, Judith Kurland, Larry Dwyer, and Be It Further

Ordered, That the Committee on Public Health summons a transcript of the public meeting of June 15th, the affirmative action policy of the Board of

Health and Hospitals, and Be It Further

Ordered, That the Committee on Public Health inquire of the Corporation Counsel as to his advice to the Counsel of Health and Hospitals with reference to the secret meeting of June 15th, and as to whether he or any of his staff were present at said meeting, and Be It Further

Resolved, That the City Council hereby expresses its intent to withhold appropriate sections of the budget until such a time as the Board of Health and Hospitals rescinds its vote of June 15th in order to meet its fiduciary responsibilities in not voting resources to an organization whose actions we deem not responsible at this time.

Referred to the Committee on Public Health.

ORDER THAT BOSTON ELECTION COMMISSION ADOPT AGENCY-BASED VOTER REGISTRATION (DOCKET NO. 0948)

Coun. HENNIGAN offered the following:

Ordered, That the Boston Election Commission adopt agency based voter registration as a means of increasing voter registration and voter participation.

Passed under suspension of the rules, yeas 7, nays 3:

Yeas - Councillors Bolling, Crayton, Hennigan, McLaughlin, Menino, Scondras, Yancey - 7.

Nays - Councillors Byrne, Kelly, O'Neil - 3.

ORDER FOR PETITION FOR SPECIAL LAW RE CONFIRMATION BY COUNCIL OF BOARD OF HEALTH AND HOSPITALS (DOCKET NO. 0949)

Coun. YANCEY offered the following:

Ordered, That a petition to the General Court, accompanied by a bill for a special law relating to the City of Boston to be filed with an attested copy of this order be, and hereby is, approved under Clause (1) of Section eight of Article two, as amended, of the Amendments to the Constitution of the Commonwealth of Massachusetts, to the end that legislation be adopted providing precisely as follows, except for clerical or editorial changes of form only:—

Section 1. Chapter 656 of the Acts of 1965 is amended by inserting in Section 1 by striking, in the first sentence, the words: "consisting of nine members appointed by the mayor." and inserting in its place the following: "consisting of nine members nominated by the mayor and confirmed by the city council."

Section 2. Said Section 1 shall also be amended by striking the last sentence of the first paragraph and inserting in its stead the following: Any vacancy in the office of a member shall be filled by the mayor with confirmation by the city council for the unexpired term.

Referred to the Committee on Government Operations.

COMMITTEE ON URBAN RESOURCES AND HISTORIC PRESERVATION TO HOLD HEARING RE EFFORT TO ACCESS MONIES FROM CLEAN ENVIRONMENT FUND TO EXPAND CITY'S NEWSPAPER RECYCLING PROGRAM (DOCKET NO. 0950)

Coun. SALERNO offered the following:

Whereas, The City of Boston operates a citywide, curbside newspaper recycling program on a bi-weekly basis; and

Whereas, This program, the only citywide recycling program, has been a critical factor in the City's efforts to reach recycling goals as specified in the Comprehensive Recycling Ordinance of 1990; and

Whereas, The bi-weekly nature of this program has caused significant confusion for many residents and is considered a factor in the degree to which residents regularly participate in the program; and

Whereas, There is evidence that increasing participation in the curbside newspaper recycling program would significantly increase the total percentage of residential waste that is recycled; and

Whereas, Increased collection of newspaper would have an important effect on the City's overall recycling budget; and

Whereas, Increased participation by city residents in the newspaper program would be an important factor in preparing Boston residents for the implementation of a citywide, curbside recycling of five major recyclables due to begin in the summer or fall of 1994 when the City of Boston opens its material recovery facility; and

Whereas, In December, 1989, the State Legislature passed an amendment to the Bottle Bill that mandated that all unclaimed bottle deposits be directed to the State; and

Whereas, The Legislature established a "Clean Environment Fund" to receive and distribute the unclaimed bottle deposits, which would be used for "programs and projects in the management of solid waste and for environmental protection"; and

Whereas, A court ruling in March of this year upheld the legality of the state law and the Clean Environment Fund; and

Whereas, It is estimated that, when fully enforced, there may be up to \$21 million dedicated to the Clean Environment Fund; and

Whereas, The Boston Recycling Coalition, in cooperation with the Recycling Program of the City's Department of Public Works, is developing a proposal for funds from the Clean Environment Fund to expand the City's present bi-weekly curbside, recycling program to a weekly program; therefore be it

Ordered, That the City Council's Committee on Urban Resources and Historic Preservation hold a public hearing to discuss the efforts of the Boston Recycling Coalition and the Recycling Program of the Department of Public Works to access monies from the Clean Environment Fund for the purposes of expanding the City's bi-weekly curbside, newspaper recycling program; further, be it

Ordered, That the appropriate representatives of the Executive Office of Environmental Affairs, the Department of Environmental Protection, the Recycling Program of the Department of Public Works, the Boston Recycling Program and members of the Clean Environment Fund's Committee be invited to attend.

Referred to the Committee on Urban Resources and Historic Preservation.

MAYOR OF BOSTON

OFFICIAL CHRONICLE, MUNICIPAL AFFAIRS

THOMAS M. MENINO
PRESIDENT, CITY COUNCIL

VOL. 85

MONDAY, NOVEMBER 29, 1993

NO. 48

Mayor Thomas Menino receives a check for \$870,000 from Lt. Gov. Paul Cellucci to fund the City's anti-smoking efforts. Former Celtic Dave Cowens and WBCN disc jockey Charles Lacquadara look on. The money — which came from last year's anti-smoking ballot question that put a tax on cigarettes — will go to the Department of Health and Hospitals. Last week, Mayor Menino signed legislation locking out cigarette machine sales to minors.

MWRA BOND SALE SAVES RATEPAYERS \$60 MILLION; CITY CITES HARBOR PROJECT AS MOST IMPORTANT TO STATE

The Massachusetts Water Resources Authority today announced the sale of \$49 million in revenue bonds at an interest rate of 5.66%, a financing expected to save ratepayers \$2 million per year over the 30-year life of the issue.

MWRA attributed the savings to the upgrading of its bond rating by Standard & Poor's from A- to A and the successful refinancing of \$150 million in previously issued debt at a lower interest rate.

"The management efficiencies we have undertaken together with the strong support we are receiving from the public, the Governor and the legislature for rate relief are being recognized on Wall Street as pluses for in-

vestors in MWRA bonds," said MWRA Executive Director Douglas B. MacDonald.

"Controlling debt service costs is one of the single most important things MWRA management can do to help water and sewer rate increases under control," he added. "More than 50% of an average ratepayer's bill is to pay for bonds used to fund MWRA construction projects including the Boston Har-

bor Project and waterworks system improvements."

MacDonald also noted that the MWRA was helped by a Standard & Poor's upgrade of the Boston Water and Sewer Commission, the Authority's largest customer, from A- to A.

MWRA is one the nation's largest issuers of revenue bonds with \$2 billion already financed and up to \$2 billion expected to be issued over the next six years.

In a public opinion poll conducted this month for the Mass Insight Group by Opinion Dynamics Corporation, MWRA's Boston Harbor Project was cited by residents as the state project most important to the Commonwealth's overall economy.

The project has provided work for more than 700 private sector companies and 2,900 construction workers and engineers.

MWRA TRIMS ADMINISTRATIVE COSTS INCLUDING CARS, PHONES

Massachusetts Water Resources Authority Executive Director Douglas B. MacDonald announced today he is seeking to reduce MWRA administrative costs through staff reductions, cuts in overtime, significant curtailments in the use of cellular phones and domiciled vehicles and other measures.

The cuts, part of a management reorganization and ongoing review of MWRA operations, will save in excess of \$600,000 per year when fully implemented.

"We are taking an inward look at our management and finding that we can achieve savings without sacrificing the quality of the services we provide to our customers," said MacDonald. "In some cases the changes are difficult, especially when they involve layoffs or job eliminations. In others, we have found that we do not need employees driving MWRA vehicles to and from work and we can get by with fewer cellular phones."

MacDonald said the MWRA would achieve costs savings through:

- The elimination of 9 positions, including 5 executive and management personnel, through layoffs and attrition for an annual savings of \$342,000.
- A 50% reduction in cellular telephones assigned to MWRA employees.
- A 40% reduction in MWRA vehicles assigned to employees who are allowed to use them for commuting purposes as part of their jobs.
- A \$3000,000 reduction in overtime spending at the Deer Island Treatment Plant.

MacDonald said efforts are already under way to reduce next year's expenditures and reduce water and sewer rate increases. He noted that staffing levels for the new Deer Island Treatment Plant, scheduled to go on line in July, 1994, have been reduced to 343 from the 473 projected in earlier budget estimates. He said plant staffing level reductions will save ratepayers \$5 million per year through the year 2000.

Other cost savings initiatives have included the recovery of \$1.1 million in unjustified fees charged MWRA by consultants and the use of methane gas produced on-site instead of fuel oil at treatment plants for a savings of \$882,000 per year.

The Calumet Quintet, a Boston-based concert ensemble consisting of string quartet and double bass, will perform "Quintet No. 75 in D," an unpublished and previously unperformed musical work by Luigi Boccherini, at 2 p.m. on Thursday afternoon, December 2, in the Rabb Lecture Hall of the Central Library in Copley Square.

Now in its seventh year, the group is the only full-time bass string quintet in America and one of the few such bass quintets in existence. Cofounded by cellist Richard Melde and bassist Arnold Friedman, the group performs the traditional chamber works of Bach, Mozart, Dvorak, Onslow, and Schubert as well as its own arrangements of popular Broadway show tunes. In addition to Melde and Friedman, members of the group are violinists Clayton Hoener and Gerald Itzkoff and violist Scott Woolweaver.

This is the second program in the Boston Public Library's new "Discovery Concert Series" featuring musical gems discovered in the BPL's Allen A. Brown Collection. The Music Department's Brown Collection is a treasure trove of 19th and 20th century manuscripts and first edition publications, containing a surprisingly varied and wonderful assortment of chamber music. In 1989 Calumet's Melde and Friedman discovered seven quintets of Joseph Mayseder (1789 to 1863) in the Collection, from which they premiered "Quintet No. 3 in D Major" at the BPL in 1991. Further exploration has yielded many more fascinating finds which will be performed in future "Discovery Concerts," including January 20, and March 24, 1994.

The concert is presented by the BPL's Never Too Late Group and is free and open to the public. FM listening receivers for hard-of-hearing patrons are available upon request. For additional information, please contact the Boston Public Library at 536-5400, Ext. 295.

**"CHILDHOOD INJURY
PREVENTION" AT
JAMAICA PLAIN
BRANCH LIBRARY**

Kim Wolski, a health educator with the City's Department of Health and Hospitals, will present a program on "Childhood Injury Prevention" during the weekly Parents' Program at the Jamaica Plain Branch Library, 12 Sedgwick Street, at 10:30 a.m. on Tuesday morning, November 30.

Injuries are the leading cause of death for children. More children die annually from unintentional injuries than from all other childhood diseases combined. This year one child in four will suffer a preventable injury serious enough to require medical attention.

The goal of the Injury Prevention Program is to reduce the rate of unintentional injury to children through education, distribution of safety materials, and enforcement of policies for at-risk individuals.

Ms. Wolski has a M.P.H. degree from Boston University and a B.S. degree in Home Economics/Dietetics from Queens College in New York. Prior to assuming her present position in 1991, she served in Honduras with the Peace Corps as a health educator and later as a volunteer teacher in a bilingual high school.

The program is free and open to the public. For additional information please contact the Jamaica Plain Branch Library at 524-2053.

**"SCENES FROM THE
NUTCRACKER AT
JAMAICA PLAIN
BRANCH LIBRARY**

Boston's North Atlantic Ballet Youth Program will perform scenes from "The Nutcracker," one of the world's best loved ballets, in a special performing arts program for "children of all ages" at the Jamaica Plain Branch of the Boston Public Library, 12 Sedgwick Street, beginning at 4 p.m. on Wednesday afternoon, December 1.

Most people are unaware that the "Nutcracker," began as a story written by E.T.A. Hoffmann in Germany in 1861. Hoffmann's "The Nutcracker and the Mouse King" evolved after many years and numerous changes from the original tale into the classic ballet of today.

Dances will be performed by Marie, Franz, the Sugar Plum Fairy, as well as several talented children from the Jamaica Plain area.

The public is cordially invited to attend this free presentation. Advance registration is not required, however, seating is limited and groups cannot be accommodated. For additional information, please contact the Jamaica Plain Branch Library at 524-2053.

Introduction

With the approach of the Christmas season, there is an exuberance, a warm glow, and a sense of magic in the air for children and adults. Back by popular demand, *Another Touch of Christmas* is a series of films which focuses on the joys, the sorrows, and the nostalgia of the holiday season. This year's screenings are adaptations of literary work which range from traditional interpretations to contemporary reworkings of classic tales. For your pleasure during the holiday season, the Boston Public Library is proud to present *Another Touch of Christmas*.

Directed by Don McBrearty.

ACKNOWLEDGEMENTS

The Boston Youth Cleanup Corps and the Boston Parks and Recreation Department wish to thank all of the individuals who took the time to help make the 1993 BYCC effort successful. Once again, Boston residents were able to witness Boston's youth making a difference in the communities in which they live.

Special thanks are also in order for Acting Mayor Thomas M. Menino, who, in his first day in office, restored \$500,000 to the youth fund, which allowed every youngster who called the "Hope Line" to be given the opportunity to work. A task that had not been accomplished in the eight years of the program's existence.

Governor William Weld and Nils Nordberg, Commissioner of the State Department of Employment and Training, are to be praised once again for their financial commitment to Boston's coordinated jobs program. Through their \$2 million grant, all of Boston's youth employment programs were able to reach out to many needy youngsters.

The Coordinated Youth Employment Program, consisting of Parks and Recreation, Economic Development and Industrial Corporation,

Action for Boston Community Development, Private Industry Council, Boston Community Centers, and the Boys and Girls Clubs of Boston, once again flourished under the leadership of Commissioner of Health and Hospitals Lawrence Dwyer. We appreciate and thank him for his tireless efforts on behalf of the youth of Boston.

Three city departments must be recognized for their commitment to the maintenance effort of the BYCC. The Parks and Recreation maintenance division, under the leadership of Don King, was instrumental in the program's ability to get the job done. The Department of Public Works proved once again that they are willing and able to contribute to any effort that works to beautify the city. We thank Commissioner Joseph Casazza, and Highway Superintendent Joseph Canavan for their continued support. Also, the Mayor's Office of Neighborhood Services, specifically the 24-hour staff, deserve special recognition for helping to coordinate the enormous number of people who have come to rely on the services of the BYCC. We thank Ann McGuire, Gerry Cuddyer and the remainder of their staff for this assistance.

In addition to the outstanding support of numerous other city departments that cannot be listed here, residents, and neighborhood non-profit agencies, we must recognize our two largest corporate sponsors who allowed this year's effort to reach new heights in service delivery.

After becoming aware of the financial difficulties facing the BYCC, Waste Management, Inc., of Massachusetts, through the leadership of Division President Anthony Farina, responded by offering to haul and dispose of all debris generated by the maintenance division of the BYCC. Waste Management's commitment of equipment, personnel, and cash contribution, totaled well over \$50,000, which cleared the way to hire 50 additional youths. Their enthusiasm in working with us and the youth of

The film features many cameo appearances by such stars as John Forsythe, Carol Kane, Robert Mitchum, David Johansen, Buddy Hackett, Robert Goulet, Lee Majors, and Mary Lou Retton. This energetic and sometimes scary film was directed by Richard Donner.

Boston went well beyond the call of duty. We thank Mr. Farina, Charles Bockman, and the additional staff provided by Waste Management.

Shawmut Bank of Boston is also to be commended for their contribution to the program. Specifically, Eileen Murphy and Chip Coveney, who, through their leadership, enabled every BYCC employee to receive a free savings account, complete with an A.T.M. card. A direct deposit system was established allowing city youth to learn the benefits of having a banking account, which would encourage savings of their hard earned wages. These accounts will remain open for youngsters until they reach the age of 19. It is our belief that this portion of our effort could set a precedent for future youth employment programs in Boston, and throughout the nation. We appreciate the effort put forth by Shawmut Bank on behalf of the youth of Boston, and look forward to continued collaborations that provide valuable practical learning experience for the future leaders of our city.

Finally, we must make mention of the extra effort put forth by the State Department of Employment and Training. Realizing the limited amount of time between funding notifications and projected start date of the program, D.E.T. provided six full time staff for a three-week period to assist the program in its intake process. Their professionalism and willingness to do whatever was necessary made the difference in our ability to process almost 3000 people in a very short time. We wish to thank them for all their hard work.

I. OVERVIEW

On Friday, August 27, 1993, the Boston Youth Cleanup Corps concluded its eighth season of operation, which proved to be its most successful one ever. This summer's clean up statistics were extremely impressive. Red Shirt crews were able to clean

3,147 sites and remove 107,915 bags of trash in only 32 days on the job, for a 10 percent increase in productivity over last summer.

This summer, the BYCC had the services of an elite neighborhood supervisory staff, who filtered their positive and motivational tactics down toward the crew supervisors, and to the youths themselves. As a whole, this year's staff made each day exciting and productively effective, in record-breaking fashion.

Once again, the program continued to promote friendship throughout the city's neighborhoods and, on many occasions, numerous crews combined for large scale projects, thereby enhancing cooperation and teamwork amongst Boston youth.

COMMUNITY BASED ORGANIZATIONS

Over the years, the CBO aspect of the BYCC program has grown considerably. What was once considered just a cleanup effort, has now turned into a full fledged employment opportunity, thanks to the diversity of the jobs offered through the C.B.O. component.

This component serves two very important functions for the BYCC, first it allows the opportunity to take those youngsters who have learned basic job skills and allows them the opportunity to improve their skills in a professional job setting. Over the years, we have added positions such as photography, video production, farming, marketing, and tour guides, in addition to receptionist, book-keeper, data entry, recreational specialist, tennis instructors, day care assistants, administrative assistants, and countless others.

The second function performed by the C.B.O. component, which is equally important, is the on-going commitment to the neighborhood non-profit centers that exist in the city. Nearly one thousand youngsters worked in various community centers, Boys and Girls Clubs, Y.M.C.A.s, and scores of other facilities allowing these agencies to service more of the pre-teen population during the summer months. There is constant pressure on these agencies to provide greater services to more people and through this employment commitment, they are able to increase their effort.

This season we are happy to report that more agencies, as well as more employees, were part of this component without the program experiencing any decrease in the productivity of its maintenance effort. Thanks are in order for Parks Commissioner Patrick Harrington for allowing Jackie Cooper, Edward Kelly, and the remainder of the Parks Constituent Services Division for overseeing this effort. We congratulate Jackie, Edward, and their staff for a job well done.

We must also thank and recognize the directors and staff of the various agencies who took the time to provide a quality work experience for the youth of Boston. Often this commitment to the youth and their families is overlooked, and we would like to publicly thank them for the outstanding work they do. We have seen the best that Boston's non-profit agencies have to offer we are proud to assist and be associated with them as we work to make Boston a better place for all.

CORPORATE SPONSORSHIP

The Boston Youth Cleanup Corps 1993 summer cleanup program was fortunate to receive a very generous amount of funding from the City of Boston, such as the \$500,000 restoration plan allocated by Acting Mayor Thomas M. Menino in his first week in office. Nevertheless, the tremendous success that the BYCC enjoyed this season would not have been possible without assistance from a number of private corporations that are committed to the youth of Boston. The BYCC is extremely grateful for their support, and would like to recognize these corporations.

Waste Management, the nation's leading environment service provider, contributed immensely when their Massachusetts division agreed to dispose of all trash collected by the summer program, and also donated a \$5,000 check.

Waste Management's pick-up and disposal program saved the BYCC approximately \$50,000, this money went towards maximizing the efficiency of the program and led to over 50 additional jobs for youths. Waste Management provided seven trucks, two of which were in service full-time, as well as staff to collect and dispose of 800 tons of trash.

Division President Anthony Farina of Waste Management of Massachusetts, Inc. said, "The Boston Youth Cleanup Corps stands out as a testament to the positive rewards that our communities gain when we tap into

the ambition and enthusiasm of our young people. We are proud to be a sponsor of such a worthwhile program."

Another private corporation dedicated towards assisting the youth of Boston is Shawmut Bank, which generously provided free customized savings accounts for all BYCC participants, as well as bank personnel at the BYCC registration site to open these new accounts. All BYCC employees had the convenience of direct deposit of their paychecks, plus free 24 hour ATM cards and monthly statements. All savings accounts will City of Boston's summer youth employment program. With the alarming problems on our streets and in our schools, programs like this are extremely important because they provide a positive alternative for Boston's young people."

Two other significant contributors this summer were Ackerley Communications and Boston Thermal Corporation, which both made a large donation towards the youth of Boston. Ackerley Communications contributed \$10,000, allowing ten additional jobs, while Boston Thermal Corporation donated \$3,000.

The Newmarket Business Association, which consists of close to 100 local businesses in the Greater South Bay Area, also contributed to the Red shirts. NBA President James Webster of Boston Edison said, "Having our neighborhood clean helps us draw customers to our businesses. The Red Shirts have done an outstanding job all summer long. They deserve our recognition." Incidentally, Webster's company, Boston Edison, was one of the corporations that contracted the BYCC to do some work on property owned by Boston Edison. The BYCC received \$1,800 from Boston Edison for their efforts. Other private companies that contracted the BYCC include the National School Bus Company, for \$2,000, and Orsett Properties, for \$800.

employees to earn interest on deposits over \$100, and all service charges are waived during BYCC employment.

Shawmut Bank President Allen W. Sanborn said, "Shawmut is delighted to have an opportunity to demonstrate its continued support for the

Some of Boston's smaller businesses also got involved in this year's effort. Seth Adler, owner of the Muffler Mart on Columbus Ave. in Roxbury, was so inspired by the work of the Red Shirts on the vacant lot behind his property that he decided to make an on-the-spot donation.

"The BYCC is the most positive thing that I have seen in twelve years in this community," said Adler. "The enthusiasm that these kids showed for the community while they were working their hearts out in this hot weather was inspirational."

The BYCC also began a writing contest between the Red Shirt employees for publication in the program's newsletter "The Red Shirt Times." The winning prizes were \$25 gift certificates donated by Boston area businesses. The BYCC would like to thank Amhrens Restaurant in South Boston, Filene's, Hit or Miss, The Gap, Callahan's Men's Clothing Stores, and Cry-stall's Clothing Stores for their contributions.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

SCHOOL DEPARTMENT

LO 4243-94
July 30, 1993

Lease Contract

Dear Mr. Mayor:

I request your Honor's permission to dispense with public advertising to award a lease contract to the Boston Architectural Center, a non-profit educational corporation located at 320 Newbury Street, Boston, MA 02215, to provide space and direct services to Another Course to College, the alternative college preparatory program, conducted by the Boston Public Schools.

Under the terms of the lease, the Boston Architectural Center will provide Another Course to College with approximately 10,000 square feet of space for a unit cost of \$3.00 per square foot. In

addition to classroom space, the Center will provide student furniture, all utilities, custodial services, and trash removal. Rental costs in other buildings surveyed in the area are six to seven times greater per square foot. These spaces would require renovations for school use, and would not include the cost of furniture and utilities.

The Boston Architectural Center faculty will be providing direct services to the students through an advisory board which assists with publicity for the program, grant writing, internships and a mentor program. Another Course to College is the only alternative program for at risk students who are college bound. The students gain worthwhile experience and benefit from the encouragement extended through the Center's services.

The students in the ACC program attended classes at the Center during the 1991-1992 and 1992-1993 school years and benefited from the high-quality professional atmosphere there.

The term of the lease will be from August 15, 1993, through June 30, 1994. Compensation under the lease shall not exceed thirty thousand dollars (\$30,000), which is the same cost as last year. I deem the cost to be reasonable.

Because of the unique quality of this particular need, and the reasonable cost, I believe that public advertising would serve no useful purpose. This determination is being published in the Central Register.

Very truly yours,
Robert R. Roy, Director,
Senior Structural Engineer.

Professional Services

Dear Mayor Menino:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to the Boston Management Consortium (BMC), a non-profit corporation, with offices at Boston City Hall, Room 612A, One City Hall Plaza, Boston, Massachusetts. The BMC will provide training, professional development services and management consultation to the Boston Police Academy and the department's executive management. This contract is exempt from the provisions of M.G.L. c. 30B, and is awarded under the authority of the Boston City Charter.

Under the terms of this contract, BMC will assist the Boston Police Academy with the design, development and coordination of the department's Neighborhood Oriented Police Training Activities. This training will involve all tiers of police personnel from the FY '94 police recruits to senior managers and will be executed in accordance with the department's established Plan of Action. The BMC will also focus a portion of this year's training initiatives on women in policing and women in management within police organizations. For some of the training support services regarding neighborhood policing, the BMC will draw upon the expertise of John E. Linder, of Linder & Associates, who has been instrumental in the development of the Plan of Action.

A detailed itinerary of the training to be completed is listed on the Attachment to Form CM10 and is enclosed for your review. The BMC is uniquely qualified to perform these services as they have assisted with the design of this training program and, as the non-profit corporation in charge of training for the City of Boston, have

successfully trained many of this administration's municipal managers.

Compensation under this contract shall not exceed one hundred thirty thousand dollars (\$130,000.00), which I have determined to be reasonable, given the depth and breadth of the work to be performed. The term of this contract shall be July 1, 1993, through June 30, 1994.

Inasmuch as the BMC assisted with the design of this comprehensive program and inasmuch as they are the agency responsible for training in the City of Boston, I believe that public advertising would serve no useful purpose.

This contract is being processed late due to the time involved with finalizing this fiscal year's training schedule which coincided with the departure of Mayor Flynn and former Commissioner Francis M. Roache.

Respectfully,

William J. Bratton,
Police Commissioner.

Training Personnel

Dear Mayor Menino:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Mr. Tony Lopresti, an individual, with a mailing address of Post Office Box 308, New York, New York, 10025. Mr. Lopresti will provide training to all police personnel assigned to the Police Academy's Video Unit. This contract is exempt from the provisions of M.G.L. c. 30B, and is awarded under the authority of the Boston City Charter.

Under the terms of this contract, Mr. Lopresti shall provide training to the Video Unit's personnel in every aspect of producing law enforcement training videos. This training shall contain intensive, step by step guidance throughout all phases of production and shall include the technical and creative techniques essential to the production of successful training videos. Upon completion of the training, the video crew under the tutelage of Mr. Lopresti will have produced four (4) law enforcement videos handling such topics as professionalism, use of force, new police equipment, and threshold inquiry. Due to this training, future law enforcement training videos will be written, directed, produced and edited independently in-house without the assistance of outside expertise.

Mr. Lopresti is uniquely qualified to perform his training as he has worked exclusively in the law enforcement video industry for over fifteen (15) years. He is responsible for establishing the video training techniques used by the New York Transit Police and the New York City Police Departments as well as other law enforcement organizations, nationwide.

Compensation under this contract shall be at the per diem rate of five hundred dollars (\$500.00), for a total amount not to exceed six thousand dollars (\$6,000.00), a price I have determined reasonable, given the importance of the use of training in our Community Policing Program. The term of this contract shall be from July 1993, through August 31, 1993. At this time, twelve (12) non-consecutive full days of training are anticipated.

Due to the highly specialized professional nature of the service to be provided, I believe that public advertising would serve no useful purpose.

This contract is being submitted late due to the organizational changes taking place within the Boston Police Department which caused minor administrative delays.

Respectfully,

William J. Bratton,
Police Commissioner.

Legal Services

Dear Mr. Mayor,

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to the law firm of Hare & Chaffin, located at 50 Federal Street, Boston, MA 02210, for providing legal services in the case of *Pierre v. Bates* and for providing legal services in the case entitled *Cutno v. City of Boston*.

This contract is exempt from the provisions of G. L. c. 30B and is awarded under the authority of City Charter.

Under the terms of the contract, Joseph Kaigler, an attorney for the law firm of Hare & Chaffin, will provide legal preparation and representation for Defendants Boston Police Officer John Bates in the case of *Pierre v. Bates* and for providing legal representation of Commissioner Diane Watson in the case entitled *Cutno v. City of Boston*. This contract is necessary to avoid the potential for conflict of interest in that the Law Department represents the City, which is also named as a Defendant in each of these cases. The contractor is specially qualified to do this work because of extensive experience in the involved issues.

Compensation under this contract shall not exceed thirty-four thousand dollars (\$34,000.00), at the hourly rate of one hundred five dollars (\$105.00), which I have determined to be reasonable for the work to be performed. The term of this contract shall be from July 1, 1993, through June 30, 1994. This contract is being submitted late because of difficulties in obtaining the necessary contract papers.

Because of the professional nature of the services to be performed and the reasonable cost thereof, I believe that public advertising would serve no useful purpose.

Sincerely,

Albert W. Wallis,
Corporation Counsel.

CITY OF BOSTON

Proceedings of City Council

Wednesday, June 23, 1993.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 10 a.m., President MENINO in the chair, and all the members present.

INVOCATION

Reverend Harold Gerald, Morningstar Baptist Church, Mattapan, delivered the invocation, and the meeting was opened with the pledge of allegiance to the flag.

VISITORS TO CITY COUNCIL

President MENINO introduced Councillor O'NEIL who, for all the Councillors, welcomed to the Council Marie A. Galvin, who is retiring from the office of the Boston Licensing Board, and presented her with a citation of gratitude from the Council for her service to the City of Boston. Mrs. Galvin thanked the Councillors and the member of the Council staff for honoring her.

President MENINO then introduced Councillor HENIGAN who presented a congratulatory resolution to the staff of *Spare Change*, a publication produced by and for the homeless population. The editor, on behalf of his staff, thanked the members of the Council for their congratulatory wishes upon the successful completion of their first year and expressed the hope that their second year would be as successful as their first.

President MENINO then introduced Councillor Yancey who introduced the winners of the Smoking Awareness Contest held at the Haley School and presented to them copies of the congratulatory resolution passed by the Boston City Council on their behalf.

ORDER FOR ANNUAL APPROPRIATION AND TAX ORDERS FOR FY94 (DOCKET NO. 0952)

The following was received:

City of Boston
Office of the Mayor

June 22, 1993

To the City Council.

Dear Councillors:

I retransmit herewith my proposed Fiscal Year 1994 operating budget for the City of Boston and County of Suffolk. This \$1.332 billion operating budget will be the City's ninth balanced budget in as many years.

My administration and the City Council have always worked cooperatively to ensure that the City's budget for the upcoming year is approved on time and is balanced. As a result of extensive Council hearings and other discussions we have had, I am today resubmitting a proposed budget which responds to significant concerns that you have raised.

First, I am recommending an additional \$2 million to the Police Department to add a new class of 100 police recruits. These new officers will support Boston's community policing effort and address the public safety needs of all our neighborhoods.

Second, this budget includes an additional \$1.2 million to expand the summer job program for Boston youth. It is disappointing that the federal government has been unable to pass a summer jobs program that is so important to our City. Similarly, it appears that the Commonwealth will not increase its commitment to this effort. But we cannot stand by when there is a clear and pressing need for summer employment in the next few weeks. This increased appropriation will help to address that need.

Funding for these increased appropriations will come from an additional \$3.2 million in recurring departmental revenue as a result of new federal Medicaid reimbursements to Boston. These new funds are available as a result of efforts begun two years ago to enact a change in state law that was finally approved May 20, 1993.

Finally, I recommend increasing the Department of Health and Hospitals' appropriation to provide for a full year of funding for Boston Specialty and Rehabilitation Hospital (BSRH). This recommendation reflects the significant progress that has been made to reduce the operating deficit at BSRH and is based on an operating plan that limits the City subsidy to not more than \$2 million. This ambitious target will require careful monitoring of BSRH expenses, revenue projections, and cash receipts to ensure that the subsidy does not grow beyond the planned amount.

DHH revenues are estimated to increase by \$7.28 million as a result of full year BSRH operation. The \$3.3 million balance needed to support the increased DHH appropriation will be drawn from revenues received from the Central Artery land sale.

This proposed budget reflects a responsible spending plan for fiscal year 1994. We share a mutual responsibility to ensure that the City's limited resources are directed to our most important service priorities. In that context, I respectfully recommend adoption of this order.

Sincerely,

Raymond L. Flynn,
Mayor.

APPROPRIATION AND TAX ORDER FOR THE FISCAL YEAR COMMENCING JULY 1, 1993 AND ENDING JUNE 30, 1994.

Ordered.

Thomas M. Menino

"Prominent Bostonians," an exhibition of more than 200 Bachrach portraits of "men and women who have made Boston the great city that it is today," will be on display in the Great Hall of the Boston Public Library in Copley Square from December 3 through December 31.

Boston's Bachrach's are arguably the world's most famous portraitists. Originating with David Bachrach, who photographed Abraham Lincoln delivering the Gettysburg Address, and continuing today with his grandson Fabian and great-grandsons Robert and "Chip," their array of portraits include every president since

Lincoln, as well as people from the worlds of government, science, the arts, and business. More than one-third of today's *Fortune* 500 companies feature Bachrach portraits in their annual reports.

The month-long exhibition includes 8" x 10" portraits of highly recognizable Boston celebrities, past and

present, such as James Michael Curley, "Honey Fitz" Fitzgerald, John F. Kennedy, Alexander Graham Bell, Tom Yawkey, Robert Frost, Richard Cardinal Cushing, Red Auerbach, Kevin White, Raymond Flynn, Bobby Orr, Tip O'Neill, Julia Child, Sarah Caldwell, Arthur Fiedler, William Weld, William Bulger, Oliver Wendell Holmes, Liz Walker, Rose Kennedy, Mike Dukakis, etc., as well as approximately 185 other Bostonians — many of whom are

less recognizable — selected by the Mayor's Office of the Arts and Humanities and then photographed by the Bachrach specifically for this exhibit.

The exhibit is open to the public Monday through Thursday from 9 a.m. to 9 p.m. and on Friday and Saturday from 9 a.m. to 5 p.m. For additional information, please contact the Boston Public Library at 536-5400, Ext. 212.

INTRODUCTION TO BALLET: LEARNING ABOUT THE "NUTCRACKER" AT BPL

The North Atlantic Ballet Youth Program presented "The Nutcracker," a special performing arts program for children, in the Rabb Lecture Hall of the Boston Public Library in Copley Square on Saturday morning, December 4, beginning at 11 a.m.

Most people are unaware that the "Nutcracker," one of the world's best-loved ballets, began as a story written by E. T. A. Hoffmann in Germany in 1861. Hoffmann's "The Nutcracker and the Mouse King" evolved after many years and numerous changes from the original tale into the classic ballet of today.

The 45-minute introduction to the art of ballet was equally divided between an explanation of the link between literature, music and dance, and spirited dances from "The Nutcracker," performed by Marie, Franz, the Sugar Plum Fairy, and other talented children from the North Atlantic Ballet Youth Program in Boston.

Children 5 years of age and their families were cordially invited to attend this free presentation. Advance registration was not required, however, seating was limited and groups could not be accommodated. Infrared assistive listening devices were available for hard-of-hearing children. For more information please call the Children's Room at 617/536-5400, Ext. 328.

**BIOGRAPHER
DAVID LEVERING LEWIS

In this latest work, Dr. Lewis chronicles in vivid detail the life of Massachusetts native William Edward Burghardt DuBois, the first African-American to earn a doctorate at Harvard and the author of a number of provocative books, including *The Souls of Black Folk*. He also documents the establishment of the NAACP, the leadership of the Pan African Movement, and World War I and the brutal treatment of African-American veterans.

Dr. Lewis holds the Martin Luther King, Jr. Chair in history at Rutgers and is the author of several acclaimed books, including *King: A Biography*, *Prisoners of Honor: The Dreyfus Affair*, *When Harlem Was in Vogue*, and *The Race to Fashoda*.

**"ARTISTS AND THEIR CRAFT"
FILM SERIES CONCLUDES AT
WEST END BRANCH LIBRARY**

"Artists and Their Craft," a film series featuring well-known performing artists and their artistic arenas will conclude with three documentary films that will be screened on Friday afternoons, December 3 and 17, at the West End Branch of the Boston Public Library, 151 Cambridge Street, in downtown Boston.

In the first film, a compilation of six major dance pieces interspersed with interviews with their choreographers — Agnes De Mille, Lucia Chase, and Anthony Tudor — is used to introduce

America's oldest and most distinguished ballet company in the *American Ballet Theatre: A Close-Up in Time*.

Then, in the first film of a double-feature on Dec. 17, James Coburn narrates *Steve McQueen: Man on the Edge*, a series of film clips recreating the life of the famous actor that includes the famous death scene from *The Sand Pebbles* and interviews with those who worked with him.

In the second film, *Golden Age of Second Avenue*, Herschel Bernardi narrates a documentary that traces the history of the Yiddish Theatre in America from its beginnings when immigrants arrived via Ellis Island to the present.

Both programs begin at 2:15 p.m. and are free and open to the public. For more information, please contact the West End Branch Library at 523-3957.

ON EXHIBIT AT
DUDLEY BRANCH LIBRARY**

The most recent works of portraitist and calligrapher Carlos W. Byron of Boston will be on exhibit during the month of December at the Dudley Branch of the Boston Public Library, 65 Warren St. in Roxbury.

A graduate of Phoenix School of Design, Mr. Byron also studied at the National Academy of Design, and the Art Student League, and the Calligraphy Workshop.

His works have been exhibited extensively and includes shows by the Society of Pastelists, the National Arts Club, and the Brooklyn Museum Gallery, as well as one-man shows at the

Phoenix School of Design and the New England School of Design.

The exhibit is free and open to the public during library hours. For additional information, please contact the Dudley Branch Library at 442-6186.

**MICHAEL DORRIS IN
HARVARD AUTHOR SERIES
READING AT BPL**

Michael Dorris, author of the highly praised novel, *A Yellow Raft in Blue Water*, and the nonfiction work, *The Broken Cord*, which won the 1989 National Book Critics Circle award, will read from his latest book, *Working Men: Stories*, in the concluding program of the Fall Harvard Book Store Café Author Series in the Rabb Lecture Hall of the Boston Public Library in Copley Square on Wednesday evening, December 8.

The work includes 14 stories with as many different voices: Voices of men and women, young and old, blue collar and middle class, salesmen and craftsmen, vets and draft dodgers. Voices of Native Americans, New England Yankees, Southern gentlewomen. Gay and straight, serious and seriocomic, playful and sad.

Fourteen voices that reaffirm what critics recognized in Michael Dorris's first novel: that he is a master of telling detail, subtle but revealing movement, the music in the silences. He has an uncanny grasp of how we pilfer pop culture to communicate our most intimate feelings and an almost magical ability to get under the skin of his many and disparate characters, bringing them vividly, aching, truthfully alive.

A student of English and classics, Michael Dorris went on to do postgraduate work in theater and anthropology, and it is perhaps this combination of interests that explains his keen observational powers and his understanding of the human condition.

The 6 p.m. program is free and open to the public, although seating is limited. An autographing session will follow at the Harvard Book Store Café on Newbury Street. For more information, please call the Boston Public Library at 536-5400, Ext. 336.

PARKS AND RECREATION DEPARTMENT

C. 7016-94
June 4, 1993.

Support Services

Dear Mr. Mayor:

I respectfully request your permission to dispense inviting proposals and to award a contract to the Boys and Girls Club of Boston, Inc., 50 Congress Street, Boston, MA 02209, to provide

financial management and administrative support services for a Youth-At-Risk Program for the period beginning July 1, 1993, through October 15, 1993. This is a grant to a non-profit organization and this contract is exempt from the provision of G.L. c. 30B.

The City of Boston proposes to operate a Youth Employment Program for the ages 14 through 20 years old during the month of July and August. The goal will be to reach as many individuals in the high crime, high poverty neighborhoods as possible. The program will employ youngsters in both professional settings as well as local human service providers and to give a wide range of employment opportunities. In addition, a cleanup component will be expanded to clean various areas throughout the City of Boston that are presently beyond the capacity of the present municipal staffs.

The E.D.I.C. Office of Boston intends to contract with the state who will then contract with the Parks and Recreation Department to oversee financial obligations and the operations of the program. The Parks Department will contract with the Boys and Girls Club of Boston, Inc. for financial administration of the program. In order to reach the broadest range of participants as possible, the Private Industry Council and A.B.C.D. will participate by assisting in employment at various locations.

The objective of the program will be to provide a positive work environment to young adults that will help build self esteem and hopefully lead to permanent full time employment. At the very least, we believe the program will provide relief for the many hard pressed families in the Commonwealth and will lessen the tensions that presently exist in so many of our communities by providing some kind of income to the families.

The contractual arrangement between the Boys and Girls Club of Boston, Inc. and the Parks and Recreation Department would insure the fiscal administration of the Youth-At-Risk Program in an efficient and cost effective manner, while permitting the Parks and Recreation Department to not only monitor the performance of the contract, but also manage and supervise the Youth-At-Risk program.

Under the terms of the contract, the Boys and Girls Club of Boston, Inc. will provide the financial management services and administrative support services, i.e. payrolls, supplies, material and administration necessary to operate the Youth-At-Risk Program. In so doing they would maintain all books, records, accounts and other financial data necessary for the administration of the program. The Parks and Recreation Department will reimburse the contractor for approved disbursements made by the contractor on behalf of the Parks and Recreation Department.

The contractor will be paid an administrative fee which is a percentage of the total contract amount (\$2,295,000), which in turn represents the amount budgeted for administration of the Youth Employment Program. This percentage (3.89% or \$85,932.72 which is calculated by $\frac{\$2,295,000}{1.0389} = \$85,932.72$) will be subtracted from the total contract price and will represent the total amount paid directly to the contractor for services rendered under the contract.

In view of the efficiency and expertise of the Boys and Girls Club of Boston, Inc. in financial management and administrative support matters, public advertising would serve no useful purpose.

Sincerely,
Lawrence Dwyer,
Commissioner.

The term of this contract shall be from July 1, 1993, to June 30, 1994. Funds for this contract shall come from those received under the Community Development Block Grant Program. DISAPPROVING ORDER REQUIRING ISSUANCE OF TWO-WAY RESPONSE RADIOS TO FIELD INSPECTORS EMPLOYED BY INSPECTIONAL SERVICES DEPARTMENT (DOCKET NO. 0188)

The following was received:
City of Boston
Office of the Mayor

July 12, 1993

To the City Council.
Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on June 23, 1993, Docket No. 0188, which would require the issuance of two-way response radios to field inspectors employed by the Inspectional Services Department.

While I appreciate the order's stated purpose of providing personal protection to field inspectors, the steps required to implement this order are executive or administrative functions of the City, in which the Boston City Council is statutorily prohibited from directly or indirectly taking part. St. 1948, c. 452, sec. 17G, as inserted by St. 1951, c. 376, sec. 1.

In addition, the order addresses issuance of radios to unspecified field inspectors. I.S.D. is already investigating the feasibility of supplying all its inspectors with two-way radios. The department will revisit the issue when that research is complete.

Sincerely,
Raymond L. Flynn,
Mayor.

(Annexed hereto is the documentation referred to.)
Assigned for further action.

DISAPPROVING ORDER REQUIRING CITY TO TAKE STEPS PROVIDING FOR EMERGENCY MEDICAL TECHNICIAN PAID DETAILS AT CERTAIN EVENTS (DOCKET NO. 0189)

The following was received:
City of Boston
Office of the Mayor

July 12, 1993

To the City Council.
Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on June

23, 1993, Docket No. 0189, which would require the City administration to take steps providing for Emergency Medical Technician paid details to be provided at certain events.

The steps required to implement this order are executive or administrative functions of the City, in which the Boston City Council is statutorily prohibited from directed or indirectly taking part. St. 1948, c. 452, sec. 17G, as inserted by St. 1951, c. 376, sec. 1. Furthermore, it is already the standard practice of the City's Entertainment and Licensing Division to determine the need for EMT details when reviewing entertainment licenses, particularly for large outdoor events.

Sincerely,
Raymond L. Flynn,
Mayor.

(Annexed hereto is the order referred to.)
Assigned for further action.

DISAPPROVING ORDER REQUIRING ISSUANCE OF RESUSCITATOR MOUTH GUARDS AND DISPOSABLE RUBBER GLOVES TO MEMBERS OF BOSTON PUBLIC SCHOOLS DEPARTMENT OF SAFETY SERVICES AND BOSTON CITY HALL SECURITY FORCE (DOCKET NO. 0192)

The following was received:
City of Boston
Office of the Mayor

July 12, 1993

To the City Council.
Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on June 23, 1993, Docket No. 0192, which would require the issuance of resuscitator mouth guards and disposable rubber gloves to members of the Boston Public Schools Department of Safety Services and the Boston City Hall Security Force. As of March of this year, personnel in both departments who are certified in cardiopulmonary resuscitation (CPR) have already been equipped with microshields and disposable rubber gloves.

Sincerely,
Raymond L. Flynn,
Mayor.

(Annexed hereto is the order referred to.)
Assigned for further action.

DISAPPROVING ORDER ATTEMPTING TO ORDER ELECTION DEPARTMENT TO ADOPT DOOR-TO-DOOR VOTER REGISTRATION (DOCKET NO. 0737)

The following was received:
City of Boston
Office of the Mayor

June 28, 1993

To the City Council.
Dear Councillors:

I return herewith without my signature and disapproved a resolution passed by your Honorable Body on June 9, 1993, Docket No. 0737, which attempts to order the Boston Election Department to adopt door-to-door voter registration.

Responsibility for the conduct of voter registration is committed by special statute, St. 1913, c. 835, sec. 8; and St. 1913, c. 835, sec. 83, as amended by St. 1915, c. 48 and by St. 1919, c. 269, sec. 6, as further amended by

St. 1920, c. 142, to the Board of Election Commissioners and is thus part of the executive or administrative business of the City.

Furthermore, the Boston City Council is statutorily prohibited from directly or indirectly taking part in the conduct of the executive or administrative business of the City of Boston, St. 1948, c. 452, sec. 17G, as inserted by St. 1951, c. 376, sec. 1.

Notwithstanding my disapproval of this resolution, the Election Department and my Administration are committed to the issue of voter registration. Last year alone, 41,000 new voters were registered for the Presidential election. The Election Department maintains registration locations in Community Centers in every neighborhood of the City, as well as at Boston Housing Authority sites, fire stations, M.B.T.A. stations, neighborhood health centers, nursing homes and special events across the City.

Sincerely,
Raymond L. Flynn,
Mayor.

(Annexed hereto is the resolution referred to.)

Assigned for further action.

DISAPPROVING ORDER REQUIRING SCHOOL DEPARTMENT TO ARRANGE FOR ENROLLMENT AND PAYMENT OF TUITION FOR KEVIN AHERN AT BOSTON SCHOOL FOR DEAF (DOCKET NO. 0915)

The following was received:
City of Boston
Office of the Mayor

June 28, 1993

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on June 9, 1993, Docket No. 0915, which would require the School Department to arrange for the enrollment and payment of tuition for Kevin Ahern at the Boston School for the Deaf.

Although I salute the spirit that prompted this measure, I must veto it because the School Department is under the charge of the School Committee and the Superintendent of Schools, which are responsible for the executive and administrative business of the School Department by virtue of state law.

Furthermore, the Boston City Council is statutorily prohibited from directly or indirectly taking part in the conduct of the executive or administrative business of the City of Boston, St. 1948, c. 452, sec. 17G, as inserted by St. 1951, c. 376, sec. 1.

In addition, under St. 1987, c. 613, which governs the executive functions of the School Department, the Superintendent of Schools is responsible for all administrative actions. Neither the City Council, School Committee nor the Mayor's Office has any role in the administration of the Boston Public Schools on a day-to-day basis.

Most recently, the Boston Public Schools, working closely with the parents, School Committee and the Mayor's Office, have entered into an agreement to reform Special Education in the Boston Public Schools. This historic agreement not only ends 17 years of court involvement in Special Education, but it also puts the Boston Public Schools on the cutting edge of Special Education reform in the state and nation. This agreement shows

clearly the positive impact achieved when parents work with the school system and persist in their efforts to change the schools.

Sincerely,
Raymond L. Flynn,
Mayor.

(Annexed hereto is the order referred to.)

Assigned for further action.

DISAPPROVING ORDER ATTEMPTING TO ORDER ELECTION DEPARTMENT TO ADOPT AGENCY-BASED VOTER REGISTRATION (DOCKET NO. 0948)

The following was received:
City of Boston
Office of the Mayor

July 2, 1993

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on June 16, 1993, Docket No. 0948, which attempts to order the Boston Election Department to adopt agency-based voter registration.

Responsibility for the conduct of voter registration is committed by special statute, St. 1913, c. 835, sec. 8; and St. 1913, c. 835, sec. 83, as amended by St. 1915, c. 48 and by St. 1919, c. 269, sec. 6, as further amended by St. 1920, c. 142, to the Board of Election Commissioners and is thus part of the executive and administrative business of the City.

Furthermore, the Boston City Council is statutorily prohibited from directly or indirectly taking part in the conduct of the executive or administrative business of the City of Boston, St. 1948, c. 452, sec. 17G, as inserted by St. 1951, c. 376, sec. 1.

Notwithstanding my disapproval of this order, the Election Department and my Administration are committed to the issue of voter registration. Last year alone, 41,000 new voters were registered for the Presidential election. The Election Department maintains registration locations in Community Centers in every neighborhood of the City, as well as at Boston Housing Authority sites, fire stations, M.B.T.A. stations, neighborhood health centers, nursing homes and special events across the City.

Sincerely,
Raymond L. Flynn,
Mayor.

(Annexed hereto is the order referred to.)

Assigned for further action.

DISAPPROVING ORDER REQUIRING INSPECTIONAL SERVICES DEPARTMENT TO INCREASE NUMBER OF ITS ANIMAL CONTROL OFFICERS BY SIX (DOCKET NO. 0979)

The following was received:
City of Boston
Office of the Mayor

July 12, 1993

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on June 23, 1993, Docket No. 0979, which would require the Inspectional Services Department to increase the number of its animal control officers by six.

Responsibility for the staffing, direction and operation of the department are executive or administrative functions of the City, in which the Boston City Council is statutorily prohibited from directly and indirectly taking part. St. 1948, c. 452, sec. 17G, as inserted by St. 1951, c. 376, sec. 1.

Notwithstanding my disapproval of the order, I appreciate its intent and share the Council's concern regarding animal control. At this time, fiscal restraints faced by the City, due to cuts in state and federal aid, do not allow I.S.D. to afford the additional personnel. However, I have instructed my Administrative Services Department to attempt to secure the additional funds needed for this expressed purpose.

Sincerely,

Raymond L. Flynn,
Mayor.

(Annexed hereto is the order referred to.)

Assigned for further action.

The Boston Industrial Development Finance Authority (BIDFA) Board of Directors, acting pursuant to the provisions of Chapter 40D of the Massachusetts General Laws, adopted a favorable resolution with respect to the financing of these research and institutional facilities to be owned and operated by the Massachusetts College of Pharmacy and Allied Health Sciences.

It is proposed that such facilities will consist of: a student residential/dining facility, laboratory/research space, additional lecture and classroom space, additional faculty office space, and parking.

I urge your Honorable Body to pass this order as expeditiously as possible so that this important project may proceed as described.

Sincerely,

Thomas M. Menino,
Acting Mayor.

Whereas, An industrial development facilities project to be owned and used by Massachusetts College of Pharmacy and Allied Health Sciences, a nonprofit institution for higher education duly incorporated and existing under the laws of The Commonwealth of Massachusetts having its principal place of business at 179 Longwood Avenue, Boston (hereinafter referred to as the "College"), has been proposed for the City of Boston (the "City"); and

Whereas, said industrial development project will consist generally of the following: (a) the demolition of existing Howard C. Newton Building, (b) the construction of an approximately 233,000-square-foot new building (the "New Building") to be located to the rear of the existing White Building approximately on the site of the demolition, and (c) the renovation of and construction of an approximately 6,700-square-foot addition to the second and third levels of the White Building (as so described, the "Project"); and

Whereas, The College plans to (i) utilize a portion of the Project to provide a student residential/dining facility, laboratory/research space, additional lecture and classroom space and additional space for faculty offices, (ii) lease a portion of the New Building to Brigham and Women's Hospital, Inc. (the "Hospital") for use by the Hospital as a research facility, (iii) provide additional parking for both the College and the Hospital through the construction of an approximate 30,000-square-foot parking garage in the lower level of the New Building; and

Whereas, The College has expressed its willingness to cause payments to be made to the City, acting by and through the Boston Industrial Development Financing Authority (the "Authority"), sufficient to pay the principal of and interest on bonds of the City issued to pay up to \$60,000,000 of the cost of the Project and the current expenses of the City incurred in connection therewith and to reimburse the City for or indemnify the City

against any such expenses or costs incurred hereinafter in the event that the issuance and sale of such bonds is not accomplished as contemplated; and

Whereas, The estimated cost of the Project is \$65,000,000 and the College has requested financing through bonds in the amount of up to \$60,000,000 and has indicated its willingness to finance any costs of the Project in excess of up to \$60,000,000 other than by the issue of bonds, and it appears that the cost of the Project or such portion thereof as is not financed through such other sources may be financed through the issue of bonds by the City, acting by and through the Authority, pursuant to the provisions of Chapter 40D of the Massachusetts General Laws, as amended (the "Act"); and

Whereas, The financing in part or in whole of this Project through the issuance and sale of bonds is intended to be an inducement for the College to undertake the proposed Project in the City for its benefit; and

Whereas, The Authority has adopted an initial favorable resolution with respect to the Project and has indicated its willingness to finance the Project through issuance of bonds of the City under a financing document or documents pursuant to the Act; and

Whereas, Notice of a public hearing to the proposed issuance of bonds of the City, acting by and through the Authority, in an amount not to exceed \$70,000,000 to finance the Project was published in *The Boston Globe* on June 22, 1993, and said public hearing was held on July 6, 1993, all as described in the aforesaid public notice, and the Authority has forwarded to the City Council a summary of proceedings of said public hearing and a favorable recommendation regarding the Project.

ORDER APPROVING BROOKLINE AVENUE CARD PLAN AND AUTHORIZING SUBMISSION OF SAID PLAN TO SECRETARY OF EOCD (DOCKET NO. 1031)

The following was received:

City of Boston
Office of the Mayor

July 14, 1993

To the City Council.

Dear Councillors:

Attached is a proposed City Council Order approving the Brookline Avenue Commercial Area Revitalization District (CARD) Plan and authorizing the submission of said Plan to the Secretary of the Executive Office of Communities and Development (EOCD). The Brookline Avenue CARD is located within the center of the Longwood Medical Area. The boundaries of the 17-acre district include properties which are substantially deteriorated and/or underutilized. A review of building occupancy, density of development and building condition within the Brookline Avenue CARD indicates a pattern of blight and disinvestment.

The Brookline Avenue CARD will facilitate the redevelopment of key projects including the Massachusetts College of Pharmacy. Qualified projects will be able to receive below market financing which will enable them to proceed to construction.

The draft Brookline Avenue CARD received the approval of EOCD on December 4, 1992. Subsequently, a boundary revision to the CARD was submitted to EOCD and was approved by EOCD on May 14, 1993. The next step in the CARD process is City Council approval.

I urge the approval of the attached Council Order approving the Brookline Avenue CARD. This approval will allow major projects to receive favorable financing to enable them to proceed to construction.

Sincerely,

Thomas M. Menino,
Acting Mayor.

Whereas, In accordance with Chapters 40D and 23B, Massachusetts General Laws, The Commonwealth of Massachusetts acting by and through the Secretary of the Executive Office of Communities and Development may approve Commercial Area Revitalization Districts Plans (herein referred to as CARD Plans); and

Whereas, Such approval is a precondition for the use of various financial incentives and mechanisms for commercial development that would be in the public interest of the citizens of the City of Boston; and

Whereas, The development of the Brookline Avenue Commercial Area Revitalization District (herein referred to as Brookline Avenue CARD), the boundaries of which are described in Section 3 of the Brookline Avenue CARD Application, would further the community development objectives of the City of Boston and would result in the physical redevelopment of the Brookline Avenue CARD and the creation of employment opportunities of a character consistent with that contemplated by the above cited statutes;

Now, Therefore, Be It Ordered by the City Council:

1. That the Brookline Avenue CARD described above is a predominantly commercial geographic area;

2. That implementation of the proposed Brookline Avenue CARD Plan will serve to reverse the decay of the area covered by said Plan; and

3. That the Brookline Avenue CARD Plan is hereby approved and that said Plan shall be submitted to the Secretary of EOCD for approval.

Referred to the Committee on Planning and Economic Development.

(DOCKET NO. 1073)**

Whereas, The Public Safety Committee at its last hearing had a demonstration of electronic monitoring devices to curb incidence of "stalking" and domestic violence;

Whereas, State-wide legislation allowing judges to require persons charged or convicted of domestic abuse to wear ankle or leg electronic monitoring equipment while free in society, it is now before the General Court in the House Ways and Means Committee;

Whereas, The Boston City Council's Public Safety Committee is convinced that use of this technology to track persons with proclivities for violence or harassment is an effective, cost-saving measure over incarceration; therefore, be it:

Ordred, The Boston City Council records itself favoring passage this session of House Bill 2250, "An Act to Aid in the Prevention of Domestic Abuse" and directs the City Clerk to transmit a copy of this order to the President of the State Senate and to the Speaker of the House of Representatives.

1075)**

Couns. SCONDRAS, O'NEIL, BOLLING, BYRNE, HENNIGAN, KELLY, McLAUGHLIN, NUCCI, SALLERNO, TRAVAGLINI, YANCEY, and CRAYTON offered the following:

Whereas, An effective police force must be able to adapt to advances made in criminal justice and technology which can assist its officers and help protect the rights and safety of citizens; and

Whereas, The cost of a higher education often prohibits police officers from experiencing their full potential as public servants; and

Whereas, The Commonwealth, recognizing this problem, passed Section 108L of Chapter 41 of the Massachusetts General Laws; and

Whereas, Section 108L establishes a career incentive pay program to provide monies so that officers may pursue this potential and encourages communities to participate in the realization of these goals; and

Whereas, 137 cities and towns in Massachusetts have already accepted the provisions of Section 108L; and

Whereas, The Commonwealth reimburses cities and towns which accept the provisions for one-half the cost of such payments; Now therefore be it

Resolved, That the Boston City Council, in meeting assembled, congratulates the AFL-CIO for its support of the August 28th March and agrees to follow suit by lending its endorsement of the March.

Passed under suspension of the rules.

ORDER FOR PETITION FOR SPECIAL LAW RE OVERDUE EXCISE TAXES (DOCKET NO. 1080)

Coun. KELLY offered the following:

July 21, 1993

RE: EXCISE TAX COLLECTIONS

Whereas, The City Council has on six separate occasions expressed its unanimous opinion that the practice of going as far back as fifteen years to collect allegedly overdue excise taxes was not only inconsistent with Mass. General Laws C. 60A, sections 2, 3 and 35; and C. 62C, sect. 65, but was also inconsistent with the due process provisions of the state and federal constitution inasmuch as few people keep excise tax records beyond six years, and are therefore unable to document payment, sale or theft of their automobile; and

Whereas, On April 30, 1991, the collector-treasurer in a press release on the subject stated that six-year collection policy would be followed except for those individuals who allegedly owed excise taxes for multiple years beyond six years:

Given the fact that most people do not maintain records beyond six years and given the concern over the quality of the data history with respect to Registry records. [Emphasis added]; and

Whereas, On August 13, 1991, the administration agreed to abide by a six-year limit on collections of alleged overdue (delinquent) excise taxes; and

Whereas, On August 17, 1992, Urban Tax Services, which has been designated by the city as Deputy Collector of Taxes for the City of Boston under the provisions of M.G.L. C. 60, sect. 92, filed suit in Suffolk Superior Court seeking Declaratory Judgment and Mandamus, regarding collection of taxes beyond six years, citing C. 653 of the Acts of 1989, amending C. 233 of the Acts of 1983, as controlling, and that court action is outstanding; and

Whereas, C. 653 of the Acts of 1989 provides a mechanism by which the Registry marks outstanding bills, and the Registry marks bills going back six years based on C. 60A, sections 263, and C. 62C, sects. 65; and

Whereas, On August 26, 1992, counsel for the collector-treasurer wrote Urban Tax Services and stated:

While any pre-1986 taxes remain due and owing, UTS and the city must recognize the limitations of the Registry of Motor Vehicles' non renewal program . . . ; and

Whereas, The documented number of instances where the excuse allegedly due and owing has been shown to be an error because of faulty tax records; and

Whereas, Given the high error rate of existing records and the fact that innocent people have been named along with the guilty, and that may, indeed, be required at some undetermined date in the future to pay the pre-1986 excuse tax allegedly due and owing; and

Whereas, Regardless of the amount of money which may be collected if the city pursues pre-1986 bills, the process of appeal will be rendered futile and meaningless because of the city's irresponsible, extended and ignominious delay in exercising its collection obligation; and

Whereas, Fundamental fairness dictates that government not impose obstacles to due process which a citizen cannot hope to overcome; and

Whereas, Confusing signals as to how long an excuse tax bill receipt should be maintained, as well as the questionable accuracy of data used in collections, are obstacles which cannot reasonably be overcome; be it therefore

Ordered, That under the rules of the Council the rules be suspended and the Home Rule Petition accompanying this Order be passed, and forth forwarded to the legislature for its consideration.

Ordered, That a petition to the General Court, accompanied by a bill for a special law relating to the City of Boston to be filed with an amended copy of this order be, and hereby is, approved under Clause 1 of Section eight of Article two, as amended, of the Amendments to the Constitution of the Commonwealth of Massachusetts, to the end that legislation be adopted providing precisely as follows, except for clerical or editorial changes of form only:

Section 1. Civil A, section 1 is hereby amended for the city of Boston by adding the following paragraph at the end of section 1:

The provisions of this section, because they impose severe penalties of loss of license and/or registration for non-payment, and because the city has contracted its excise tax collections to a private collection agency, shall be deemed to place and affirmative obligation on the city of Boston and its agent to conduct motor vehicle excise taxes in a timely fashion to ensure due process and a timely appeal procedure for taxpayers. Motor vehicle excise taxes shall be collected within six years in the city of Boston. Excise taxes allegedly owed but not collected within six years shall be administratively dismissed unless the tax is the subject of an ongoing collection effort between the collector-treasurer and the taxpayer, in which case the collector-treasurer shall notify the taxpayer in writing of such delinquency, offering a timely appeal. (b) is in the process of being adjudicated before a court of competent jurisdiction; (c) is in the process of being paid; and such payment schedule carries beyond the six-year limitation; and is made in agreement in writing between the collector-treasurer and the taxpayer; or (d) has been marked by the Registry as due and owing prior to the six-year limitation imposed by this section as of the date of passage of this Act.

Passed under suspension of the rules.

ORDINANCE THAT ALL SALES OF CIGARETTES BY VENDING MACHINES WITHIN CITY OF BOSTON SHALL BE PROHIBITED (DOCKET NO. 1982)

COUN. TANCY offered the following:

Whereas, A 1991 study by youth smoking by the Institute for Social Research at the University of Michigan for the U. S. Department of Health and Human Services found that cigarette smoking prevalence did not significantly change among high school and 12th graders in 1990; and

Whereas, Thirty-day prevalence rates for smoking were 10 percent for 8th graders, 12 percent for 10th graders, and 18 percent for 12th graders; and

Whereas, The study concluded that a significant portion of teenagers are experimenting regular cigarette habits, despite demonstrated health risks; and

Whereas, Researchers believe that the massive advertising and promotion of cigarettes, much of it aimed at young people, is a major reason that cigarette smoking has not been falling among adolescents; and

Whereas, Cigarette smoking has been identified as an addictive habit and that smoking regularly has led to cancer and other life-threatening and life-ending illnesses; and

Whereas, It is currently illegal for young people under the age of eighteen to smoke and that vending machines provide young people with an unrestricted access to cigarettes in vending machines. Therefore Be It

REQUESTING PRESIDENT CLINTON TO HAVE
STATE DEPARTMENT CONVEY CONCERN
TO ENGLISH GOVERNMENT RE BALLY-
MURPHY SEVEN (DOCKET NO. 1093)

Couns. HENNIGAN, MENINO, CRAYTON, BYRNE, NUCCI, SCONDRAS, TRAVAGLINI, YANCEY, and O'NEIL offered the following:

Whereas, Recently, many of the Boston City Councilors had the opportunity to meet mothers of the Ballymurphy 7 and members of The Voice of the Innocent; and

Whereas, During their visit to the United States to plead the cause of their sons who are unjustly held in prison by the British Government for a crime which they did not commit, it was made clear that these young men are being held without due process; and

Whereas, The following, in language concurrent with Congressman Joseph Kennedy's H. Con. Res. 61, calling for the adoption of a Bill of Rights for Northern Ireland, expresses deepest concern for the pattern of civil rights violations perpetrated on the powerless by the Government in the North of Ireland; and

Whereas, It is an ongoing concern of the residents of the City of Boston that the residents of Northern Ireland do not enjoy the same fundamental human rights and civil liberties which are eloquently articulated in the American Declaration of Independence and which are enshrined in the United States Bill of Rights, including freedom of speech, freedom of the press, protections against self-incrimination, the right to trial by jury, and guarantees of due process of law; and

Whereas, Despite the fact that the Government of the United Kingdom has had, since the partition of the island of Ireland in 1920, the responsibility of ensuring fundamental human rights and civil liberties for the people of Northern Ireland, that government instead has contributed greatly to the systematic denial of these rights through a perennial renewal and reinforcement of 'emergency' legislation; and

Whereas, The 'emergency' legislation, which lodges extraordinary arbitrary power with the British Government, has been in effect since the formation of Northern Ireland and, at present, there is no plan for, nor any foreseeable likelihood of, its repeal; and

Whereas, This failure on the part of the Government of the United Kingdom can be seen to be that much more flagrant because that government has been a signatory to the European Convention of Human Rights since 1950 and because it has consistently ignored the recommendations of the Standing Advisory Commission on Human Rights, established by the Northern Ireland Constitutional Act of 1973; and

Whereas, The situation in Northern Ireland still exists where too many of the residents of Northern Ireland are denied basic human liberties and rights, and the denial of these basic liberties and rights not only exacerbates, but works to perpetuate, many of the fundamental problems of Northern Ireland; and

Whereas, The people of the United States are troubled and perplexed by the abrogation in Northern Ireland of what they had thought had been the fundamental constitutional right to a trial by jury and by the recent abrogation of the right of an accused to remain silent, which, again, had long been believed to be a constitutional right; and

Whereas, The cases of the young men from Belfast known as the Ballymurphy 7 is a cause of deep concern to the citizens of Boston, typifying as it does many of the human rights violations endemic to Northern Ireland; Now Therefore Be It

Resolved, That the Boston City Council, in meeting assembled, welcomes to our City the mothers of the Ballymurphy 7 and the representatives of their support organization known as the Voice of the Innocent; And Be It Further

Resolved, That the Boston City Council requests President Clinton to instruct our State Department to convey our concern for the plight of the Ballymurphy 7 to the British Government and that they further make known to the British Government our belief that these young men are completely innocent.

Resolved, That the Boston City Council supports Congressman Joseph Kennedy's H. Con. Res. 61 which calls for the adoption of a Bill of Rights for Northern Ireland.

The resolution was adopted under suspension of the rules.

PRESIDENT, CITY COUNCIL

VOL. 85 MONDAY, DECEMBER 13, 1993 NO. 50

CITY TO INCREASE CARDIAC ARREST EMERGENCY RESPONSE

Mayor Thomas M. Menino recently announced expanded cardiac arrest response in the city. Boston EMS will train and equip Boston firefighters in defibrillation techniques, a life-saving response that Boston is the first city in Massachusetts to implement. Joining Mayor Menino at the Early Defibrillation Program agreement signing are (l-r): Boston EMS Superintendent Rich Serino, EMS Trainer Bob Freitas, Health and Hospitals Commissioner Lawrence Dwyer and Fire Commissioner Martin Pierce.

Boston EMS Superintendent Rich Serino (right) discusses the defibrillation response with (l-r): Fire Commissioner Pierce, Mayor Thomas Menino, DH&H Commissioner Lawrence Dwyer and Medical Director Michael Eliastam, M.D., Michael Mullane, Boston firefighter and VP, IAFF, and Dr. Chris Dong of EMS. Boston EMT George Murphy (right) demonstrates using the new portable, defibrillator unit.

Mayor Thomas M. Menino, Fire Commissioner Martin Pierce and Health and Hospitals Commissioner Lawrence A. Dwyer recently signed an agreement to train Boston firefighters in defibrillation techniques for cardiac arrest survival. Boston Emergency Medical Services, the pre-hospital ambulance service of the Department of Health and Hospitals, will train and equip the Fire Department to perform this life-saving emergency response function. Boston is the first municipality to implement this program in Massachusetts.

"Every minute counts for cardiac arrest victims," said Mayor Menino. "By bringing this life-saving technique into the Fire Department, we are expanding the city's trained first response and increasing the opportunity for survival."

Boston's Early Defibrillation Program will expand the availability of automatic external defibrillators (AED) in over 50 mobile units in Boston neighborhoods for emergency cardiac arrest and heart attack responses. All 1,350 Boston firefighters will be trained over the next year in defibrillator treatment. With this new BFD/EMS partnership, the city's emergency response with defibrillator capacity will significantly improve the opportunity for survival for cardiac arrest victims.

"The Early Defibrillation Program is a partnership of three Boston emergency services: Boston Fire, E.M.S. and Boston City Hospital," said Health and Hospitals Commissioner Dwyer. "Recent regulatory changes have presented the opportunity for physician oversight at BCH to expand and include EMS training of the Fire personnel. The result is a vastly expanded network of new service to benefit the city."

(Continued on next page)

CARDIAC RESPONSE . . .

(Continued from front page)

"The Fire Department is eager to begin the defibrillator program," said Fire Commissioner Pierce. "Initially, training will begin in 18 fire companies, over 400 Boston firefighters, in the perimeter neighborhoods of Boston, including West Roxbury, Roslindale, Hyde Park, East Boston, Allston and Brighton. Ultimately, every fire station and every firefighter will be trained in this technique.

Boston firefighters are certified first responders. In addition to mandatory training in defibrillator techniques, paramedics and EMTs will upgrade Boston firefighters in cardiopulmonary resuscitation (CPR), which significantly contributes to the likelihood of survival for people stricken with cardiac arrest.

Recent state and regional regulatory changes and waivers have presented Boston with this opportunity to increase the number of "first responder" emergency personnel trained in the use of these machines. Currently, the Department of Health and Hospitals' E.M.S. ambulances are equipped with defibrillators and E.M.S. paramedics and EMTs are trained in their use as well as advanced life support and definitive prehospital care. E.M.S. paramedics are equipped with manual defibrillators, medications and procedural training previously allowed only to physicians.

This new program will sustain over 1,500 first responder emergency personnel trained in the use of defibrillation therapy within Boston EMS and the Fire Department. In Boston E.M.S.'s five years of experience using these machines, they average well over 700 responses annually. With the new BFD/EMS partnership, the city's emergency response with defibrillator capacity will significantly improve the survival of cardiac arrest victims.

Boston has had paramedic level care through DH&H since 1979. Research during the mid-80s indicated that survival for a ventricular fibrillation (car-

diac arrest) victim is significantly improved by the speed with which defibrillation is applied. In 1988, regulatory changes allowed for increased availability of these units by pre-hospital emergency services such as Boston E.M.S. DH&H then equipped all E.M.S. ambulances with a sophisticated automatic defibrillator that interpreted heart rhythm in addition to delivering the electrical shock therapy necessary to return the heart to a normal rhythm.

Victim survival rates for cardiac arrest due to ventricular fibrillation can be improved by about 17 percent in Boston under this new program. The limited window of opportunity for defibrillation therapy to be effective means that each minute without defibrillation greatly decreases the chances for the return of normal rhythm. That's because ventricular fibrillation (the ineffective quivering of the heart muscle) leaves only one chance for survival: an electrical shock (defibrillation) to restore the heart's normal rhythm. Ventricular fibrillation results in disorganized heart activity, producing no pulse or cardiac output and, unless halted within 10 minutes, is fatal. Ventricular fibrillation is the most common rhythm in 80 percent of cardiac arrest victims.

Boston EMS will train Boston firefighters in the causes, signs and systems of cardiac arrest; cardiac anatomy and physiology; protocols for use of Automatic External Defibrillators (AED) and 'hands-on' experience with the equipment. Dr. Lawrence Mottley, chief of EMS and an attending emergency medicine physician at Boston City Hospital, will oversee all aspects of the defibrillation program training, usage and operations.

In addition to quarterly training in defibrillator use, Boston EMS will also update CPR training which is vital to increasing the survival rate for cardiac arrest victims. The survival rate for victims of cardiac arrest is expected to increase 17 percent with this program.

Adding defibrillators to BFD units and increasing the geographic availability of the units and personnel will

reduce the time span between cardiac arrest and treatment. Dr. Lawrence Mottley, Chief of Boston E.M.S. and an attending physician in Emergency Medicine at Boston City Hospital, will direct reviews of all defibrillator therapy application for Fire Department personnel as well as Boston E.M.S. This oversight enables this unique BFD/EMS partnership to comply with regional and state protocols of oversight.

"The defibrillation program alone will save lives in Boston, but all Boston residents contribute to this effort by utilizing 9-1-1 in an emergency and familiarizing themselves with CPR training," said Dr. Mottley.

He suggests, "Simply put, the best response is to: **'Call first, call fast, call 9-1-1.'**" The 'chain of survival' for heart attack victims include the 'links' of:

- early EMS access through 9-1-1;
- early CPR by trained bystanders;
- early defibrillation therapy on-scene; and,
- early advanced cardiac care by paramedics.

Lillian Shirley, R.N., director of public health nursing (left), Elizabeth Cadigan, director of nursing at Boston Specialty, and Cecilia Joseph, R.N. (right), director of nursing at BCH, join Commissioner Lawrence Dwyer (center) in congratulating Maura Mitchell, R.N., (left) on her new appointment as Executive Director of Nursing for the city's Department of Health and Hospitals.

BOSTON HEALTH AND HOSPITALS NAMES NEW NURSING DIRECTOR

Commissioner Lawrence Dwyer recently announced the appointment of Maura Mitchell, R.N., M.A., M.Ed., as Executive Director of Nursing for the Boston Department of Health and Hospitals. Ms. Mitchell, who once served as director of nursing for Boston City Hospital, will oversee the city's nursing services at DH&H including BCH, Boston Specialty and Rehabilitation Hospital (formerly Mattapan Hospital), Long Island Hospital and the Division of Public Health.

"We welcome Maura Mitchell back to DH&H," said Commissioner Dwyer. "The respect Ms. Mitchell earned as director of BCH nursing reflects the dedication and professionalism she will bring to her new position at DH&H which will effectively move the director of nursing to a 'chief of service' position. This decision was reached by working with our nurse managers and also the professional nursing staff who work at the bedside and in the community."

Ms. Mitchell assumes her new role in partnership with her current

position as Vice-President for Nursing at Boston University Medical Center Hospital (BUMCH). This unique partnership is designed to strengthen the vital role of nursing within every division of DH&H and across the medical campus shared by BCH, BUMCH and the B.U. School of Medicine.

The unique, new nursing position within DH&H will help ready the department for the new BCH; a ten-year rebuilding effort that moves all BCH inpatient and emergency services moving into a state-of-the-art new facility in early 1994. These services will be integrated in one building for the first time in the 130-year history of the city's public hospital.

Commissioner Dwyer introduced Ms. Mitchell to the nursing staff at the DH&H's first nursing reunion held recently at the Copley Plaza. Nurses who trained and worked at BCH, BSRH (formerly Mattapan Hospital), Long Island Hospital and Public Health welcomed Ms. Mitchell and shared their nursing experiences at the all-day conference.

Anita MacKinnon, special events coordinator for the Women's Educational and Industrial Union, talked about "Women Helping Women" at the weekly Adults' Discussion Group meeting at the Charlestown Branch Library from 10 to 11 a.m. on Friday morning, December 10.

The W.E.I.U., with headquarters at 356 Boylston Street, has been serving Bostonians for more than 100 years. Ms. MacKinnon reviewed the Union's history and its present-day role in the community, including its gift shop which provides pleasure for holiday shoppers.

The program was free and open to the public. For further information, please contact the Charlestown Branch Library at 242-1248.

AUTHOR HARVEY BLUME IN "OUT OF BOSTON" READING AT BPL

Cambridge writer and lecturer Harvey Blume, coauthor with Phillips Verner Bradford of *Ota Benga: The Pygmy in the Zoo*, will talk about their work in the concluding program of the Boston Public Library's 1993 "Out of Boston" author series in the Mezzanine Conference Room of the Central Library in Copley Square at 6 p.m. on Tuesday evening, December 14.

In 1906, an African pygmy was put on display in a cage in the Bronx Zoo, and became an immensely popular attraction. What the thousands of gawkers didn't realize was that he was observing them far more astutely than they were him.

The "Out of Boston" series features local authors reading from their recent works and is free and open to the public, although seating is limited. Books will be available for sale and an autographing session follows the reading. For more information, please call 536-5400, Ext. 336.

THE RAYNES RAIL — BRAILLE AND AUDIO DEVICES

Coco Raynes (center) receives congratulations on the introduction of The Raynes Rail, a handrail system of Braille and audio devices, at the annual Build Boston '93, sponsored by the Boston Society of Architects at the World Trade Center, Boston.

The Raynes Rail allows blind visitors to direct themselves through complex public buildings with independence and ease. The inexpensive and easily installed rail is a response to the federal regulation mandating easy access to public facilities for the handicapped and its design exceeds the requirements of the Americans with Disabilities Act (ADA) of 1992.

PENNIES, PENNIES, PENNIES . . .

Do you have any extra pennies hanging around in your pockets, the bottom of your purse or in your drawers? Well, they could be going to good use to help those less fortunate than ourselves. The Vocational Adjustment Center in Brighton collects pennies throughout

the year to help support various programs for the mentally retarded.

These pennies all add up to fund so many worthwhile events. These pennies are collected and rolled by client in the Vocational Adjustment Center and used to help in not only vocational training but also to provide those who are needy with holiday parties and gifts.

So please, donate your extra pennies. What will buy so little for you could buy so much for them.

Drop off any donations to Joe Tehan Room 817, Boston City Hall. **THANK YOU.**

C. 1346-94

Tenant Empowerment

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and award a contract to the Committee for Boston Public Housing, Inc., a non-profit corporation located at 100 Terrace Street, Suite B, Roxbury, for tenant empowerment, education, employment and training, and daycare services. This contract is exempt from the provisions of G.L. c. 30B and is awarded under the authority of the City Charter.

Under the terms of the contract, the Committee for Boston Public Housing Inc. (hereinafter referred to as the Committee) will continue to work with public tenant task forces in eleven neighborhood family developments in the areas of tenant empowerment and services delivery advocacy. Activities will include:

1. Developing and maintaining child care resources with parent involvement, including the Washington-Beech Community Daycare Center and early childhood care and education programs at Orient Heights, Faneuil, Franklin Hill, Orchard Park, Gallivan, and Whittier Street. This is and will continue to be the single most important task on the project's agenda, and it will continue to command the largest portion of staff time and involvement at the local and central office levels.

2. Improving tenants' access to and involvement with social and community services through increased collaboration with public and voluntary agencies. The project will continue to help tenants foster working relationships with agencies close to their developments, and with larger institutions which can provide resources for their developments. It will also continue to generate increased collaboration among agencies and institutions so that they can better understand and respond to children and family needs in public housing.

3. Securing adequate program space as a prerequisite to program development including continued work on renovation of city-owned recreation centers at Gallivan and Archdale; redevelopment planning at Orient Heights and Cathedral; and negotiating space use arrangements with public and/or private agencies located in and adjacent to Orchard Park.

These activities are a continuation of the Committee's efforts to enhance the quality of life of public housing tenants in Boston that have been supported by grants awarded by the Bernard van Leer Foundation, The Boston Foundation, the City of Boston, and the Massachusetts Department of Social Services, among other funding sources.

Compensation under this contract shall not exceed \$129,150, which I have determined to be reasonable for the work to be performed.

The term of this contract shall be August 1, 1993, to June 30, 1994.

The Committee was established through a consortium of tenant associations, government agencies, and human service organizations to assure that the needs of public housing tenants living in Boston were addressed. Since the Committee is receiving funds from other private and public sources as well for this same purpose, and the City's contribution is viewed as a required "cash match" in order to secure these funds, I believe that public advertising would serve no useful purpose.

Respectfully yours,
William P. Doherty,
Executive Director.

Housing Counseling

Dear Mayor Flynn:

I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Action for Boston Community Development (ABCD), a non-profit corporation, located at 105 Chauncy Street, Boston, MA 02111. Under the terms of this contract, the contractor will provide housing counseling services to Metrolist clients. This contract is exempt from the provisions of the Uniform Procurement Code, because it is a grant agreement with a non-profit corporation to provide support and not for goods and services as defined in M.G.L. c. 30B, Section 1.

Compensation under this contract shall not exceed \$40,000, which I have determined to be reasonable for the service to be performed. The term of this contract shall be from July 1, 1993, to June 30, 1994.

Funds for this contract shall come from those received under the Metrolist Program.

The contractor was selected based upon a thorough evaluation of the proposal submitted in response to a publicly advertised request for proposals in *The Boston Globe* and the *Boston Herald* on March 31, 1993. Costs were determined to be reasonable after extensive analysis by Boston Fair Housing Commission staff. Other selection criteria include administrative capacity, program quality, housing counseling experience and quality of proposal. ABCD met the eligibility and selection criteria.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that further public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5.

Sincerely,
Victoria L. Williams,
Executive Director.

Catering Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to enter dispense with public advertising and to award a contract to Amrheins Caterers, a company located at 110 West Broadway, Boston, for catering services.

This contract is for the period from December 21st to December 22nd, during which Amrheins provided catering services for the holiday reception held for the Boston Delegation and other City officials that your Honor hosted at the Parkman House on December 21, 1992. This event was planned on very short notice, which did not allow time for advertising or locating other vendors who could provide the required services on such short notice. This vendor was chosen on the basis of past performance, availability and the quality of service. The prices charged were very reasonable and compared favorably with the costs of catering services from this and other vendors we have used in the past for similar events.

This award letter is being submitted late due to the fact that there was an absence of administrative help within the department at that time. The person responsible for such duties had left the Intergovernmental Relations Department in early September and the position was not filled until several months later. It was only after the initial training was complete that the new administrative assistant realized there were several outstanding bills which needed to be paid. In any event, the services were satisfactorily performed, and in good faith, as described above, and this nonpayment oversight was just recently brought to my attention. I have taken steps to insure that an occurrence like this does not happen again.

Compensation under this contract will not exceed \$4,000, which I have determined to be reasonable for the work and services that were performed.

Because of the reasons stated above, and the reasonable cost of these services, I believe that public advertising would serve no useful purpose.

Sincerely,

Francis J. Doyle,
Director.

Under the terms of this emergency contract, ISA Information System Services, Inc. (formerly Ketterman's Inc.) will provide maintenance and repair services to all Datamaxx equipment. The Police Department's Datamaxx Equipment allows the department to be connected into the LEAPS computer system. This nationwide system is an important link for efficiently receiving historic and current data on suspects which directly impacts the investigation process. Linkage

into this system is monitored by the Commonwealth of Massachusetts' Criminal History Systems Board (CHSB).

As part of the policies and procedures set forth by the CHSB, each public entity must maintain its equipment with maintenance contracts from vendors approved by CHSB. As stated in the attached letter from CHSB, currently the only approved maintenance vendor for Datamaxx terminals is ISA Information System Services, Inc. of Arlington, Virginia. As this policy is strictly enforced by CHSB, the Police Department has no practicable option but to enter into a contract with ISA Information Systems Services, Inc. I have informed the City Auditor of this fact by letter dated March 30, 1993, attached.

Compensation under this contract shall not exceed \$12,828, which I have determined to be reasonable for the work to be performed. The term of this contract shall be from July 1, 1993, through June 30, 1994, subject to the availability of appropriation.

Given the fact that this award directly affects the department's investigation process, I have determined that this contract is both urgent and necessary to public safety in the City of Boston. Whereas participation in the LEAPS program is predicated on this award, the Department has no other alternative but to enter into this contract, and given that the Department cannot enter into a contract under any other provision of M.G.L. c. 30B, I respectfully request your approval of this award.

Respectfully,

Francis M. Roache,
Police Commissioner.

Emergency Demolition, 198 Dudley Street

Dear Mayor Flynn:

The above referenced building is owned by Opportunities Industries, a non-profit organization. On April 28, 1993, the Public Facilities Department of the City of Boston was notified by the Inspectional Services Department to demolish a vacant fire station at 198 Dudley Street, Roxbury, because a section of the building's walls collapsed. The other building walls were in immediate danger of collapse, endangering passersby. This emergency is a danger to the public and to the users of the area.

On April 29, 1993, an emergency waiver of public bidding laws was granted by the Division of Capital Planning & Operations. On April 28, 1993, the following contractor, normally engaged in this type of service, was called to view and bid on this work. The result is as follows:

Wayne & Company, Inc., \$87,841.

Wayne & Company, Inc. is the lowest eligible and responsible bid.

This contract is procured pursuant to and in accordance with M.G.L. c. 30, s. 39M and is, therefore, exempt from the process of M.G.L. c. 30B.

The submission of this contract is late due to the nature of emergency projects. These types of projects require immediate attention, thereby, making it necessary for the vendor to begin work prior to the execution of the contract.

Your Honor's written permission is requested to award this work to Wayne & Company, Inc. with offices at 40 Sharp Street, Hingham, MA 02043, in an amount not to exceed \$87,841, which I have determined to be reasonable for this

work to be performed. The term of this contract shall be April 28, 1993, to May 19, 1993.

Legal Services

Your Honor:

I respectfully request your permission to dispense with public advertising and to award an employee contract to Mr. Steven A. Whitkin of 15 Donna Road, Framingham, Massachusetts, for legal services to be rendered to the Real Property Department. This contract is exempt from the provisions of G.L. c. 30B and is awarded under the authority of the City Charter.

Under the terms of the contract, Mr. Whitkin will be negotiating leases with the United States Postal Service, National Parks Service and various commercial tenants for retail space at Faneuil Hall. He will be negotiating agreements with the Bostonian Society and the United States Department of the Interior for the occupation and operation of the Old State House as well as negotiating a long-term lease with the Afro-American Museum for the historic Abiel Smith School. Mr. Whitkin will also be involved in drafting all lease and license agreements for the "outside buildings" under the jurisdiction of the Real Property Department. He will draft all lease and license agreements for space in City Hall and the plaza area. He will be involved with any legal issue relating to real estate under the care, custody and control of this department. Mr. Whitkin's legal 'work product' shall be subject to the review and subsequent approval of the Corporation Counsel.

During the past year, Mr. Whitkin will have been paid \$54,600 under the terms of his contract, said contract being the only one he had with this department or any other City department during the year. In Contract Year 1991, he was compensated \$54,500, and in Contract Year 1990, he was compensated \$54,600.

Compensation under this contract shall not exceed \$30,968, which I have determined to be reasonable for the work to be performed. The term of the contract shall be from May 20, 1993, to November 30, 1993. The period of performance spans two fiscal years and the contract is subject to annual appropriations as indicated on the standard contract form (CM-10). The rate of compensation shall be \$31.60 per hour, based on a thirty-five-hour work week. Because of the professional nature of the services to be rendered and the individual's unique experience and qualifications, I believe that public advertising would serve no useful purpose.

Very truly yours,

Frank N. Jones,
Commissioner.

Preventive Maintenance

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a con-

tract to Barber-Colman Marcucci, Inc., a corporation located at 480 Neponset Street, Canton, MA 02021, for preventive maintenance of mechanical equipment and installations in various schools. This contract is exempt from the provisions of G.L. c. 30B, and is awarded under the authority of Chapter 149 of the General Laws.

On July 29, 1992, your Honor approved the award of Contract No. C4238-93, for preventive maintenance of mechanical equipment and installations in various schools, publicly advertised for bids, to Barber-Colman Marcucci, Inc., during the period July 1, 1992, to June 30, 1993, at a cost of \$1,393,312.

There is an option in the original contract to renew this contract for an additional year. I am exercising the option to renew this contract without further advertising, at the same cost of \$1,393,312, which I believe is reasonable for the work to be performed.

The term of this contract shall be July 1, 1993, to June 30, 1994. Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose and that exercising the option to extend is more advantageous.

Fresh Produce

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award an emergency procurement contract pursuant to M.G.L. c. 30B, s. 8, to Springfield Food Service Corp., a corporation located at 340 Taylor Street, Springfield, MA 01101.

This emergency procurement is being requested because Family Fruit, Inc. to which on August 22, 1992, a contract was awarded for the purchase and delivery of Fresh Fruits and Vegetables has gone out of business and closed its doors on April 14, 1993, leaving the School Department with no source for fresh fruits and vegetables.

Prior to selecting Springfield Food Services Corp., alternative vendors were solicited by soliciting three telephone quotes. Springfield is the only company that accepted to service all BPS schools on such short notice and for such a short period of time.

Compensation under this contract shall not exceed \$47,000, which I have determined to be reasonable for the goods to be provided. The term of this contract shall be from April 16, 1993, through June 30, 1993.

Failure to award this contract will result in the children of the City of Boston attending the Boston Public Schools being deprived of the daily balanced meal they require as federally mandated. Because of the urgency of the situation, advertising this contract would serve no useful purpose.

Very truly yours,

Joseph P. McDonough,
Assistant Business Manager.

Chapter I

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Education Collaborative for Greater Boston, Inc., a non-profit corporation

located at 20 Kent Street, Brookline, MA 02146. Under the terms of the contract, the Contractor will administer Chapter I funds for the Archdiocese of Boston and administer the Boston Public School Chapter I Parent Involvement Program. This contract is exempt from the provisions of G.L. c. 30B as it represents a grant agreement with a non-profit entity.

Chapter I is a federally funded program to provide remedial educational services to low income, educationally deprived students in parochial, private and public schools. The legislation specifically requires parental involvement in the program.

The Education Collaborative provides technicians for the computer aided instruction program as well as staff for the parent information centers and home workers as set forth in the attached budget.

This vendor was selected to perform these services by the Archdiocese of Boston after extensive review of the contractors capacity to perform these services. The Education Collaborative serves as a collaborative purchasing and educational resource to member school districts. Members include Boston, Cambridge, Acton, Boxboro, Brookline, Bedford, Belmont, Concord, Lincoln, Lexington, Newton, Weston, Sudbury, Maynard, Watertown, and the Archdiocese of Boston, Acton-Boxboro, Lincoln-Sudbury, and Concord-Carlisle.

The Archdiocese of Boston has requested that the Education Collaborative perform these services because the Archdiocese lacks the staffing necessary to perform the proper procurement and accounts payable functions required of a grant recipient. The Archdiocese schools will be able to take advantage of the low cost of educational material afforded Education Collaborative members through this contract.

Compensation under the terms of this contract shall not exceed \$888,285. The submission of this request has been delayed by the funding review process and the late determination of the Archdiocese's funding level for Chapter I services.

The period of performance for these services shall be from March 1, 1993, to August 31, 1993. Performance of these services in subsequent fiscal years is subject to the availability of an appropriation.

Very truly yours,
Lois Harrison-Jones,
Superintendent of Schools.

Piano Tuning, etc.

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to the Commission for the Blind, a state agency located at 88 Kingston Street, Boston. This contract is for the purchase of ball point and nylon tip pens for school and office use and for the performing of piano tuning services. Because this is a contract for the purchase of goods and service from a state agency, it is exempt from the provisions of G.L. c. 30B.

Compensation under this agreement shall not exceed \$43,000. I have determined that the cost for these goods and services are reasonable. The term of this agreement shall be July 1, 1992, to June 30, 1993.

Because the School Department is required by law to procure these goods and services from the

Commission for the Blind, and because of the reasonable cost of these goods and services, I believe that public advertising would serve no useful purpose.

This request is being submitted late because of the delay in obtaining the required signatures from the vendors.

Very truly yours,
Lois Harrison-Jones,
Superintendent of Schools.

wealth of Massachusetts, to the end that legislation be adopted providing precisely as follows, except for clerical or editorial changes of form only:

Section 1. Section 1 of chapter 665 of the acts of 1956, as amended by section 1 of chapter 77 of the acts of 1958, is hereby further amended by striking out the first three paragraphs and inserting in place thereof the following three paragraphs:

There shall be in the city planning department of the city of Boston, or in such other department of said city as the city council of said city with the approval of the mayor of said city shall from time to time determine, a board, known as the zoning commission, consisting of eleven zoning commissioners appointed by the mayor, subject to confirmation by the city council, as follows: one commissioner from two candidates nominated by the Greater Boston Labor Council AFL-CIO; one commissioner from two candidates nominated by the Greater Boston Real Estate Board; one commissioner from two candidates nominated one by the Boston Society of Architects and one by the Boston Society of Landscape Architects; one commissioner from two candidates nominated by the Greater Boston Chamber of Commerce; one commissioner from two candidates nominated by the Building Trades Employers' Association; three commissioners selected at large by the mayor, of whom one shall own alone or with one or more other persons, and shall occupy in whole or in part as her or his place of residence, a dwelling house having not more than three dwelling units; and three commissioners selected by the mayor each of whom has served for at least one year (1) as an officer or a member of the board of directors or similar governing body of a residential neighborhood organization which (a) is a non-profit organization consisting primarily of residents of a specific neighborhood; (b) has at least twenty-five members; (c) allows any resident of the neighborhood to join as a member; (d) has as a principal purpose the preservation of the quality of residential life in the neighborhood; and (e) has been in existence for at least two years; or (2) as a member of a residential neighborhood organization which (a) has been established by the mayor; (b) consists primarily of residents of a specific neighborhood; and (c) has as a principal purpose the preservation of the quality of residential life in the neighborhood; provided that any person appointed from a residential neighborhood organization under this section is a resident of the neighborhood represented by the residential neighborhood organization in which he or she has served. The three commissioners from residential neighborhood organizations shall reside at the time of their respective appointments in different city council districts. All zoning commissioners shall be residents of Boston.

Appointments of zoning commissioners shall be for terms of three years. Any vacancy in the office of a zoning commissioner shall be filled for the unexpired term in the same manner in which the original appointment to such terms was made. Any zoning commissioner absent from more than one-third of the public hearings of the commission held within a twelve-month period during her or his term may be removed from the commission by the mayor at his discretion by notice to the city council; provided that there were at least three public hearings of the commission during the twelve-month period. Any zoning commissioner so removed shall not be subject to reappointment to the commission. Any vacancy caused by the removal of a zoning commissioner for absence shall be filled for the unexpired term in the same manner in which the original appointment to such term was made.

The zoning commission shall elect one of its members as chairperson and another as vice-chairperson. The zoning commission shall also elect a secretary, who need not be a member of the commission. Each zoning commissioner shall receive for every day or part thereof of actual services one hundred fifty dollars or such other sum as may from time to time be fixed by the city council with the approval of the mayor; but no zoning commissioner shall so receive in any one year more than two thousand two hundred fifty dollars or such other sum as may from time to time be fixed by the city council with the approval of the mayor.

Section 2. Said chapter 665 is further amended by striking section 3, as most recently amended by section 1 of chapter 193 of the acts of 1966, and inserting in place thereof the following section:

Section 3. A zoning regulation may be adopted and from time to time be amended by alteration, addition or repeal, but only in the manner hereinafter provided. No zoning regulation originally establishing the boundaries of a district or the regulation and restrictions to be enforced therein, and no such regulation amending the same as aforesaid, shall be adopted until the Boston Redevelopment Authority shall have submitted a report with recommendations concerning such regulations or amendment or allowed twenty days to elapse after receipt from the zoning commission of a request for such a report without making such a report, nor until after the zoning commission shall have given notice and held a public hearing with respect to such regulation or amendment. Such shall be published at least twenty days prior to such hearing in one or more newspapers of general circulation in the city of Boston and, where the regulation or amendment affects a specific zoning district, in a newspaper of circulation in the neighborhood in which the zoning district is located. Such notice shall (a) refer to this act, (b) give the time and place of the public hearing, and (c) either state the express terms of the proposed regulation or amendment, or state the general subject thereof and the times and the place where a copy of the express terms thereof may be obtained. Such notice shall also be sent by mail, postage prepaid, at least twenty days prior to the hearing, to any person filing written request for notice of hearings, such request to be renewed yearly in December. Such public hearing shall be attended by not less than six members of the zoning commission; and if less than six members are present at any public hearing, the members actually present may adjourn the same by proclamation to such time and place as they deem advisable, and further notice thereof shall not be necessary. After such notice and hearing the zoning commission, by the concurrent vote of not less than seven of its members, may adopt or reject the proposed regulation or amendment, or may adopt a regulation or amendment in substantial accord with the proposed regulation or amendment. Votes of the zoning commission adopting a zoning regulation or amendment thereof shall be subject to the same provisions of law in respect to approval by the mayor as orders or votes of the city council of the city, except that the concurrent vote of not less than nine members of the zoning commission shall be necessary to pass such a regulation or amendment over the veto of the mayor.

Any resident of the city of Boston or any owner of property therein may petition the zoning commission to adopt an amendment of a zoning regulation, but shall not be entitled to have her or his proposed amendment considered by the commission unless he or she pays the city such reasonable sum, if any, as may from time to time be established by zoning reg-

ulation as the estimated average cost to the city of giving notice of a hearing on a proposed amendment of a zoning regulation in accordance with the provisions of this section.

Section 3. Said Chapter 665 is further amended by striking the first paragraph of section 8, as most recently amended by section 4 of chapter 296 of the acts of 1973, and inserting in place thereof the following five paragraphs:

There is hereby established in the city of Boston a board to be called the board of appeal, to consist of seven members and seven alternate members appointed by the mayor in the following manner: one member and one alternate member from four candidates nominated by the Greater Boston Real Estate Board; one member and one alternate member from four candidates nominated by the Boston Society of Architects; one member and one alternate member from six candidates, two nominated by the Master Builders Association, two by the Building Trades Employers' Association and two by the Associated General Contractors of Massachusetts; one member and one alternate member from four candidates nominated by the Building Trades Council of Greater Boston; one member and one alternate member selected at large by the mayor; and two members and two alternate members selected by the mayor each of whom has served for at least one year (1) as an officer or member of the board of directors or similar governing body of a residential neighborhood organization which (a) is a non-profit organization consisting primarily of residents of a specific neighborhood; (b) has at least 25 members; (c) allows any resident of the neighborhood to join as a member; (d) has as a principal purpose the preservation of the quality of residential life in the neighborhood; and (e) has been in existence for at least two years; or (2) as a member of a residential neighborhood organization which (a) has been established by the mayor; (b) consists primarily of residents of a specific neighborhood; and (c) has as a principal purpose the preservation of the quality of residential life in the neighborhood; provided that any person appointed from a residential neighborhood organization under this section is a resident of the neighborhood represented by the residential neighborhood organization in which she or he has served. The two members from residential neighborhood organizations shall reside at the time of their respective appointments in different city council districts. The two alternate members from residential neighborhood organizations shall reside at the time of their respective appointments in different city council districts.

All members and all alternate members of said board shall be residents of the city of Boston. Appointments of members and alternate members of said board shall be for terms of three years. Any vacancy in the office of a member or alternate member shall be filled for the unexpired term in the same manner in which the original appointment to such term was made.

Each member and each alternate member of said board shall be subject to the provisions of chapter two hundred sixty-eight A of the General Laws. In addition, no member or alternate member shall participate in hearing or deciding (a) any appeal involving property in which he or she has held an ownership interest, or received compensation for services rendered, within two years of the date the appeal was filed with the board; and (b) any appeal involving property in the same zoning district and seeking relief from the same provisions of the zoning regulations as any other appeal pending before the board in which the member or alternate member has a finan-

cial or legal interest. A violation of the provisions of the preceding sentence shall be punishable in the same manner as a violation of the provisions of section nineteen of said chapter two hundred sixty-eight A and shall be subject to the provisions of section twenty-one of said chapter two hundred sixty-eight A.

Upon the absence or disqualification from the hearing of any appeal of a member appointed upon nomination or at large under this section, the alternate member appointed in the same manner as such member shall substitute for such member; provided that upon the absence or disqualification from such hearing of such alternate member, the chairperson shall designate one of the remaining alternate members to substitute for such member.

Upon the absence or disqualification from the hearing of any appeal of a member appointed from a residential neighborhood organization under this section, the alternate member appointed from a residential neighborhood organization whose term is concurrent with such member shall substitute for such member; provided that upon the absence or disqualification from such hearing of such alternate member, the other alternate member appointed from a residential neighborhood organization shall substitute for such member; and provided, further, that upon the absence or disqualification from such hearing of such other alternate member, the chairperson shall designate one of the remaining alternate members to substitute for such member.

Each member and each alternate member of the board of appeal shall receive for every day or part thereof of actual services two hundred dollars or such sum as may from time to time be fixed by the city council with the approval of the mayor. The board shall establish rules and regulations for its own procedures not inconsistent with this act.

Section 4. Said section 8, as amended by said section 4 of said chapter 296, is further amended by striking the last three paragraphs and inserting in place thereof the following three paragraphs:

Said board of appeal shall fix a reasonable time for the hearing of any appeal and give at least twenty days public notice thereof in a newspaper of general circulation in the city, and also send notice by mail, postage prepaid, at least twenty days prior to the hearing, to the appellant and to the owners of all property deemed by said board of appeal to be affected thereby, as they appear on the then most recent local tax list, and to any person filing written request for notice of hearings, such request to be renewed yearly in December, and to the Boston Redevelopment Authority. Said notice shall identify the specific variance, exception, or other zoning relief which the appellant is seeking. Said notice shall identify any specific variance, exception, or other zoning relief which the appellant is seeking. At the hearing any party whether or not entitled to notice thereof may appear in person or by agent or attorney. The board of appeal may in its discretion administer oaths to all persons testifying at said hearing. No such hearing shall be held any day on which a state or municipal election, preliminary election or primary is held in said city.

In acting upon such appeal, said board of appeal may, in conformity with the provisions of this act, reverse or affirm in whole or in part, or may modify, any order or decision, and may make such order or decision as ought to be made, and to that end shall have all the powers of the board or officers from who the appeal is taken and may direct the issue of a permit. The board may in its discretion continue the hearing in order that the appellant may meet with any residential neighborhood organization specified

by the board to discuss the appeal, and the board may in its discretion deny the appeal without prejudice in the event the appellant fails to do so. The concurring vote of five members of said board of appeal shall be necessary to reverse any order or decision of any administrative official under this act, or to decide in favor of the appellant on any matter upon which it is required to pass under any zoning regulation or amendment thereof, or to grant any variance in, or exception to, the application of any such regulation or amendment.

Said board of appeal shall cause to be made a detailed record of all its proceedings, which record shall set forth: the reasons for its decision; in an appeal in which a variance is granted, the specific conditions referred to in section nine of this act, sufficient to warrant a finding that a literal enforcement of the provisions of the zoning regulation being varied would cause substantial hardship to the appellant; the vote of each member participating therein; the absence of a member or her or his failure to vote; and any conditions or provisos to which the granting of any variance or exception was made subject by vote of said board of appeal at the hearing. Such record shall be filed in the office of the building commissioner of the city within ninety days of the hearing and shall be open to public inspection; provided that the board may for good cause extend the time for such filing. Notice of such decision shall be mailed forthwith to each party in interest as aforesaid, to the Board Redevelopment Authority, to every person receiving notice of the hearing, and to every person present at the hearing who requests that notice be sent to her or him and states the address to which such notice is to be sent.

Section 5. Section 11 of said chapter 665, as amended by section 1 of chapter 669 of the acts of 1974, is further amended by striking the first paragraph and inserting in place thereof the following paragraph:

Any person aggrieved by a decision of said board of appeal, whether or not previously a party to the proceeding, or any municipal board or officer, may appeal to the superior court sitting in equity for the county of Suffolk or, in the event that such decision is concerned with any building or place used, or intended or permitted for use, as a place of human habitation, to the housing court of the city of Boston; provided that such appeal is filed in either of said courts within twenty days after such decision is filed with the building commissioner. The court may in its discretion require the person or persons so appealing to file a bond with sufficient surety, for such a sum as shall be fixed by the court, to indemnify and save harmless the person or persons in whose favor the decision was rendered from damages and costs which he or she or they may sustain in case the decision of said board is affirmed; provided that the court shall not require the filing of such bond in an amount exceeding twenty-five thousand dollars in any appeal of a decision of said board granting a variance, exception, or other zoning relief with respect to any zoning regulation or amendment thereof, if the project for which such variance, exception, or other zoning relief was granted involves the construction, renovation, rehabilitation, or change in use of less than one hundred thousand square feet of space; and, provided further, that the court shall award said surety bond to the defendant property owner only if the decision of the board is affirmed and the court finds that the appeal from such decision was frivolous or vexatious or brought with malice or in bad faith. Upon an appeal under this section, the court shall hear all pertinent evidence and determine the facts, and upon the facts

as so determined, annul such decision if found to exceed the authority of such board or make such other decree as justice and equity may require. The foregoing remedy shall be exclusive; but the parties shall have all rights of appeal as in other civil actions.

Section 6. Said chapter 665 is hereby further amended by striking section 12, as amended by section 2 of said chapter 669, and inserting in place thereof the following section:

Section 12. The superior court or, in the event that the premises involved are used or intended or permitted for use as a place of human habitation, the housing court of the city of Boston sitting as aforesaid, shall have jurisdiction to enforce the provisions of this act, the provisions of the State Building Code, any zoning regulation or amendment adopted under this act, and any decision of the board of appeal under any zoning regulation or amendment adopted under this act, including any condition or proviso in such decision, and may restrain by injunction violation thereof.

Section 7. Notwithstanding any provisions to the contrary of section one of chapter six hundred sixty-five of the acts of nineteen hundred fifty-six, as amended by the provisions of this act, the zoning commissioners initially appointed upon nomination under said section one, as amended by the provisions of this act, shall serve, in the case of the commissioners appointed upon nomination of the Greater Boston Labor Council AFL-CIO and the Greater Boston Real Estate Board, for a term expiring three years, in the case of the commissioners appointed upon nomination of the Boston Society of Architects and the Greater Boston Chamber of Commerce, for a term expiring two years, and in the case of the commissioners appointed upon nomination of the Building Trades Employer' Association, for a term expiring one year, from May first, nineteen hundred ninety-four. The zoning commissioners initially appointed from residential neighborhood organizations under section one, as amended by the provisions of this act, shall serve, according to the provisions of their respective appointments, for terms expiring, in the case of one commissioner, three years, in the case of another commissioner, two years, and in the case of the other commissioner, one year, from said May first. As the term of any zoning commissioner initially appointed under said section one, as amended by the provisions of this act, or of any subsequent zoning commissioner, expires, her or his successor shall be appointed in the same manner as such commissioner for a term of three years in accordance with the provisions of said section one.

Section 8. Notwithstanding any provisions to the contrary of section eight of chapter six hundred sixty-five of the acts of nineteen hundred fifty-six, as amended by the provisions of this act, the members and alternate members initially appointed upon nomination under said section eight, as amended by the provisions of this act, shall serve, in the case of the members and alternate members appointed upon nominations of the Greater Boston Real Estate Board and the Boston Society of Architects, for a term expiring three years, in the case of the member and alternate member appointed upon nomination of the Master Builders Association of the Building Trade Employers' Association or the Associated General

Contractors of Massachusetts, for a term expiring two years, and in the case of the Building Trades Council of Greater Boston, for a term expiring one year, from May first, nineteen hundred ninety-four. The member and alternate member initially appointed at large under said section eight, as amended by the provisions of this act, shall serve for a term expiring three years from said May first. The members and alternate members initially appointed from residential neighborhood organizations under said section eight, as amended by the provisions of this act, shall serve, according to the provisions of their respective appointments, for terms expiring, in the case of one member and one alternate member, two years, and in the case of the other member and other alternate member, one year, from said May first. As the term of any member or alternate member initially appointed under said section eight, as amended by the provisions of this act, or of any subsequent member or alternate member, expires, her or his successor shall be appointed in the same manner as such member or alternate member for a term of three years in accordance with provisions of said section eight.

Notwithstanding any provision to the contrary of said section eight, any member of the board of appeal as of May first, nineteen hundred ninety-three, who was not a resident of the City of Boston as of that date, may be initially appointed to said board under the provisions of said section eight, as amended by the provisions of this act, and be reappointed to additional consecutive terms without changing her or his residency.

Section 9. The provisions of this act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions.

Section 10. This act shall take effect ninety days after its passage.

ORDER FOR PETITION FOR SPECIAL LAW RE BOSTON FAIR HOUSING COMMISSION (DOCKET NO. 1133)

The following was received:

City of Boston
Office of the Mayor

July 28, 1993

To the City Council.

Dear Councillors:

I transmit herewith for your approval a home rule petition regarding the Boston Fair Housing Commission (BFHC). This is a refile of a petition passed by the Council in 1990. The Legislature failed to pass the petition in its 1990, 1991, and 1992 sessions.

This legislation is necessary if the BFHC is to have those enforcement powers necessary for it to receive federal funding and also to comply with a federal court order.

I urge your Honorable Body to pass this petition as expeditiously as possible so that we can file it for the Legislature's consideration.

Sincerely,

Thomas M. Menino,
Acting Mayor.

Ordered, That a petition to the General Court, accompanied by a bill for a special law relating to the City of Boston to be filed with an attested copy of this order be, and hereby is, approved under Clause (1) of Section eight of Article two, as amended, of

the Amendments to the Constitution of the Commonwealth of Massachusetts, to the end that legislation be adopted providing precisely as follows, except for clerical or editorial errors.

Changes of form only:

(C) Nothing in this act shall apply to the leasing or rental to two or fewer roomers, boarders, or lodgers who rent a unit in a licensed lodging house.

Section Four. Nothing in this act shall prohibit a religious organization, association or society, or any non profit institution or organization operated, supervised, or controlled by or in conjunction with a religious organization, association, or society, from limiting the sale, rental or occupancy of housing accommodations which it owns or operates for other than a commercial purpose to persons of the same religion, or from giving preference to such persons, unless membership in such religion is restricted on account of race, color, marital status, handicap, military status, children, national origin, sex, age, ancestry, sexual preference or source of income.

Section Five. In the City of Boston, discriminatory housing practices are prohibited, provided, however, that no practice shall be prohibited hereunder unless such practice is also prohibited by the federal Fair Housing Act or Chapter 151B of the Massachusetts General Laws.

Section Six. Any person who violates the provision of this act as to discriminatory housing practices shall, pursuant to the provisions of Section Seven of this act, be subject to orders, temporary, equitable and legal, including compensatory damages, punitive damages or civil penalties and attorneys' fees and costs.

Section Seven. There shall be a Boston Fair Housing Commission (the "Commission") established pursuant to Chapter 10 of the City of Boston Ordinances of 1982. The Commission shall have jurisdiction of all housing accommodations subject to this act and shall have the following powers and duties as to such housing accommodations, except as to those housing accommodations in any building or structure contain-

ing one, two, three or four dwelling units, one of which is occupied by the owner thereof as his/her permanent residence; provided, that no building or structure shall be considered occupied by the owner thereof unless all beneficial owners occupy one or more dwellings therein as their permanent residence;

(A) Seek judicial action for temporary or preliminary relief pending final disposition of a complaint; and upon issuance of a final order.

(B) Grant compensatory damages or arrange to have adjudicated in court at the Commission's expense the award of compensatory damages to an aggrieved person;

(C) Grant injunctive or other equitable relief, or seek such relief in a court of competent jurisdiction;

- (2) in an amount not to exceed twenty-five thousand dollars if the person has been adjudged to have committed one other discriminatory housing practice during the five-year period ending on the date of the filing of the complaint; and
- (3) in an amount not to exceed fifty thousand dollars if the person has been adjudged to have committed two or more discriminatory housing practices during the seven-year period ending on the date of the filing or the complaint;

(E) Arrange to have adjudicated in court at the Commission's expense the award of punitive damages against such person;

(F) Award reasonable attorney's fees and costs to any prevailing complainant; and

(G) Adopt rules and regulations to carry out the provisions of this act and the powers and duties of the Commission in connection therewith

Section Eight.

(A) The actions of the Commission shall be subject to judicial review upon application by any party aggrieved by a final agency order;

(R) Judicial review of a final Commission order shall be in a court of competent jurisdiction with authority to grant to any party, such temporary relief, restraining order, or other order as the court determines is just and proper; affirm, modify, or set aside, in whole or in part, the order, or remand the order for further proceedings; and enforce the order to the extent that the order is affirmed or modified.

Section Nine. An aggrieved person, with or without filing a complaint at the Commission and without regard to the status of such complaint, may commence a civil action in a court of competent jurisdiction no later than two years after the occurrence or termination of a discriminatory housing practice, or the breach of a conciliation agreement entered into with the Commission, whichever occurs last, to obtain appropriate relief with respect to such discriminatory housing practice or breach; provided, however, that if an aggrieved person has consented to a conciliation agreement, such aggrieved person may not file a civil action with respect to the alleged discriminatory housing practice which forms the basis for such complaint except for the purpose of enforcing such agreement; and provided, further, that an aggrieved person may not commence a civil action with respect to an alleged discriminatory housing practice if a hearing commissioner determines that probable cause exists and a hearing has commenced before the Commission. The computation of such two-year period as

to an alleged discriminatory housing practice, but not as to a breach of a conciliation agreement, shall not include any time during which an administrative proceeding is pending with respect to a complaint based upon such discriminatory housing practice. If the court finds that a discriminatory housing practice has occurred or is about to occur, an aggrieved person shall have available any and all remedies pursuant to Sections Six and Seven of this act. This section does not preclude the right of any aggrieved person to seek relief under M.G.L. c. 151B.

Section Ten. This act shall take effect upon its passage.

On motion of Coun. CRAYTON, the rules were suspended; **the order was passed.**

WORLD AIDS DAY — "TIME TO ACT"

*Statement by Thomas M. Menino, Mayor of the City of Boston,
December 1, 1993, World AIDS Day.*

Since 1988 the World Health Organization has designated December 1 as World AIDS Day. As this year's theme, "Time to Act!", suggests, I am taking this opportunity to announce the formation of a Mayoral Advisory Committee as well as several HIV/AIDS initiatives.

I have asked my AIDS Policy Advisor, Gary Sandison, to form a Mayor's HIV/AIDS Advisory Committee. I am calling on the extraordinary talent here in Boston to advise me on a variety of strategies around the HIV and AIDS epidemics.

We have been fortunate to have among us some of the best minds and hearts dedicated to providing care and support, education and research. Let me introduce the first six individuals who have already given so much to our community and have agreed to serve on this advisory committee:

Harvey Fineberg, Dean, Harvard University School of Public Health.

Barbara Gomes-Beach, Executive Director, Multicultural AIDS Coalition.

Larry Kessler, Executive Director, AIDS Action Committee and former member of the National Commission on AIDS.

Jonathan Mann, Director, Francois-Xavier Bagnoud Center for Health and Human Rights and former Director of the Global Programme on AIDS of the World Health Organization.

Nicolas Parkhurst Carballeira, Executive Director, Latino Health Institute.

Michael Savage, Executive Director, Fenway Community Health Center.

Unfortunately, Doctor Fineberg and Doctor Mann cannot be here with us today.

These distinguished and respected authorities on HIV and AIDS will be joined by six additional individuals

to begin work on combating the epidemic.

Boston has done a good job in the past in providing services through Boston City Hospital, through neighborhood health centers, and through our remarkable teaching hospitals. We have developed a model community-based response to the epidemic as represented by the leaders here with me today. It is often said that if you have AIDS, Boston is the best place to be for patient care and support services. However, we can and will do better.

While we have truly cared for the present, we must do more to protect the future. Our HIV prevention efforts have been inadequate as the epidemic rages on, especially among adolescents, women of color, injecting drug users, and gay and bisexual men. We simply haven't paid enough attention to stopping the spread of this disease. Because while it is not yet curable, it is preventable.

Under my direction and leadership we will begin immediately to make HIV prevention a priority. And Boston will be a leader in the country.

The following five priorities will set the agenda for our work in the immediate future:

1. The first is to put our own house in order. The City of Boston

has had an HIV/AIDS Education the Workplace Program since 1991. However, there are new employees and certain departments that have not had the opportunity to have the comprehensive educational experience. We will begin training these individuals immediately.

2. We need to speak often and forthrightly about how to prevent HIV infection. That means a willingness to talk about clean needle exchange and the protection of condoms during sexual intercourse. This committee will help us be honest in our efforts to prevent the spread of HIV.

3. We must focus special attention on our adolescents, and recognize that although abstinence may be our choice, it may not be the reality for many of our young people. We will focus our HIV and AIDS curriculum in our schools and other venues where our youth can be reached.

4. The connection between alcohol and risky behavior is clear. I am today urging all restaurants, bars, and entertainment centers, especially where alcoholic beverages are consumed, to voluntarily install condom vending machines along with HIV prevention information.

5. And finally, I am charging our Department of Health and Hospitals to develop a city-wide AIDS Awareness Campaign in collaboration with community-based organizations. I want every citizen in this city to have information about HIV and AIDS, and not be motivated by ignorance, fear or bigotry.

I am urging all citizens of the City of Boston to join me today in my commitment to stop the spread of AIDS. The cost in human suffering and dollars is too great to do otherwise. And, it is the right thing to do.

Thank you.

Mayor Menino inspects plans for a new mall and shopping plaza at the vacant Lafayette Place Mall in Downtown Boston. "Homart Development Corporation is committed to making sure Downtown Crossing continues to be a vibrant shopping area," the Mayor said. "The redevelopment of Lafayette Place will create hundreds of jobs for our residents and will be a vital force in attracting others downtown. This proposal shows we can create a thriving downtown and midtown district by encouraging other major investments there, while maintaining existing businesses."

FIRE DEPARTMENT ORDERS

December 3, 1993.

General Order No. 57

I. TRANSFERS

The transfers of the following-named members became effective 0800 hours, December 1993.

Deputy Fire Chief John F. Hasson, T.M.R. Division to Fire Prevention Division.

Deputy Fire Chief Paul R. Moore, Personnel Division to T.M.R. Division.

II. HIGH COMMENDATION

On November 4, 1993, at 0500 hours, E 2181 was struck for a building fire at 1 Ruthven Street, incident No. 39857, District 9.

Upon their arrival, District 9 and Ladder Company 23 observed a heavy volume of fire issuing from the third-floor front bay windows. Members of Ladder Company 23 ascended the stairs and entered the apartment on fire. The front rooms were fully involved with fire and relatively free of smoke, making it possible to check for occupants within.

Fire Fighter Gary L. Walker of Ladder Company 23 proceeded down a smoke blackened hallway toward the rear rooms. While searching the kitchen, he came upon a semi-conscious male on the floor beneath a closed window that led to fire escape. Fire Fighter Walker lifted the person who was much larger than himself and carried him from the kitchen and down the hallway to floor entrance where he was assisted by Fire Fighter Albert J. Lynch of Ladder Company 4 removing the person through the door to the stairwell and safety.

Because he performed this search and rescue great personal risk, before lines of hose were charged or ventilation effected, the Fire Commissioner is pleased to highly commend Fire Fighter Gary L. Walker of Ladder Company 23 and refers his case to the Board of Merit for further consideration.

III. COMMENDATIONS

1. On November 4, 1993, at 0500 hours, E 2181 was struck for a building fire at 1 Ruthven Street, District 9. With heavy fire showing from the third-floor front bay windows, Fire Fighter Albert J. Lynch of Ladder Company 4 was ordered to the third floor for search and rescue. He made his way past the rear room kitchen area where he searched the bathroom. He returned to the hallway and assisted Fire Fighter Gary L. Walker of Ladder Company 4 in removing a rescued person through the door to the stairwell.

Because of his actions in assisting in the rescue while operating under adverse conditions, the Fire Commissioner is pleased to commend Fire Fighter Albert J. Lynch of Ladder Company 4 and makes this commendation a part of his personnel folder.

2. The Fire Commissioner is pleased to commend Fire Fighter Mel G.M. Creary, Engine Company 16, Fire Fighter Joseph R. Cull, Ladder Company 4 and Fire Fighter Edgar I. Driquet, Jr., Engine Company 29, who, as members of the Honor Guard responding to the funeral of an active member on November 1993, stopped and continued to render first aid to a person struck by an automobile until relieved by members of the Natick Fire Department.

These commendations shall be made part of their personnel folder.

3. On November 26, 1993, Engine Company 48 and Ladder Company 28 responded to One Westinghouse Plaza, District 10, at 1126 hours, incident No. 42824. Upon arrival, members observed an elderly male trapped in the front passenger side of an automobile with arcing electrical wires and an assortment of other wires crossing over the windshield and hood. A transformer had punctured the roof, and while leaking severely, was saturating and pushing down on the person, preventing his escape. Boston Edison was summoned. A decision was made to remove the person immediately and in as safe a manner as possible.

All members of Engine Company 48 and Ladder Company 28 combined in the rescue effort. Some members used ropes and wooden rakes to secure the wires, others removed the windshield, but the seat belt, covered the person to protect him from the spill, used a backboard in removal, and performed a medical survey, all actions performed prior to the arrival of other emergency personnel.

Because of their team effort while exercising good judgment in a true professional manner, despite the hazards, the Fire Commissioner is pleased to commend the following members:

- Fire Lieut. Donald C. Taber, Engine Company 48.
- Fire Fighter David L. Packard, Engine Company 48.
- Fire Fighter William M. Hardmon, Engine Company 48.
- Fire Fighter Steven A. Jerzylo, Engine Company 48.
- Fire Lieut. Joseph A. Reardon, Ladder Company 28.
- Fire Fighter Thomas F. McGuire, Ladder Company 28.
- Fire Fighter Herman B. Donaldson, Ladder Company 28.
- Fire Fighter Orlando J. Giampaolo, Ladder Company 28.

This commendation shall be made part of each member's personnel folder.

CITY OF BOSTON

Proceedings of City Council

Wednesday, August 18, 1993.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 10 a.m.. Councillor O'NEIL, Senior Member, presiding. Absent, President MENINO and Councillor TRAVAGLINI.

INVOCATION

Reverend Doctor Tina Saxon, United Baptist Church of Jamaica Plain, delivered the invocation, and the meeting was opened with the pledge of allegiance to the flag.

DISAPPROVING ORDER REQUIRING CORPORATION COUNSEL TAKE LEGAL ACTION TO CAUSE BOSTON WATER AND SEWER COMMISSION TO CEASE AND DESIST FROM CERTAIN SHUTOFFS (DOCKET NO. 1074)

The following was received:

City of Boston
Office of the Mayor

August 6, 1993.

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on July 21, 1993, Docket No. 1074, which requires the Corporation Counsel to take legal action to cause the Boston Water and Sewer Commission to cease and desist from certain shut offs.

Responsibility for the direction and operation of the Law Department is an executive or administrative function of the city in which the Boston City Council is statutorily prohibited from directly or indirectly taking part St. 1948, c. 452, s. 17G, as inserted by St. 1951, c. 376, s. 1.

Notwithstanding my disapproval of this order, I share your concern for tenants and homeowners hard-pressed by exorbitant water and sewer rates and have taken several steps toward protecting Boston's residents from future shutoffs. First, as you know, I directed the Commissioners of the Boston Water and Sewer Commission (BWSC) several weeks ago to freeze any increase in water and sewer rates for the next 18 months. Second, I asked the Commission to review its water shutoff policies.

In reviewing these policies, the BWSC considered all its constituents and responded fairly. Recognizing that uncollected payments ultimately are borne by paying customers, the Commission struck a balance between its obligation to minimize that cost and the City's intent to help its neediest customers. The Commission informally approved three (3) changes to its shutoff program, effective August 16, 1993:

- 1) No service will be terminated for any customer receiving food stamps or low-income heating assistance;
- 2) No service will be terminated for residential tenants who agree to pay a 30-day projected water bill (reduced from 90 days), with payments deductible from their rent; and
- 3) No service will be terminated until a customer's delinquent status has exceeded six months and the amount owed the BWSC is \$250 or more.

As a third and final step toward assisting Boston's neediest ratepayers, I have directed the City's budget office to establish a Water Shutoff Prevention Fund, using a portion of the City's savings from the rate freeze to assist those in need who may not meet the Commission's revised guidelines.

In these economically uncertain times, this fund, together with the 18-month rate freeze and the BWSC's revised shutoff policies, will help secure the safety net we all seek to protect the neediest of Boston's residents.

Sincerely,

Thomas M. Menino,
Acting Mayor of Boston.

(Annexed hereto is the order referred to.)

Assigned for further action.

ORDER FOR PETITION FOR SPECIAL LAW RE PRODUCTIVITY INVESTMENT FUND (DOCKET NO. 1142)

The following was received:

City of Boston
Office of the Mayor

August 13, 1993.

To the City Council.

Dear Councillors:

I transmit herewith for your approval Home Rule legislation authorizing the establishment of a revolving loan fund to be known as the City of Boston Productivity Investment Fund, and whose purpose is to fund productivity initiatives by City departments.

The Productivity Investment Fund will provide City departments with resources to support initiatives which reduce the cost of municipal services or increase revenue to the City. Specifically, it will encourage departments to undertake initiatives that will benefit the City's operating budget over time, but require a one-time initial expenditure. Examples may include investment in energy saving equipment or facilities, new equipment or data processing applications that reduce costs needed to do a job, or design of new operating procedures that reduce department operating costs.

Because loans will be conditioned on demonstrating measurable savings or revenue and must be repaid, the Productivity Investment Fund offers City departments an incentive to make productivity an explicit goal. A competitive application process which rewards the best, most creative ideas, reinforces this notion and also encourages departments to be innovative.

As you know, we have realized many economies through careful management during these tough fiscal times. However, the continuing threat to service delivery means that we must seek new and creative ways to do more with less.

I therefore respectfully request adoption of this legislation by your Honorable Body.

Sincerely,

Thomas M. Menino,
Acting Mayor.

Ordered, That a petition to the General Court, accompanied by a bill for a special law relating to the City of Boston to be filed with an attested copy of this order be, and hereby is, approved under Clause (1) of Section eight of Article two, as amended, of the Amendments to the Constitution of the Commonwealth of Massachusetts, to the end that legislation be adopted providing precisely as follows, except for clerical or editorial changes of form only:

Section 1. The City of Boston upon majority vote of the city council with the approval of the mayor is hereby authorized to establish by ordinance a revolving loan fund to be known as the City of Boston Productivity Investment Fund which shall be maintained by the city treasurer separate and apart from all other funds. The productivity investment shall be funded by appropriation. Expenditure on behalf of the city departments may be made from said fund without further appropriations, but only for the purpose of funding cost saving or generating initiatives prepared by city departments and only with written approval of the mayor. All expenditures made from said fund shall be in the form of loans to city departments for terms established in the loan agreement which shall be repaid with funds appropriated annually for said purpose by the city council with the approval of the mayor. All unspent or unencumbered monies in said fund at the end of the fiscal year shall be carried over into the next fiscal year and loaned to city departments for the purpose hereof without further appropriation.

The City Auditor shall submit annually a report of the activities of said fund to the mayor and city council.

Section 2. This act shall take effect upon its passage.

Referred to the Committee on Ways and Means.

RESOLUTION URGING NEW ADMINISTRATION
RESOLVE ALL OUTSTANDING UNSIGNED
CONTRACTS WITH MUNICIPAL AND
COUNTY EMPLOYEES (DOCKET NO. 1165)

Coun. O'NEIL offered the following:

Whereas, One responsibility left incomplete by the former city administration was renewal of contract agreements with some of the city/county worker unions;

Whereas, For the sake of equity and lifting of morale, the new administration should set as one of its priorities concluding collective bargaining with all city and Suffolk County employee groups currently without labor contracts;

Whereas, The need was demonstrated at a meeting August 4 in the Iannella Council Chamber with about 100 correction officers from the Suffolk County Jail and House of Correction;

Whereas, Speakers for the two locals explained they have been working without a contract for three years, and now have been told they will not even receive a cost of living adjustment for that period;

Whereas, The administration just departed awarded decent pay raises to favored unions while offering less to some of the other labor groups;

Whereas, Given that City policy embraces a "harmony" requirement for labor peace from private contractors on city jobs, it follows that the city should seek harmonious relationship within its own labor force; therefore, be it:

Resolved, The Boston City Council, cognizant of its Charter restrictions involving the Executive Branch, respectfully urges the Acting Mayor to exert his good influence and respective city labor groups to cooperate in good faith so that collective bargaining issues still pending can conclude in fair settlement.

The resolution was adopted under suspension of the rules.

MOTION OF COUNCIL O'NEIL
(DOCKET NO. 1166)

Coun. O'NEIL moved that the attached letter be forwarded to Acting Mayor Thomas M. Menino:

August 16, 1993

To: His Honor, Acting Mayor Thomas Menino
From: Boston City Councillor Albert L. O'Neil

I want to make it crystal clear that I am no way trying to interfere with the Executive Branch of City Government.

I am only trying to help solve a problem which I feel is a serious matter. I want to resolve the unions' cost-of-living raise.

1. Sheriff Rufo has just received an eight million, thirty-nine thousand dollar grant from the Commonwealth of Massachusetts, he did not appear at a hearing held at the City Council on August 13, 1993. He has just been requested to submit a copy of his payroll.

2. It is a must that the Boston School Department budget be cut in order to raise money for cost of living raises for all employees in the unions.

3. There are many city agencies that the city pays millions of dollars. We have an empty building at English High School which we should be utilizing.

4. Thousands of dollars are being spent to remodel the sixth floor at Boston Police Headquarters. Why then are we moving the new police headquarters to the South End?

5. There are too many vehicles issued to the various departments in the city including the Boston Police Department, many which are driven out of Boston.

6. The Parkman House is used to house the Park Department Executive Office, it could be used to occupy another department.

7. Alleviate some of the vehicles used by the Traffic and Parking Department.

8. Both licensing boards should be merged as one entity.

9. As we have many neighborhood associations in the city we do not need any other department.

10. We could eliminate many departments in the City of Boston.

Note: No more bid contract—refer to *City Record*. No more consultants.

The motion was carried.

Coun. SALERNO offered the following:

City of Boston

In the Year Nineteen Hundred and Ninety-three
An Ordinance For Administrative Citations For Violations of the State Sanitary Code.

Whereas, A serious public emergency exists in the City of Boston with respect to residential premises which are in violation of the state sanitary code, causing many citizens to live in unsafe conditions;

Whereas, The legal remedies available to the Inspectional Services Department in enforcing this code, as well as other applicable state laws and regulations, are insufficient to encourage timely repair of rental properties;

Whereas, Owners often avoid repairing sub-standard properties, thereby endangering the lives, safety, and property of tenants and severely limiting the ability of many people to remain in their homes safely, therefore

Be it ordained by the City Council of Boston, in accordance with the provisions of Massachusetts General Laws Chapter 43B, Section 13, and any other applicable law as follows:

Section 1. Purpose

To provide the Inspectional Services Department with the remedies necessary to effectively carry out its mandate under state law, to guarantee tenants of the City of Boston housing which complies with the state sanitary code and other applicable laws and regulations, and to encourage owners to maintain the buildings they own in compliance with this code, laws and regulations by enacting an ordinance under which administrative citations are issued to owners who violate the state sanitary code.

Section 2. Definitions

(A) "Administrative Citation" means a notice issued to an owner by the Inspectional Services Department, pursuant to this ordinance, which provides a statement of the terms under which the owner may be fined for failure to remedy violations of the State Sanitary Code and a statement of the owner's right to appeal the issuance of the administrative citation and/or fine.

(B) "Dwelling" means every building or shelter including but not limited to rooming houses and temporary housing used or intended for human habitation and every other structure or condition located within the same lot line whose existence causes or is likely to affect noncompliance with the provisions of 105 CMR 410.000.

(C) "Dwelling Unit" means the room or group of rooms within a dwelling used or intended for use by one family or household for living, sleeping, cooking and eating. Dwelling unit shall also mean a condominium unit.

(D) "Inspectional Services Department" means the legally designated authority for the City of Boston, authorized by CBC 9-9, to enforce the state sanitary code through the inspection of rental units for violations of the code and the implementation of mechanisms to ensure compliance with repair orders.

(E) "Occupant" means every person over one year of age living or sleeping in a dwelling or dwelling unit.

(F) "Owner" means every person who alone or severally with others (a) has legal title to any rental unit, or parcel of land, vacant or otherwise, including a mobile home park; or (b) has care, charge or control of any

dwelling, rental unit, mobile dwelling unit or parcel of land, vacant or otherwise, including a mobile home park, in any capacity including but not limited to agent, executor, executrix, administrator, administratrix, trustee or guardian of the estate of the holder of legal title; or (c) mortgagee in possession; or (d) agent, trustee or other person appointed by the courts; (e) any officer or trustee of the association of unit owners of a condominium; (f) a bank or other lending institution in possession as a result of foreclosure; or (g) any person who operates a rooming house. The term "owner" includes landlords and lessors.

Section 3. Administrative Citations: Issuance

(A) Whenever the Inspectional Services Department finds any violation of any provision of the state sanitary code it shall issue, in addition to its order to make repairs, an administrative citation against the owner according to the procedures set out in this ordinance.

(B) The administrative citation shall incorporate by reference the order to make repairs and shall contain the following information:

- (1) the date of the inspection;
- (2) the amount of fine which shall be assessed against the owner if the violation or violations are not remedied within the time frame set out in order to make repairs as well as the rate at which the fine shall escalate pursuant to Section 8(B) and (C) of this ordinance;

- (3) the manner in which the owner may pay any fine assessed in accordance with the provisions of this ordinance; and

- (4) a description of the owner's appeal rights with respect to the issuance of the administrative citation and of any fine.

(C) The Administrative citation shall be served on the owner, along with any orders to make repairs, in accordance with the provisions of the state sanitary code.

(D) A copy of the administrative citation shall also be delivered on the occupants of the dwelling or dwelling unit in which violations have been found and shall be posted in the common areas of the dwelling. If violations of the state sanitary code are found in the common areas of any dwelling, a copy of the administrative citation shall be delivered on each and every tenant of the dwelling.

(E) A copy of the administrative citation shall be retained by the Inspectional Services Department and be available for public inspection and copying.

(F) Nothing in this Section shall interfere with an owner's right to appeal the issuance of an order to make repairs under the State Sanitary Code.

Section 4. Repairs

(A) An owner shall make any and all repairs necessary to remedy any violations found by the Inspectional Services Department within the time frame stated on the order to make repairs, unless he or she requests a hearing pursuant to the hearing regulations of the State Sanitary Code.

(B) The Inspectional Services Department shall, within five days after the dates for compliance specified in an order to repair pursuant to 105 CMR 410.830, make an on site inspection to determine whether there has been compliance with its order. However, if one or more of the violations or conditions cited in the order to repair are determined to be conditions which may endanger the health or safety, and well-being of the occupant(s) as defined in 105 CMR 410.750, this inspection shall be made within 24 hours of the dates for compliance specified in an order. An inspection under 105 CMR 410.830(A)-(N)

shall comply with the requirements of 105 CMR 410.822.

(C) If, upon re-inspection, it is determined that the owner has remedied the violations cited in the order to make repairs, the administrative citation shall so note this finding and shall be filed with the Inspectional Services Department. Any subsequent order to make the same repairs shall, for the purposes of this Ordinance, be deemed a new and separate violation of the State Sanitary Code.

(D) Copies of the administrative citation indicating that the violation has been remedied and no fine has been assessed shall be served on the same individuals who received notice of the initial administrative citation. This notice shall be served within five days of the re-inspection.

(E) If, upon re-inspection, it is determined that the owner has failed to remedy the violations cited, this shall be noted on the administrative citation and a fine shall be assessed against the owner in accordance with the terms of Section 6 of this ordinance.

(F) Copies of the administrative citation noting the assessment of a fine for failure to remedy the violations cited shall be served on the same individuals who received notice of the initial administrative citation within five days of the fine being assessed against the owner.

Section 5. Extensions

(A) An owner who has made a good faith effort to remedy any violations cited in an order to make repairs and an administrative citation may apply to the Inspectional Services Department for an extension of the time set for making repairs by requesting a hearing under the hearing provisions of the State Sanitary Code.

(B) A good faith effort shall be found to exist only in the following circumstances:

- (1) if the owner provides evidence that the repairs cannot be completed within the required time frame. Such evidence shall be in the form of at least two written estimates from outside professionals, one of which the owner has accepted in writing, stating when the repairs will be made; or

- (2) if the owner is unable, despite serious and substantial efforts to obtain financing for repairs. In order to qualify for an extension under this sub-section, the owner must present written and verifiable evidence of all efforts to obtain financing as well as written and verifiable evidence of a present financial inability to meet the cost of repairs.

(C) In any case where an extension has been granted for the remedying of any violation, a new date shall be set by the Inspectional Services Department by which the owner shall remedy the violation and a re-inspection shall take place in accordance with Sections 4(C) through 4(F) of this ordinance.

(D) No extensions shall be granted in any case where an owner has received a fine for the same or similar violations in the same unit within the twelve-month period immediately preceding issuance of the current administrative citation.

(E) In no event shall the time frame for repairs including any extensions be greater than ninety days from the date of the issuance of the order to make repairs.

Section 6. Fines for Failure to Repair

(A) If an owner fails to remedy a violation cited in an order to make repairs within the allotted time frame, or fails to remedy the violation within the time frame set out in any extension granted under Section 5 of this ordinance, or fails to file a timely appeal, a fine shall be assessed against the owner.

(B) Notice of the assessment of a fine shall be served on the owner in accordance with the notice provisions of the State Sanitary Code.

(C) Notice of the fine shall be served on the same individuals who received notice of the initial administrative citation.

(2) The appeal shall be in writing and shall state, in detail, the grounds for the appeal;

(B) The fine shall continue to accrue after the filing of an appeal but the fine shall not be collected until after the administrative determination. An appeal shall not stay the owner's obligation to repair any violation cited.

(C) A hearing shall be held on the appeal following the same procedures available in an appeal of the issuance of an order to make repairs which are set out in 105 CMR ss. 410.850 and 410.860, except that any appeal to court shall be governed by the provisions of Massachusetts General Laws, Chapter 30A.

(D) Appeals under this shall be limited to review of the decision of the Inspectional Services Department to issue or not to issue a fine under this Ordinance, and shall not include issues otherwise appealable pursuant to 105 CMR ss. 410.850 and 410.860.

(E) Nothing in this section shall be construed to affect or impair the right of appeal the issuance of an order to make repairs in accordance with 105 CMR ss. 410.850 and 410.860.

(A) Notice of a fine which has been issued pursuant to Section 6 of this ordinance shall be served on the owner and on the occupants who received notice of the initial administrative citation.

(C) A property tax lien may be taken by the City of Boston against the owner if the tripled fine is not paid within six months of service of the notice of the fine or the issuance of the next property tax bill, whichever is later, and the owner shall be notified of this action prior to its being taken.

(D) Any person aggrieved by the failure of the City of Boston to take such enforcement action may seek injunctive relief in the district or superior court pursuant to Massachusetts General Laws, Chapters 214 and 218, s. 19C to require action by the City of Boston in accordance with its enforcement obligations under this section.

Section 9. Effect of Fine In Subsequent Court Actions

(A) A copy of the administrative citation indicating that a fine has been issued as a result of the owner's failure to remedy a violation cited in the administrative citation shall be *prima facie* evidence of a violation of Massachusetts General Laws, Chapter 111, s. 127A, *et seq.*, and Chapter 239, s. 8A, in any legal action by or against the owner.

Section 10. Revenue Generated

(A) Any revenue generated by the implementation of this ordinance in excess of the cost of administering it shall be deposited by the Inspectional Services Department in a special fund and shall be allocated as follows: 1) fifty percent dedicated to providing fundamental assistance to owners who, due to financial hardship, are unable to remedy violations cited in an administrative citation; and 2) fifty percent dedicated to repairing dwellings and dwelling units which have so deteriorated as to constitute a public nuisance and which have been removed, by operation of law or a court order, from the control of the owner as a result of the deterioration.

Ordered, That a public hearing be held by the Ways and Means Committee to discuss and review the policies and practices of the Neighborhood Housing Trust and the City of Boston's Linkage Program.

COMMITTEE ON WAYS AND MEANS TO HOLD HEARING TO REVIEW CITY'S LINK DEPOSIT POLICY (DOCKET NO. 1199)

Whereas, Various advocacy organizations in the City of Boston continue to identify a lack of credit availability in several of Boston's neighborhoods and,

Section 4. Said section 8, as amended by said section 4 of said chapter 296, is further amended by striking the last three paragraphs and inserting in place thereof the following three paragraphs:

Said board of appeal shall fix a reasonable time for the hearing of any appeal and give at least twenty days public notice thereof in a newspaper of general circulation in the city. Said board of appeal shall also send notice, by mail, postage prepaid, at least twenty days prior to the hearing, to the appellant and to the owners of all property deemed by said board of appeal to be affected thereby, as they appear on the then most recent local tax list, and to any person filing written request for notice of hearings, such request to be renewed yearly in December, and to the Boston Redevelopment Authority. The board shall schedule the hearing in the evening, if the board receives from the mayor or any city councillor and from fifty residents of the neighborhood in which the project is located, prior to the submission of the notice for publication and the mailing of

the notice, a written request that the hearing be scheduled in the evening. The notice sent by mail shall identify the specific variance, exception, or other zoning relief which the appellant is seeking. At the hearing any party whether or not entitled to notice thereof may appear in person or by agent or attorney. The board of appeal may in its discretion administer oaths to all persons testifying at said hearing. No such hearing shall be held any day on which a state or municipal election, preliminary election or primary is held in said city.

In acting upon such appeal, said board of appeal may, in conformity with the provisions of this act, reverse or affirm in whole or in part, or may modify, any order or decision, and may make such order or decision as ought to be made, and to that end shall have all the powers of the board or officers from who the appeal is taken and may direct the issue of a permit. The board may in its discretion continue the hearing in order that the appellant may meet with any residential neighborhood organization specified by the board to discuss the appeal, and the board may in its discretion deny the appeal without prejudice in the event the appellant fails to do so. The concurring vote of five members of said board of appeal shall be necessary to reverse any order or decision of any administrative official under this act, or to decide in favor of the appellant on any matter upon which it is required to pass under any zoning regulation or amendment thereof, or to grant any variance in, or exception to, the application of any such regulation or amendment.

Said board of appeal shall cause to be made a detailed record of all its proceedings, which record shall set forth: the reasons for its decision; the vote of each member participating therein; the absence of a member or her or his failure to vote; and any conditions or provisos to which the granting of any variance or exception was made subject by vote of said board of appeal at the hearing. Such record shall be filed in the office of the building commissioner of the city within ninety days of the hearing and shall be open to public inspection; provided that the board may for good cause extend the time for such filing. Notice of such decision shall be mailed forthwith to each party in interest as aforesaid, to the Boston Redevelopment Authority, to every person receiving notice of the hearing, and to every person present at the hearing who requests that notice be sent to her or him and states the address to which such notice is to be sent.

Section 5. Section 11 of said chapter 665, as amended by section 1 of chapter 669 of the acts of 1974, is further amended by striking the first paragraph and inserting in place thereof the following paragraph:

Any person aggrieved by a decision of said board of appeal, whether or not previously a party to the proceeding, or any municipal board or officer, may appeal to the superior court sitting in equity for the county of Suffolk or, in the event that such decision is concerned with any building or place used, or intended or permitted for use, as a place of human habitation, to the housing court of the city of Boston; provided that such appeal is filed in either of said courts within twenty days after such decision is filed with the building commissioner. The court may in its discretion require the person or persons so appealing to file a bond with sufficient surety, for such a sum as shall be fixed by the court, to indemnify and save harmless the person or persons in whose favor the decision was rendered from damages and costs which he or she or they may sustain in case the decision of said board is affirmed; provided that the court shall not require the filing of such bond in an amount exceeding \$25,000 in any appeal of a decision of said board granting a variance, exception, or other zoning relief with respect to any zoning regula-

tion or amendment thereof, if the project for which such variance, exception, or other zoning relief was granted involves the construction, renovation, rehabilitation, or change in use of less than 50,000 square feet of space. Upon an appeal under this section, the court shall hear all pertinent evidence and determine the facts, and upon the facts as so determined, annul such decision if found to exceed the authority of such board or make such other decree as justice and equity may require. The foregoing remedy shall be exclusive; but the parties shall have all rights of appeal as in other civil actions.

Section 6. Said chapter 665 is hereby further amended by striking section 12, as amended by section 2 of said chapter 669, and inserting in place thereof the following section:

Section 12. The superior court or, in the event that the premises involved are used or intended or permitted for use as a place of human habitation, the housing court of the city of Boston sitting as aforesaid, shall have jurisdiction to enforce the provisions of this act, the provisions of the State Building Code, any zoning regulation or amendment adopted under this act, and any decision of the board of appeal under any zoning regulation or amendment adopted under this act, including any condition or proviso in such decision, and may restrain by injunction violation thereof.

Section 9. The provisions of this new act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions.

LIGHT A LIFE CAMPAIGN BENEFITS HOSPICES

Mayor Thomas M. Menino, Parks Commissioner Patrick S. Harrington, and Hampshire House Owner Thomas Kershaw kicked off the City of Boston's annual LIGHT A LIFE campaign at Faneuil Hall Marketplace. Festivities included button-selling, Christmas carols performed by a brass band, and light refreshments.

This holiday season, hundreds of volunteers sold \$1 buttons to benefit area hospices as the City of Boston's annual LIGHT A LIFE campaign. Proceeds from button sales and donations benefit the services of the Children With Aids Program (CAP), Good Samaritan Hospice, Hospice of Boston, Hospice of Mission Hill and Trinity Hospice. Buttons were sold at Boston Garden events, aboard Boston Trolley Tours, Downtown Crossing, South Station, Winter Wonderland on Boston Common and other retail and business outlets.

Co-chaired by Mayor Menino, Commissioner Harrington, and Tom Kershaw, LIGHT A LIFE raised over \$60,000 last year and is the past recipient of the National Hospice Organization's Award For Excellence.

Hospices help terminally ill patients who choose not to die in traditional hospitals live as comfortably as possible during their last months and days. Hospice care addresses the individual's every need, whether physical, psychological or emotional and also offer counseling to patients' grieving loved ones.

Hospices provide services during the last six months of life and address three major problems of dying: pain, loneliness, and loss of control in a caring family environment that affirms personal dignity and quality of life. Now in its fourth year, Light A Life was originally known as Light A Light, which helped raise funds for the annual Boston Common Tree Lighting. Due to its success, the campaign was revamped as "Light A Life" with all proceeds benefiting hospice care. Buttons were

sold at local retail outlets, schools, businesses and community groups throughout the holiday season as well as at Boston Garden events, Downtown Crossing, South Station, Prudential Center, Winter Wonderland on Boston Common, and aboard Boston Trolley Tours.

MAYOR MENINO NAMES AIDS

ADVISORY COMMITTEE

Mayor Thomas M. Menino marked World AIDS day by naming six people to his new HIV/AIDS Advisory Committee.

"Boston has done a good job in the past in providing services through Boston City Hospital, through neighborhood health centers, and through our remarkable teaching hospitals," Menino said. "We have developed a model of community-based response to the epidemic of AIDS. But we must do more to protect the future. Under my direction, we will begin immediately to make HIV prevention a priority."

December 1 was World AIDS Day, a day to remember those who have died from AIDS and to plan a new assault on the epidemic. Menino said his advisory committee will set the agenda for Boston's fight against AIDS.

The committee consists of Harvey Feinberg, Dean, Harvard University School of Public Health; Barbara Gomes-Beach, Executive Director, Multicultural AIDS Coalition; Larry

Kessler, Executive Director of the AIDS Action Committee and a former member of the National Commission on Aids; Jonathan Mann, Director of the Francois-Xavier Bagnoud Center for Health and Human Rights and former Director of the Global Program on AIDS for the World Health Organization; Nicolas Parkhurst Carbalreira, Executive Director, Latino Health Institute; and Michael Savage, Executive Director of the Fenway Community Health Center. The Mayor's advisor on AIDS, Gary Sandison, will work with the group.

MAYOR MENINO, PRESIDENT CLINTON MEET FOR ANTI-CRIME DISCUSSION

Mayor Thomas M. Menino and a contingent of mayors and police commissioners from across the country met with President Clinton, on December 9, and asked for his help in fighting urban violence.

At the hour-long White House meeting, Mayor Menino lobbied for federal funding to put more police officers on Boston's streets and said he will create a "Citizens' Lobby" in Boston to galvanize public support around anti-crime legislation.

"America's cities are in urgent need of a national action plan to turn the tide on violence and crime," Mayor Menino said. "The recent passage of the Brady Bill was just the start of what has to become a serious national effort to make our streets safer."

Mayor Menino, Commissioner William Bratton and representatives of the U.S. Conference of Mayors (USCM) presented the President with eight pages of recommendations on how cities can best fight crime. Their proposal, "A National Action Plan to Combat Violent Crime," calls for direct federal funding for additional police officers, the passage of a firearms control legislation package, expanded drug control efforts, the strengthening and restruc-

KEEP BOSTON MOVING . . . SAFELY!

ing of the criminal justice system, partnership to prevent violent crimes, and a concerted effort to address the root causes of crime.

Further, Mayor Menino outlined the President his plan to create a "Citizens' Lobby" in Boston that would serve as a national model. This effort would inform and enlist Bostonians to keep important criminal justice legislation in the public eye and would help achieve passage of legislation that would have a major impact on public safety in this city.

Mayor Menino said the Citizens' Lobby would act as an advocacy group for a wide range of public safety and criminal justice initiatives, working on local, state and federal levels.

The USCM's National Action Plan — drafted at an emergency meeting of police chiefs and mayors from 31 cities last month and given to the President — calls for the following:

Funding For Police Officers

Funding must be appropriated, not just authorized. Other programs addressing root causes of crime, like Community Development Block Grant funds, must not be cut to provide additional police funding. Federal funding must go directly to the cities and not be passed through the states.

Comprehensive Firearms Control Legislation

A ban is needed on all assault weapons and their component parts. Firearms owners must be licensed at a significant fee. An increase is needed in the tax on firearms and ammunition. Revenues from this tax could fund programs for victims of violence and for violence prevention programs. Like a home rule petition pending in Boston, the USCM called for a ban on the transfer to and possession of firearms by minors.

Expanded Drug Control Activities

With studies showing illegal drug activity accounting for nearly 75 percent of all crime, the USCM asked that emphasis be placed equally on

demand reduction and supply reduction, and that "casual drug use" be prosecuted fully. Mandatory minimum sentences should be enacted for all drug sale convictions. More drug courts are needed. Increased support is needed for efforts to reduce drugs in the workplace.

Strengthening and Restructuring the Criminal Justice System

The focus of juvenile justice on treatment and guidance over punishment must be changed for violent crimes. Juvenile justice funding must be increased; confidentiality of juvenile records should be eliminated and violent offenders tried as adults. Court staff must be expanded to keep pace with increased police efforts, particularly parole and probation staff. Prison space must be increased to stop "revolving door" releases. Boot camps and other alternative programs must be expanded, along with follow-up activities.

Addressing the Root Causes

The above are short-term responses to violent crime. The root causes must be addressed for long-term impact. A comprehensive jobs program is needed to rebuild cities. Strong neighborhoods and community crime prevention efforts need to be fostered. Strong families — parental responsibility, quality education, jobs, and recreational activities must be stressed. Early intervention is needed for healthy children: health care, nutrition, Head Start support needed.

Partnership to prevent Violent Crime

The USCM called on President Clinton to co-sponsor a crime summit to develop a national strategy and commitment to prevent crime and violence, with particular attention paid to root causes. Meetings must continue between mayors, police chiefs, and their counterparts on the state and federal levels to increase information sharing. Non-law enforcement agencies working on crime prevention efforts — schools, public health agencies, business — must join the partnership. Efforts should be made to decrease violence

as presented in the entertainment industries.

"Until we commit ourselves to making this Action Plan a reality, crime and violence will continue to threaten the future of America's cities," Mayor Menino said. "I am hopeful that our meeting with the President will mark the start of an anti-crime revolution in America."

NEF UNVEILS AMBITIOUS FIVE-YEAR BOSTON INVESTMENT PROGRAM

With a permanent federal Low Income Housing Tax Credit finally in place, LISC's National Equity Fund announced an unprecedented equity investment for the creation of affordable housing in Boston. Joined by Mayor Thomas Menino, NEF announced a five-year, multi-million-dollar investment expected to increase the amount it has invested in the Boston area by more than threefold.

The Boston commitment follows announcements in Washington, D.C., and across the country where the Local Initiatives Support Corporation and NEF, its affiliate, committed a total of \$1.5 billion nationwide for housing production over the next five years.

On Tuesday, December 14 at 1 p.m., Mayor Thomas Menino, LISC President Paul Grogan, and representatives of Boston investors NYNEX, Prudential, Fannie Mae and Fleet Bank joined community development leaders to announce NEF's commitment to neighborhood-based developers for community renewal and affordable housing initiatives in Boston's struggling neighborhoods.

"I am proud that LISC's National Equity Fund is making a major commitment to the Boston area," said Mayor Menino. "We have one of the most significant and successful networks of community-based organizations in the country, and this commitment will allow them to go forward with a new round of affordable housing initiatives."

"With the new commitment in Washington to innovative approaches for community renewal, and with a now-permanent Tax Credit, we plan to unleash its full potential," said LISC President Paul Grogan. "We intend to expand and deepen corporate support, ensure a consistent source of private investment and build on the past successes of community-based developers in transforming neighborhoods and lives across the country."

The \$1.5-billion national commitment by NEF is the single largest private investment ever committed to affordable housing and community renewal. Boston is one of 11 cities and regions across the country that LISC and NEF have targeted for significant investment. The other areas include Chicago, Cleveland, New York, California, Philadelphia, Kansas City, Minneapolis/St. Paul, Connecticut, Indianapolis and Little Rock.

Despite the uncertain fate of the Tax Credit during the past six years, NEF was able to raise more than \$620 million in equity from some 100 corporations to support the creation of more than 15,000 quality affordable homes and apartments. In the Boston area NEF has invested \$22 million to help develop 512 units of affordable housing.

LISC operates in 30 cities and regions throughout the country and provides financing and technical assistance to nonprofit community-based developers. LISC created the National Equity Fund in 1987 to channel private investment into affordable rental housing via the Low Income Housing Tax Credit. The largest nonprofit syndicator of tax credits, NEF uses this private investment to enable community developers to leverage additional public and private financing.

MRS. GAINES ELECTED PRESIDENT OF BPL TRUSTEES

Mrs. Berthé M. Gaines was elected president of the Boston Public Library's Board of Trustees at the Board's annual meeting held in May. Mrs. Gaines was nominated by the Honorable William M. Bulger, president of the Massachusetts Senate, whom she succeeds as president of the five-member board.

Initially appointed to the Board by Mayor Flynn in 1984 and then reappointed in 1990, Mrs. Gaines is the first woman to be elected president. She is only the fourth of five women and the first African-American woman, to serve as a trustee of the Boston Public Library since it was established in 1848.

Also unanimously elected by the Trustees to one-year terms were Arthur F. F. Snyder, vice-chairman of the Board of the United States Trust Company, vice president; and Jamie A. McGlone, special staff officer of the Boston Public Library, clerk of the Corporation.

In other annual meeting business, trustee Robert W. Consalvo announced his resignation and Mayor Flynn's ap-

appointment of Michael Whouley to serve his place on the Board.

Shortly after her election as president of the Board, Mrs. Gaines made her first appearance in that office at a budget hearing of the Boston City Council where she offered the following remarks.

"Little did I know that 12 years ago when Francina Gelzer, then supervisor of the Dudley district of the Boston Public Library, asked me to join the Dudley Friends that it would lead to my sitting here today as the first female president of the Board of Trustees in 30 years.

"To have been appointed to the Board by Mayor Flynn in 1984 as the first African-American woman was an honor, but to serve is indeed a privilege. A privilege and a trust I take seriously.

"This has been a challenging and exciting period for the Library with advancements and changes in technology, and the enlarging, upgrading, and acquisition of buildings. But most challenging of all is the service to a growing number of citizens from all countries of the world — citizens with diverse cultural needs. And this all has been undertaken, unfortunately, with a shrinking staff.

"The administration, staff, and trustees are dedicated, hardworking people who try to carry out the mission of the Boston Public Library: that is, to serve, free to all, the citizens of the Commonwealth of Massachusetts.

"As I proceed forward in my new role as president of the Board, I wish to thank members of the City Council for their help and consideration to the Library in the past — and with the hope that we continue our positive working relationship in the future."

JIMMY CARTER AMONG NOTED AUTHORS APPEARING AT BPL

Patrons of the Boston Public Library are treated to an impressive array of visiting literati earlier this year that included appearances by a former Presi-

dent of the United States, a former chairman of the Joint Chiefs of Staff, a 1993 Pulitzer Prize-winning biographer, and a former director of one of the nation's foremost museums of art.

An overflow crowd of more than 1,000 eager patrons and one of the largest media contingents in the history of the Boston Public Library turned out in January to hear former President Jimmy Carter talk about his new book, *Turning Point: A Candidate, a State, and a Nation Come of Age*, in the initial program of the 1993 Harvard Book Store Café Author Series.

Following welcoming remarks by the Library's Director and Librarian, Arthur Curley, the Hon. William M. Bulger, president of the Massachusetts Senate and then president of the Library's Board of Trustees, introduced the former president to the appreciative audience in the Rabb Lecture Hall.

Following his talk, the former president fielded questions from the audience for nearly an hour on subjects ranging from the 1992 presidential campaign to foreign and domestic policy. The former president then moved to the Boston Room where he autographed copies of his book for hundreds of appreciative patrons.

David McCullough, noted historian and author of *Truman*, delivered the 1993 Francis Moloney Lecture on January 12, before another capacity audience in the Rabb Lecture Hall.

In addition to the Pulitzer Prize-winning biography, for which he was awarded a Guggenheim Fellowship, McCullough has authored a number of other widely-acclaimed works of history and biography. He is also known to millions of television viewers as the host of the award-winning PBS series, "The American Experience," and as narrator of such acclaimed PBS documentaries as "The Civil War" and "LBJ."

The Francis Moloney Lecture honors the Library's late assistant director who made a major contribution to the development of the BPL and to the intellectual and civic well-being of the community. Previous Moloney lecturers have included Thomas Flanagan, Doris

Kearns Goodwin, Seamus Heaney, William V. Shannon, Thomas H. O'Connor, and David Halberstam.

Thomas Hoving, the controversial former director of the Metropolitan Museum of Art in New York from 1967-1977, discussed his book, *Making the Mummies Dance: Inside the Metropolitan Museum of Art* in the Rabb Lecture Hall on January 13. Hoving recounted the bitter storm of controversy raised by the 1969 "Harlem on My Mind" show and his successful campaign to capture the illustrious collections of Nelson Rockefeller and Robert Lehman for the Met — feats which rescued his reputation and assured him an honored place in the museum's history.

Admiral William J. Crowe, Jr., former chairman of the Joint Chiefs of Staff (1985-1989) and University Professor of Geopolitics at the University of Oklahoma, discussed his new book, *Line of Fire*, before another capacity crowd in the Rabb Lecture Hall on April 14.

President Reagan named Admiral Crowe the 11th chairman of the Joint Chiefs of Staff in 1985, a position he held for four years until his retirement in October 1989. His tenure as the nation's senior military officer was marked by several historical developments, including: America's response to state-sponsored terrorism, with the 1986 raid on Libya; the move toward "jointness" in U.S. military operations and the strengthening of the chairman's role by the landmark Goldwater-Nichols legislation; the unprecedented U.S. escort mission of reflagged Kuwaiti tankers in the Persian Gulf; and the historic thaw in the U.S.-Soviet military relations, engineered with Crowe's counterpart, Marshal Sergei Akhromeyev.

ORDER PLACING ON 11/2/93 BALLOT A NON-BINDING QUESTION CAPPING WATER AND SEWER RATES AT 1992 LEVELS AND SCALING BACK HARBOR CLEANUP PROJECT, IF NECESSARY (DOCKET NO. 1240)

Coun. O'NEIL offered the following:

Whereas, Water and sewer service charges have become a serious burden to property owner rate payers in Boston and also throughout the metropolitan area;

Whereas, Forecasts all point to a steeply increased trend with charges programmed to climb even higher in the next few years to carry out the cleaning of Boston Harbor;

Whereas, There appears to be rising sentiment that the multi-billion-dollar expenditure for this huge undertaking may be too extravagant if it drives bills on householders and businesses in the Boston area to oppressive levels;

Whereas, Families and individuals who rent will also be impacted as owners pass along the water-

sewer service hikes or move to have tenants pay directly as with other utilities;

Whereas, In this year's municipal election Boston voters ought to be able to express their views on capping water-sewer bills at the 1992 level, tailoring back, if necessary, the Boston Harbor cleanup project; therefore, be it:

Ordered, In accordance with Massachusetts General Laws, Chapter 53, Section 18A, the following non-binding question shall be placed on the official ballot of the Regular Municipal Election to be held on November 2, 1993:

Do you favor capping water and sewer service rates for users in Boston at the levels in effect as of January 1, 1992, and, if necessary, tailoring the scope of the Massachusetts Water Resources Authority's treatment project for Boston Harbor?

YES ☐

NO ☐

Passed under suspension of the rules.

If the activities are unlicensed, the police commissioner shall report the fact to the law department of the city to notify the proper agency for appropriate prosecution. If the activity fails to register, the law department may notify the licensing agency requesting it rescind or suspend the license as an uncooperative neighbor.

Coun. McLAUGHLIN offered the following:

Whereas, The public which resides in an area as well as their municipal leaders should have a right to know when any such operation is sanctioned by the state; therefore, be it

Whereas, The Great Yankee Rib Cook-Off was held on City Hall Plaza from Thursday, August 26 through Sunday, August 29, 1993; and

DISAPPROVING ORDINANCE AMENDING CBC CHAPTER 6, SECTION 6.3f, EXEMPTING CERTAIN INDIVIDUALS FROM PENALTY FOR VIOLATING RESIDENTIAL PARKING REGULATIONS (DOCKET NO. 0155)

The following was received:

City of Boston
Office of the Mayor

August 30, 1993.

To the City Council.
Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on August 18, 1993, Docket No. 0155, which amends C.B.C. Chapter 6, Section 6.3f by exempting certain individuals from the penalty for violating residential parking regulations established by the Boston Transportation Commission.

However laudable the Council's intentions in promoting this order, the exclusive authority to adopt, amend, alter and repeal traffic and parking rules and regulations, and to prescribe penalties for violations of those rules and regulations, is vested in the Transportation Commission. St. 1929, c. 263, s. 2 (as added by St. 1982, c. 190). Under that law, the City Council's only role in these matters is its ability, with the approval of the Mayor, to approve or reject any penalty in excess of \$15 that has been prescribed by the Commission. The Council may not use this limited role to amend an existing regulation by exempting a class of persons from the prescribed penalty.

Because I share your concern on this issue, and in the spirit of cooperation, I have directed the Transportation Commissioner to develop, within 90 days, a pilot program for home health care providers along with an implementation plan. I will be pleased to review the pilot program with you prior to its implementation and after it is completed in order to assess the feasibility of a permanent program.

Sincerely,

Thomas M. Menino,
Acting Mayor.

(Annexed hereto is the ordinance referred to.)

Assigned for further action.

DISAPPROVING ORDER GRANTING LICENSE TO OPERATE MOTOR VEHICLES IN CITY FOR PURPOSE OF CARRYING PASSENGERS (DOCKET NO. 1036)

The following was received:

City of Boston
Office of the Mayor

September 3, 1993.

To the City Council.
Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on August 18, 1993, Docket No. 1036, which purports to grant a license to operate motor vehicles in the City of Boston for the purpose of carrying passengers.

The reason for my disapproval is that the exclusive authority to license sight-seeing automobiles in the City of Boston is vested in the Police Commissioner. St. 1931, c. 399. The applicant in question has been instructed to contact the Boston Police Hackney Division for processing of their application.

Sincerely,

Thomas M. Menino,
Acting Mayor.

(Annexed hereto is the order referred to.)

Assigned for further action.

DISAPPROVING ORDER ACCEPTING PROVISIONS OF CHAPTER 469 OF ACTS OF 1987 PROVIDING FOR ADDITIONAL COMPENSATION FOR ASSESSORS AND ASSISTANT ASSESSORS (DOCKET NO. 1120)

The following was received:

City of Boston
Office of the Mayor

September 13, 1993.

To the City Council.
Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on August 25, 1993, Docket No. 1120, accepting the provisions of Chapter 469 of the Acts of 1987 and providing a 10 percent pay increase for Assessing Department employees who have completed requirements to become certified assessors. This veto is based on a variety of reasons.

First, the Order provides pay raises without the appropriate collective bargaining process. Assessing has developed a comprehensive system of job titles with compensation that is appropriate to reflect the skills and training of various levels of employees. Your order ignores the existing system and would thus undermine the Department's efforts to improve staff capacity and compensate employees according to their job descriptions.

Second, the Order would create an unbudgeted expense of nearly \$10,000, in the Assessing Department which would have to be covered by eliminating some other planned expenditure.

Finally, given the City's difficult financial situation as a result of local aid cuts, and the fact that many employees have gone without a collective bargaining increase for several years, the Order creates an inequity. Especially in that context, special legislation to increase a premium that the two affected employees already receive is inappropriate.

Sincerely,

Thomas M. Menino,
Acting Mayor.

(Annexed hereto is the order referred to.)

Assigned for further action.

ORDER FOR PETITION FOR SPECIAL LAW RE: AN ACT AUTHORIZING PREFERENCE IN AWARD OF CONTRACTS TO BOSTON-BASED BUSINESSES (DOCKET NO. 1259)

The following was received:

City of Boston
Office of the Mayor

September 13, 1993.

To the City Council.

Dear Councillors:

I transmit herewith for your approval Home Rule legislation authorizing the City to initiate and implement Boston-based business preference for the provision of goods and services in the contracting process.

Boston-based businesses provide jobs for our residents and stability in our neighborhoods. All residents of Boston would benefit from an expanded business base in terms of increased employment opportunities and additional tax revenue to support basic city services.

This legislation would allow the City to award contracts to Boston-based vendors if their bid were within 5 percent of the lowest bidder, if the lowest bidder were based outside of the city. A similar policy was in place under the White Administration but was superseded by the provisions of M.G.L. c. 30B, which states that municipalities must accept the lowest bid on city contracts.

Given the restriction of G.L. c. 30B, in fiscal year 1993 the City awarded over 20 million in contract dollars to 870 vendors who were based outside of Massachusetts. In contrast, just slightly more than 5 million in contract dollars were awarded to just 110 Boston-based vendors.

This legislation seeks to give those businesses which are the lifeblood of our neighborhoods of the City and

Commonwealth a better chance to flourish and provide economic benefits of our residents.

I therefore respectfully request adoption of this legislation by your Honorable Body.

Sincerely,
Thomas M. Menino,
Acting Mayor.

Ordered, That a petition to the General Court, accompanied by a bill for a special law relating to the City of Boston to be filed with an attested copy of this order be, and hereby is, approved under Clause (1) of Section eight of Article two, as amended, of the Amendments to the Constitution of the Commonwealth of Massachusetts, to the end that legislation be adopted providing precisely as follows, except for clerical or editorial changes of form only:

Section 1. Notwithstanding the provisions of sections 4(f) and 5(g) of Chapter 30B of the General Laws, or any other general or special law to the contrary, the city of Boston is hereby authorized, subject to the approval of the mayor in writing, to give preference in the award of competitively bid contracts for the procurement of supplies or services for the City of Boston, to businesses which are based in the city of Boston, as hereinafter defined, provided that the difference in the amount between the quotation or bid submitted by the lowest responsive and responsible bidder and the lowest responsive and responsible Boston based bidder not otherwise the lowest bidder does not exceed five percent.

Section 2. The term "Boston based business" is defined as any business entity which:

a. If a sole proprietorship, is wholly owned by a person whose principal place of residence is in the city of Boston and whose sole or principal place of business is in the city of Boston.

b. If a partnership, all or a majority of the general partners live in the city of Boston and the partnership's sole or principal place of business is in the city of Boston.

c. If a business corporation, a majority of the stock is held by a resident of the city of Boston and the corporation's sole or principal place of business is in the city of Boston.

d. If a non-profit corporation, its principal place of business is in the city of Boston.

e. If a joint venture, each business entity which comprises the joint venture satisfies at least one of the eligibility criteria in paragraphs a-d in this section two.

Section 3. In the award of contracts to Boston based businesses pursuant to this act, the city of Boston shall, to the extent practicable, comply with all other applicable provisions of Chapter 30B of the General Laws.

Section 4. This act shall take effect upon passage.

On motion of Coun. CRAYTON, the rules were suspended; **the order was passed.**

Coun. HENNIGAN, on behalf of the Committee on Government Operations, submitted the following:

Report on Docket No. 1197, ordinance re administrative citations for violations of the State Sanitary Code (referred August 18) — recommending passage of the ordinance in the following new draft:

City of Boston

In the Year Nineteen Hundred and

An Ordinance RE Administrative Citations for Viola-
tions of State Sanitary Code

Whereas, A serious public emergency exists in the City of Boston with respect to residential premises which are in violation of the state sanitary code, causing many citizens to live in unsafe conditions;

Whereas, The legal remedies available to the Inspectional Services Department in enforcing this code, as well as other applicable state laws and regulations, are insufficient to encourage timely repair of rental properties;

Whereas, Owners often avoid repairing sub-standard properties, thereby endangering the lives, safety, and property of tenants and severely limiting the ability of many people to remain in their homes safely, therefore

Be it ordained by the City Council of Boston, in accordance with the provisions of Massachusetts General Laws Chapter 43B, Section 13, and any other applicable law as follows:

Section 1. Purpose

To provide the Inspectional Services Department with the remedies necessary to effectively carry out its mandate under state law, to guarantee tenants of the City of Boston housing which complies with the state sanitary code and other applicable laws and regulations, and to encourage owners to maintain the buildings they own in compliance with this code, laws and regulations by enacting an ordinance under which administrative citations are issued to owners who violate the state sanitary code.

Section 2. Definitions

(A) "Administrative Citation" means a notice issued to an owner by the Inspectional Services Department, pursuant to this ordinance, which provides a statement of the terms under which the owner may be fined for failure to remedy violations of the State Sanitary Code and a statement of the owner's right to appeal the issuance of the administrative citation and/or fine.

(B) "Dwelling" means every building or shelter including but not limited to rooming houses and temporary housing used or intended for human habitation and every other structure or condition located within the same lot line whose existence causes or is likely to effect noncompliance with the provisions of 105 CMR 410.000.

(E) "Occupant" means every person over one year of age living or sleeping in a dwelling or dwelling unit.

(F) "Owner" means every person who alone or severally with others (a) has legal title to any rental unit, or parcel of land, vacant or otherwise, including a mobile home park; or (b) has care, charge or control of any

dwelling, rental unit, mobile dwelling unit or parcel of land, vacant or otherwise, including a mobile home park, in any capacity including but not limited to agent, executor, executrix, administrator, administratrix, trustee or guardian of the estate of the holder of legal title; or (c) mortgagee in possession; or (d) agent, trustee or other person appointed by the courts; (e) any officer or trustee of the association of unit owners of a condominium; (f) a bank or other lending institution in possession as a result of foreclosure; or (g) any person who operates a rooming house. The term "owner" includes landlords and lessors.

(G) "State sanitary code" means the state sanitary code, Code of Massachusetts Regulations codified at 105 400.00 - 410.00, adopted under the authority of Massachusetts General Laws, Chapter 111, s. 3 and s. 127A, as it may be amended from time to time.

Section 3. *Administrative Citations: Issuance*

(A) Whenever the Inspectional Services Department finds any violation of any provision of the state sanitary code it shall issue, in addition to its order to make repairs, an administrative citation against the owner according to the procedures set out in this ordinance.

(B) The administrative citation shall incorporate by reference the order to make repairs and shall contain the following information:

- (1) the date of the inspection;
- (2) the amount of fine which shall be assessed against the owner if the violation or violations are not remedied within the time frame set out in order to make repairs as well as the rate at which the fine shall escalate pursuant to Section 8(B) and (C) of this ordinance;
- (3) the manner in which the owner may pay any fine assessed in accordance with the provisions of this ordinance; and
- (4) a description of the owner's appeal rights with respect to the issuance of the administrative citation and of any fine.

(C) The administrative citation shall be served on the owner, along with any orders to make repairs, in accordance with the provisions of the state sanitary code.

(D) A copy of the administrative citation shall also be delivered on the occupants of the dwelling or dwelling unit in which violations have been found and shall be posted in the common areas of the dwelling. If violations of the state sanitary code are found in the common areas of any dwelling, a copy of the administrative citation shall be delivered on each and every tenant of the dwelling.

(E) A copy of the administrative citation shall be retained by the Inspectional Services Department and be available for public inspection and copying.

(F) Nothing in this Section shall interfere with an owner's right to appeal the issuance of an order to make repairs under the State Sanitary Code.

Section 4. *Repairs*

(A) An owner shall make any and all repairs necessary to remedy any violations found by the Inspectional Services Department within the time frame stated on the order to make repairs, unless he or she requests a hearing pursuant to the hearing regulations of the State Sanitary Code.

(B) The Inspectional Services Department shall, within five days after the dates for compliance specified in an order to repair issued pursuant to 105 CMR 410.830, make an on site inspection to determine whether there has been compliance with its order. However, if one or more of the violations or conditions cited in the order to repair are determined to be conditions which may endanger the health or safety, and well-being of the occupant(s) as defined in 105 CMR 410.750, this inspection shall be made within 24 hours of the dates for compliance specified in an order. An inspection under 105

CMR 410.830(A)-(N) shall comply with the requirements of 105 CMR 410.822.

(C) If, upon re-inspection, it is determined that the owner has remedied the violations cited in the order to make repairs, the administrative citation shall so note this finding and shall be filed with the Inspectional Services Department. Any subsequent order to make the same repairs shall, for the purposes of this Ordinance, be deemed a new and separate violation of the State Sanitary Code.

(D) Copies of the administrative citation indicating that the violation has been remedied and no fine has been assessed shall be served on the same individuals who received notice of the initial administrative citation. This notice shall be served within five days of the re-inspection.

(E) If, upon re-inspection, it is determined that the owner has failed to remedy the violations cited, this shall be noted on the administrative citation and a fine shall be assessed against the owner in accordance with the terms of Section 6 of this ordinance.

(F) Copies of the administrative citation noting the assessment of a fine for failure to remedy the violations cited shall be served on the same individuals who received notice of the initial administrative citation within five days of the fine being assessed against the owner.

Section 5. *Extensions*

(A) An owner who has made a good-faith effort to remedy any violations cited in an order to make repairs and an administrative citation may apply to the Inspectional Services Department for an extension of the time set for making repairs by requesting a hearing under the hearing provisions of the State Sanitary Code.

(B) A good-faith effort shall be found to exist only in the following circumstances:

- (1) if the owner provides evidence that the repairs cannot be completed within the required time frame. Such evidence shall be in the form of at least two written estimates from outside professionals, one of which the owner has accepted in writing, stating when the repairs will be made; or
- (2) if the owner is unable, despite serious and substantial efforts to obtain financing for repairs. In order to qualify for an extension under this sub-section, the owner must present written and verifiable evidence of all efforts to obtain financing as well as written and verifiable evidence of a present financial inability to meet the cost of repairs.

(C) In any case where an extension has been granted for the remedying of any violation, a new date shall be set by the Inspectional Services Department by which the owner shall remedy the violation and a re-inspection shall take place in accordance with Sections 4(C) through 4(F) of this ordinance.

(D) No extensions shall be granted in any case where an owner has received a fine for the same or similar violations in the same unit within the twelve-month period immediately preceding issuance of the current administrative citation.

(E) In no event shall the time frame for repairs including any extensions be greater than ninety days from the date of the issuance of the order to make repairs except that permanent owner occupants of any building or structure containing no more than one dwelling unit, or containing no more than two dwelling units, or containing nor more than three dwelling units may apply for an additional thirty day extension under the provisions of this section and provided further that no building or structure shall be considered occupied by the owner thereof unless all legal and beneficial owners occupy one or more of the dwellings therein as their permanent residence.

Section 6. *Fines for Failure to Repair*

(A) If an owner fails to remedy a violation cited in an

order to make repairs within the allotted time frame, or fails to remedy the violation within the time frame set out in any extension granted under Section 5 of this ordinance, or fails to file a timely appeal, a fine shall be assessed against the owner.

(B) Notice of the assessment of a fine shall be served on the owner in accordance with the notice provisions of the State Sanitary Code.

(C) Notice of the fine shall be served on the same individuals who received notice of the initial administrative citation.

(D) The amount of the fine shall be set according to the following schedule:

(1) \$100.00 per day for each violation referred to in 105 CMR 410.750(A)-(N) and required to be corrected within twenty-four hours; or

(3) Notwithstanding the schedule of fines set out in subsections (1) and (2) above, the following caps shall be placed on fines:

(a) a cap of \$1,000.00 per violation for any dwelling whose owner owns less than 35 dwelling units in the Commonwealth of Massachusetts, except that the cap shall be \$2,500.00 for any violations listed in 105 CMR ss. 410.750(A)-(N);

(b) a cap of \$2,500.00 per violation for any dwelling whose owner owns 35 or more dwelling units in the Commonwealth of Massachusetts, except that the cap shall be \$5,000.00 for any violation listed in 105 CMR ss. 410.750(A)-(N);

Section 7. Appeals of Fines

(A) An owner who is aggrieved by the issuance of a fine or an occupant who is aggrieved by the failure of the Inspectional Services Department to fine an owner pursuant to this ordinance may appeal to the Inspectional Services Department according to the following procedures:

(1) An appeal shall be filed within ten days of the date of the action appealed from;

(2) The appeal shall be in writing and shall state, in detail, the grounds for the appeal;

(B) The fine shall continue to accrue after the filing of an appeal but the fine shall not be collected until after the administrative determination. An appeal shall not stay the owner's obligation to repair any violation cited.

(C) A hearing shall be held on the appeal following the same procedures available in an appeal of the issuance of an order to make repairs which are set out in 105 CMR ss. 410.850 and 410.860, except that any appeal to court shall be governed by the provisions of Massachusetts General Laws, Chapter 30A.
